Our Rules for Doing Business and How to Order

Our residence here dates back to 1851.

Our goods are sold in quantities to suit the purchasers. The prices we quote are for goods free on board at depot charge made for cases or packing. Watches and Jewelry we send by Register Mail and prepay postage. All other goods, when ordered by mail, must be accompanied with sufficient cash to pay postage; we will return any in excess of amount. A limit of five pounds can be sent by mail, cost, 16 cts. per lb., 5 cts. register parcel post.

When Sending an Order.

Write at the top of your letter your Post Office address and Province, with the date of writing.

State clearly at the bottom of order how you wish the goods to be sent—whether by Express, Mail or Freight. If by Freight, name the line, if possible; and if by Mail, state whether you wish goods sent by Registered or Open Mail, and remit the money for postage.

How to Order Goods Sent.

NOTE.—We strongly advise our customers, whenever possible, to order their goods sent by Express. If the Express Companies fail to deliver the goods, *they are responsible, and will pay for them.* Another advantage of ordering by express is, that the customer is spared the trouble of estimating the weight of his purchase, which it is often difficult to do with accuracy, although our mail service is excellent.

How to Describe Goods Ordered.

Describe clearly and distinctly the goods you want. If you are ordering something illustrated in the Catalogue, give the Page, the Number of the article, and the Price. If you can find no illustration or description of the thing you want, then describe it as fully as you possibly can, and tell us, if possible, what you want it for, as this knowledge will often enable us to suit you better than we otherwise could. If you are ordering from samples, forward a part of the sample selected. State definitely whether the order must be filled *exactly* as per sample, or whether our judgment may be used in selecting a substitute, where we are unable to furnish the goods represented by the sample.

How to Forward Money.

Better send too much, than too little; all excess is returned with bill, and having too much saves delay in writing for balance due before goods can be shipped. We prefer that remittances be made to us, when possible, by Post Office Money Orders, or Express Money Orders, which are absolutely safe, or if more convenient, remittances may be made by Bank Draft or Registered Letter. Always make payable to The Chas. Stark Co. (Ltd.), Toronto.

Avoid Sending Money by Open Mail.

It places temptation in the way of Post Office employees and others, and is liable to loss without chance of recovery, while P. O. Money Orders and Express Money Orders can be replaced with but little trouble and delay.

A lady should always sign herself Miss or Mrs., to enable us to direct our answers properly.

Sign your letter, writing at least one of your given names in full, thus: John C. Brown; not J. C. Brown, and always use the same name.

Keep a copy of your order, and a memorandum of your letter and its enclosures, for your own future reference. Cases sometimes occur in which an original order miscarries, and the senders are unable to duplicate it from memory.

How to address letters:—THE CHAS. STARK CO. (Ltd.), 52 Church Street, Toronto, Ontario.

Complaints.

When the goods reach you, if they are not in every respect satisfactory, or if you have any complaint to make concerning them *write to us at once*, and we will do our best to satisfy you. If you have any complaint to make concerning an order, be sure and give its number, if you know it. It you cannot do this, then give all the other particulars you can, and be sure that the complaint is signed with the same name and initials as were attached to the order.

How to Return Goods.

Whenever possible, we are willing to oblige our customers by exchanging unsatisfactory goods; but it is always best to write us first before sending them.

No instructions are necessary to enable our customers to return goods by express or freight, as it is simply necessary to pack them carefully and direct them properly.

We sell all goods entirely for *immediate cash*, and everything is figured on that basis.

We never send goods C. O. D. unless $2.00 accompany the order to show you *mean business.* We have to enforce this rule for our own protection. No parcel less than $5.00 sent C. O. D. The $2.00 advanced to guarantee express charges will be deducted from the invoice. Parties ordering goods C.O.D. will have to pay express charges. If a customer lives some distance from an express office and wishes to examine goods for selection, we will consign them to any responsible merchant by registered mail, if guarantee of $2.00 is sent with order. Five pounds in weight can be sent by mail.

Sample Heading for Order.

We enclose one order blank in each Catalogue sent out, and will furnish more upon application, free. It is not absolutely necessary to have these blanks, but they are a great convenience, and prevent many mistakes. If you do not happen to have any handy, try and conform to the sample heading here given, to prevent error.

Watch Department.

We desire to call special attention to this department. The silver cases being manufactured in our own factory in large quantities, we are able to sell a better finished case for less money than any other house, and it is our desire to furnish only such watches as will satisfy the purchaser and reflect credit upon ourselves. We have in this department arranged for your inspection a complete and comprehensive list of the best class of watches. All Waltham, Elgin, Springfield and Hampden movements quoted by us are known by the brands engraved upon them by the manufacturer, and the standard quality of each movement and case is guaranteed by us to be exactly as represented. Study our watch quotations carefully; consider quality and finish, and you will find the value unsurpassed.

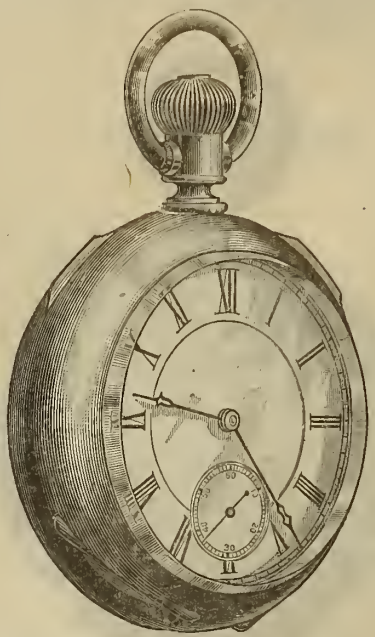
Watch Department—*Continued.*

We are the originators, and have been for many years the leaders of popular prices. Through the medium of our Catalogues, we have annually established the prices for watches of all kinds, and have taken advantage of every opportunity to reduce the cost, enabling us to give the consumer the full benefit of the first cost—our goods being marked when first placed on sale at such a very modest profit as only a house can afford that sells exclusively for cash in every instance, and consequently eliminates from its calculation the risk of losses from Bad Debts, and other expenses inseparable from a credit system.



Illustrating an Open Face "Bassine" Style Watch, weight 3 oz., complete, with Chas. Stark, 7-jewelled movement, **$12 00**.

No. **350**—Illustrating our "Special" coin silver, Open Face Watch, as in above engraving, stem wind, pendant set, with a good full plate jewelled movement, and expansion balance, quick train finish, in first class style. A really good timekeeper. Guaranteed. Case weighs 3½ ozs. Warranted coin silver. Special price, **$8 00**.

THE CHAS. STARK AMERICAN WATCHES.

WITH

Special Five-Year Guarantee.

In arranging for the manufacture of our Chas. Stark Movement, it was with the idea and intent of giving better value for the price than any now upon the market. We claim to have had the largest experience in the Watch Trade of any House in the Dominion, and can, we think, speak with authority, and in consummating arrangements with a factory for the manufacture of a special line of watch movements, branded "Chas. Stark, Toronto," the contract provided for personal care and critical examination of every watch before leaving the shop, ensuring such accuracy and durability as has never before been attained; we, therefore, with every confidence of giving you entire satisfaction, recommend our Chas. Stark brand.

OUR WATCHES.

We show the greatest variety and sell at the most moderate prices, considering the quality and finish. The cases are our own manufacture, which enables us to give you a perfect guarantee of their quality. Every watch we sell is carefully and thoroughly examined by most competent workmen; in consequence, our watches are unsurpassed in superiority of make, solidity and durability, and price. Our Chas. Stark movements are to-day celebrated for their solidity and for the invariably careful and workmanlike finish in their construction.

No. **550 B**—American stem wind Watch, 4 pair jewels, compensation balance, hardened Breguet hair spring, patent regulator, open face, with the new pendant set lever, which enables the hands to be moved without opening the case and make the open face watch dust proof.

Illustrations of Gents' Patent Gold-Filled Watches.

Guaranteed for Twenty Years. Special Certificate in Each Case.

These patent filled gold cases are manufactured from two plates or pieces of solid gold overlaying a plate of composition metal. The first quality cases are made from 14 karat gold, and have solid gold bows, thumb pieces, joints, crowns and pendants, and are guaranteed by the makers to wear for 20 years. This guarantee in the makes we sell we endorse. The second quality cases are made from 10 karat gold, and are very similar in appearance to the first quality cases, and are guaranteed for twenty years. For a moderate price watch, which is in appearance equal to solid gold and will wear as long, we can recommend them.

No. **6301.**

No. **6301**—Dueber's Patent 14 kt. gold-filled watch; landscape engraving with vermicello engraved border complete, with Chas. Stark American movement, 11 jewels, compensation balance, quick train, dust band, fine finished and regulated; guaranteed for 5 years. Net, **$25 00.**

We are the originators and have been for many years the leaders of popular prices. Our goods are marked, when first placed on sale, at so modest an advance on cost, as only a house can afford that sells *exclusively for cash in every instance*, and consequently eliminates from its calculations the risk of losses from bad debts and the bookkeeping and other office expenses inseparable from a credit system. The losses in Canada resulting from uncollectable accounts, amount to millions of dollars annually. To those for whom credit is of paramount importance, it is a convenience for which they ought to pay. The fundamental principle of a well regulated business precludes the possibility of deviating from one price, but why should cash buyers who purchase from houses that carry accounts, contribute towards defraying the losses and expenses consequent on a credit system? **We Give Credit to No One.** We therefore incur no losses, and our prices bear evidence of it to the advantage of all who can avail themselves thereof.

Our Large and Constantly Increasing Trade is Proof that Our Goods and Prices are Right.

Remember that the Chas. Stark Movements are made especially for us; that we examine every one before shipping, and that we give a five-year guarantee with each watch.

In sending us a "Trial Order," we would advise parties not to send exclusively for staple goods, such as prints, cottons, etc., as this class of goods are sold by nearly all merchants at a very small profit, and a bill of such goods is no test of the great advantages to be derived from sending your orders to us. We claim that our main advantage to the public is to sell goods on which other merchants make large profits at lowest wholesale prices.

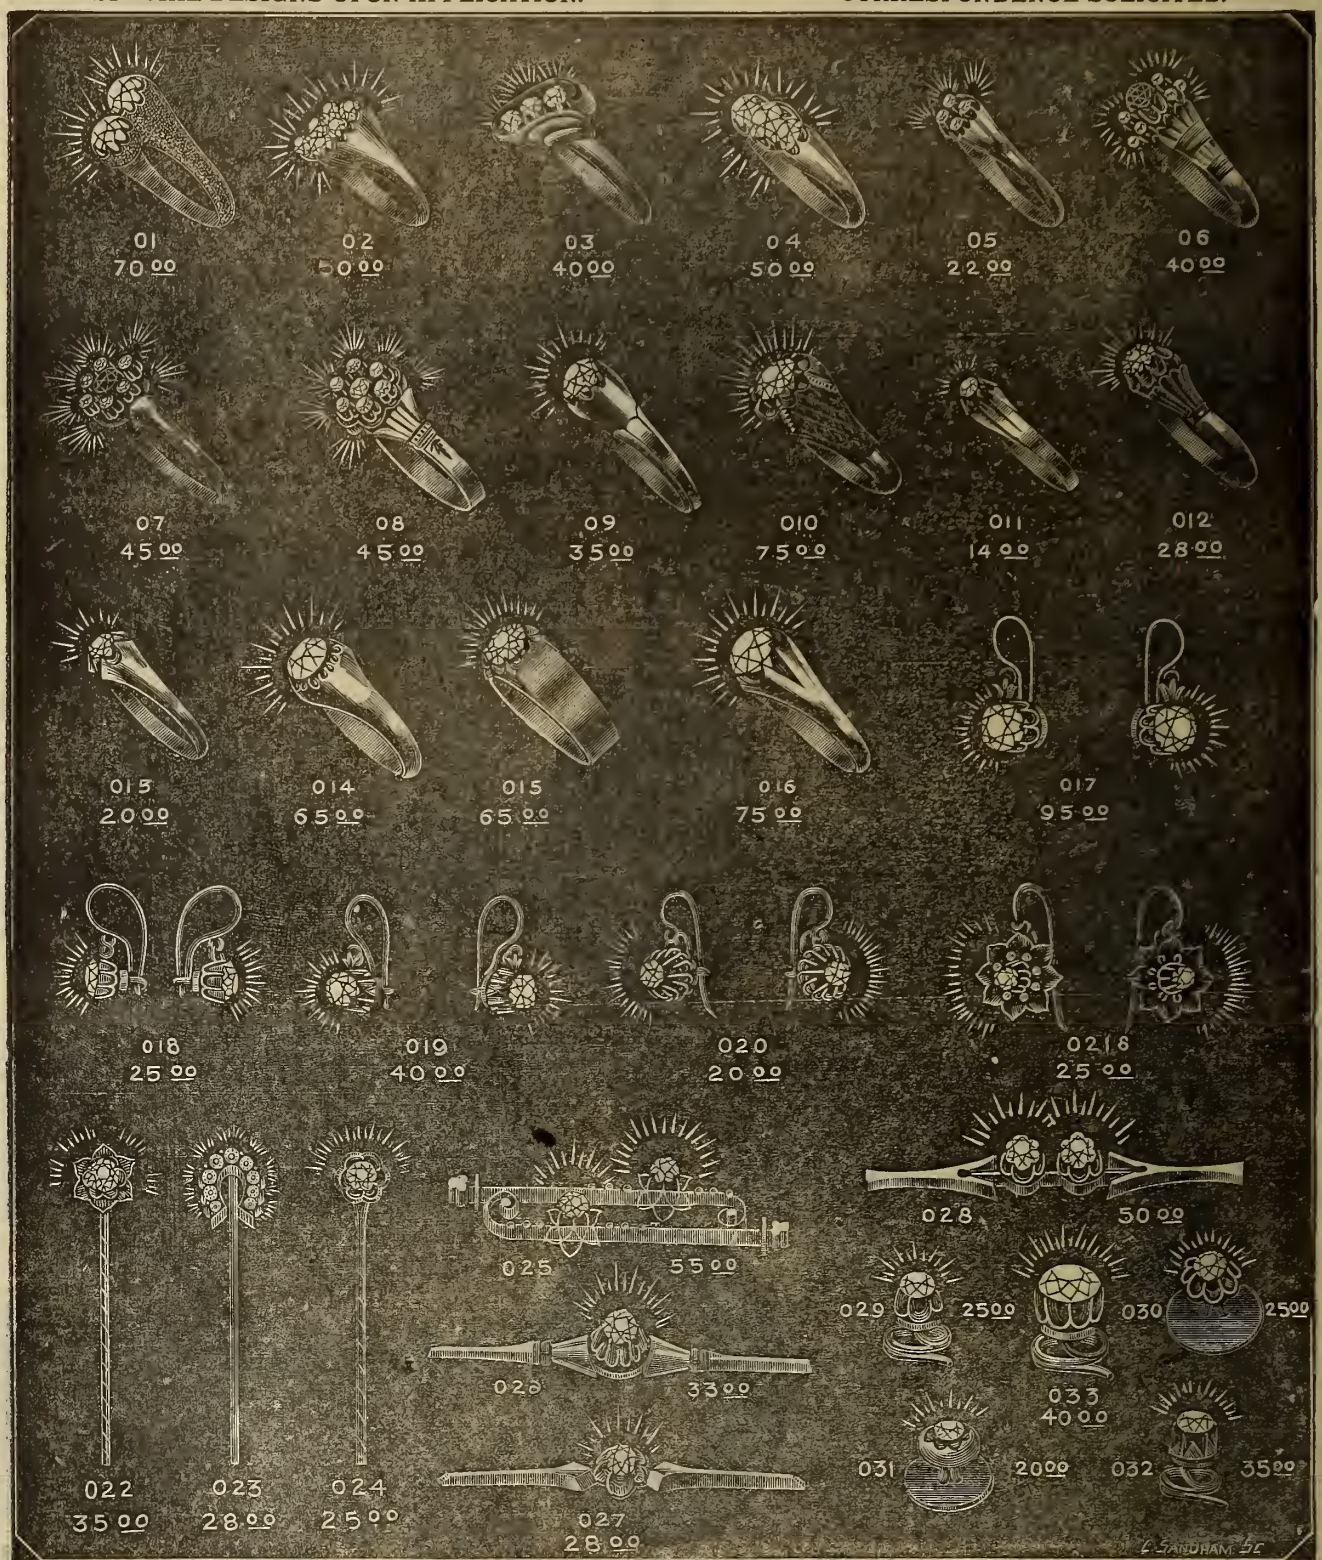
DIAMONDS.

In this department we are **first,** and request that special attention be given to quotations. You will find many articles at prices that will seem "too cheap to be good," but you will please remember that we purchase these goods direct from first hands, that we buy in large quantities for immediate cash, and that we mount them in our own factory, and are therefore enabled to make prices that are ruinous to ordinary competition.

We have always in stock **Diamonds, Rubies, Emeralds, Sapphires, Opals, Pearls and Precious Stones of all Kinds,** that are first in quality, first in value, first in design, and first in workmanship.

SPECIAL DESIGNS UPON APPLICATION. **CORRESPONDENCE SOLICITED.**



The above illustrations are full size and enable intending purchasers to select to advantage. Our designs are endless, and in case patterns above are not what you require, we invite you to place the responsibility upon us. Limit us as to prices and give as clear an idea as possible of your wants, and we will guarantee to fill your order to your entire satisfaction, or refund money. Cluster Rings No. 05 and 07 are set with six small diamonds and opal, ruby, emerald or sapphire in centre as desired. Nos. 2, 3 and 6 Stone Diamond Rings and Pins can be supplied with assorted stones, that is, Ring No. 03 we will furnish with two diamonds and one ruby, opal or sapphire in centre, for $5.00 less. Quotations for any particular stone setting, or any weight stones furnished on application.

SILVERWARE DEPARTMENT.

We illustrate a full line of all the latest and most desirable Hollow and Flat Ware Goods manufactured by the largest firm in America making high grades of Silver Plated Ware. Messrs. Simpson, Hall, Miller & Co., the manufacturers of these celebrated goods, guarantee them the best Quadruple Plate on Hard White Metal, which we heartily endorse, having sold their make for over twenty-five years, with universal satisfaction. Their forks, spoons, etc., are manufactured under the personal supervision of Mr. Wm. Rogers, the only survivor of the four original members of the Rogers family, who were the pioneers of the Electroplated Spoon and Fork trade in America. Every article illustrated in the following pages we guarantee to give entire satisfaction to the purchaser, and to *wear equal to sterling silver.*

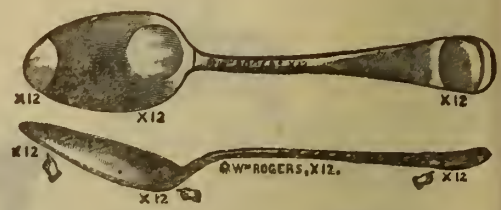
Highest Quality of Quadruple and Sectional Plate, bearing the Trade Mark of the "Genuine Rogers," Guaranteed Direct to the Consumer, which we Endorse to Every Purchaser.

Athens Pattern. Mikado Pattern. (Hand Engraved.) Magnolia Pattern. (Old Silver.) Countess Pattern.

Also Plain Tipped and assorted Fancy Patterns.



X 12 Sectional Plate.

The above illustrations show the points **(X 12)** which are most exposed to wear and where extra quantity of **Sterling Silver** is deposited by the patent process being triple-plated upon the most exposed part liable to wear; first plated in the regular way, then weighed for extra **"Sectional"** plate—making these goods for appearance and wear equal to solid silver goods, at one-quarter the price.

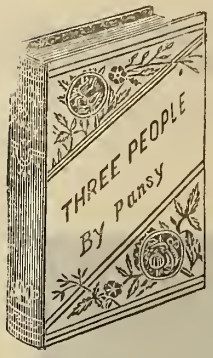
"PANSY" BOOKS.



Printed from Original Plates.

Price, 50 cts. each.

Postage 6 cts. each Book.

No writer has achieved a more enviable reputation than "Pansy" (Mrs. G. R. Alden). Her style is unique, and the strong, healthy, natural spirit breathed through her writings ennobles the mind—making the manly more strong, and the womanly more true. "Her stories move alternately to laughter and tears;" "Girl life and character portrayed with rare power;" "A wondrous freshness and vitality appearing on every page;" "Too much cannot be said of the insight given to the true way of studying and using the word of God." These are a few quotations from words of praise everywhere spoken.

No. 6—**A New Graft on the Family Tree.**
This story moves you alternately to laughter and tears, while it is so brimful of the sweetness of evangelical religion that its influence cannot fail to be beneficial. Illustrated.

No. 8—**Chautauqua Girls at Home, The.** Illustrated.

No. 9—**Ester Ried**
We stand face to face with real every-day characters and situations, and are shown the actual struggles through which victorious souls must go. Illustrated.

No. 10—**Ester Ried "Yet Speaking."**
Fully equal to "Ester Ried." Illustrated.

No. 11—**From Different Stand-Points.**
By Pansy and Faye Huntington. An impressive and fascinating story. Illustrated.

No. 12—**Three People.**
An intensely interesting and effective temperance story. Illustrated.

No. 13—**Tip Lewis and his Lamp.**
A story of school-life for boys. Illustrated.

No. 14—**Hall in the Grove, The.**
A worthy companion volume for Chautauqua Girls at Home.

No. 15—**Interrupted.**
It has all the charm of this most popular author's fascinating style.

No. 16—**Julia Ried.**
There is a wondrous freshness and vitality appearing on every page. The insight into character and the power to make it unfold itself, are very noticeable. Illustrated.

No. 17—**Man of the House, The.**
12mo., cloth.

No. 18—**Ruth Erskine's Crosses.**
A sequel to the story of the "Chautauqua Girls." Too much cannot be said in praise of the insight it gives into the true way of studying and using the word of God. Illustrated.

No. 19—**The Randolphs.**

No. 20—**Mrs. Solomon Smith Looking On.**
(Second Canadian Edition.)

No. 21—**Household Puzzles.**

RECENT "PANSY" BOOKS.

No. 22—**Judge Burnham's Daughters.**
A sequel to "Ruth Erskine's Crosses." In the Judge's daughters we renew the acquaintance of Ruth Erskine, one of the Chautauqua girls, and are given bright glimpses of Marion, now a pastor's wife. This book is Pansy's latest, and is well, strongly and tastefully bound in extra cloth, gilt, bevelled boards, etc. Bound in cloth, 12mo., 339 pp.

PRICE EACH, $1 00. (POSTAGE, 6 CTS.

No. 23—**Eighty-Seven.**
A Chautauqua story—dedicated to the class of '87 (eighty-seven)—begins with a little civilized girl and a runaway—actually a tramp. But trust Pansy for making good company out of any material. Bound in extra cloth, gilt, bevelled boards, etc.

PRICE EACH, $1 00. (POSTAGE, 6 CTS.)

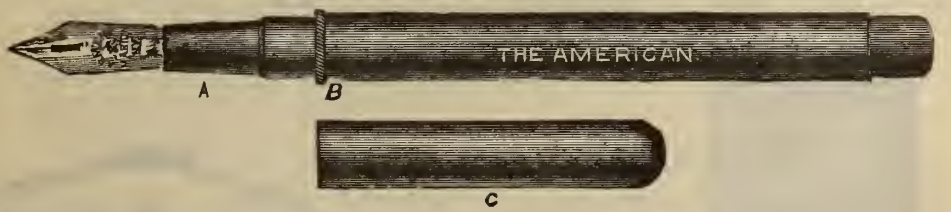
Five-quire package of White Wove Commercial Note (first-class)..... **45 cts.**

THE AMERICAN FOUNTAIN PEN.



A first-class, sure and steady flowing Fountain Pen, that will write well, and give satisfaction to all.

The gold pen is warranted 580 parts of 1000 fine, consequently is plump 14 karat, and has an iridium point, which will never wear off.

This Fountain Pen will not drop the ink as do most all of the other pens, thereby avoiding the inconvenience of having your work blotted.

On account of its simple construction it is not liable to get out of order. It is easily taken apart for filling or cleaning and put together again.

The pen is put up in a paper box, with filler and instructions, which are printed in the English, German, and French languages. Price, each, **$2 75**

Our Pocket Books and Satchels are selected from the best makes, and we offer the Latest and Best Styles and Qualities in the Market, at very Reasonable Prices.

FURNITURE.

Believing that our Catalogue would be incomplete without a few quotations of Parlor and Bed Room Furniture, we have added a line of the most desirable patterns to our already large assortment of goods. In order to have all items new, and in fine condition at time of shipping, we shall not ship orders for furniture from stock, but will have goods made up as fast as ordered, and shipped direct from factory in another part of the city. Orders can usually be filled the day after they are received, but, in some instances, it may take from two days to a week to fill an order, in case the patterns should have to be made up. Toronto is the acknowledged furniture headquarters of America, and our patrons can rest assured that we will endeavor to give them the best possible value in all cases.

PARLOR FURNITURE.

Style **1**—Upholstered with American plush, figured.
Style **2**—Upholstered with crushed plush.
Style **3**—Upholstered with extra fine quality imported crushed plush.
Style **4**—Upholstered with finest marbleized silk plush.

We make no charge for cartage or for burlaps. Any single pieces furnished out of a suite at prices given, unless otherwise stated. Can furnish nearly all the standard colors in upholstery. Be sure and give color wanted.

PARLOR SUITES.

No. **540,** style **1**—Very pretty parlor suite of 7 pieces, sofa, rocker, arm-chair, and four parlor chairs. Price, for complete set, **$58.**

No. **541**—Very handsome parlor suite, plain rich design, in walnut only, spring edges on all pieces; 7 pieces, sofa, gent's arm chair, patent rocker, 4 parlor chairs. For complete suite, **$85.**

No. **553**—Arm chair, a large easy chair, very attractive in design and of excellent quality, spring seat, and black walnut frame. Style **1,** unique raw silk, each **$12;** style **2,** brocatel, each, **$18;** style **3,** imported halber, each, **$30;** with spring edges, **$1** additional.

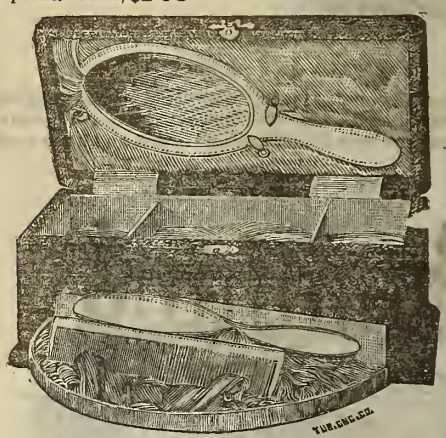
The quality is of th best, and prices are fully one-third less than they can be purchased at anywhere else; the variety and assortment are endless, and a special orders for any particular design of case not illustrated will have personal care.

Every Satisfaction Guaranteed.

Spoon Cases.

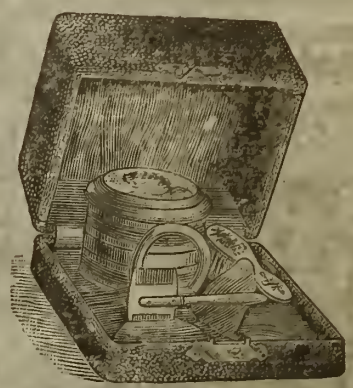
No. **24**—7½ in. long, 7 in. wide, 2 in. high. Serviceable and complete set. As shown in this cut, box contains twelve extra heavily sterling silver plated tea spoons, each held in place by a special satin covered holder. The spoons are chastely engraved and are of the most modern pattern, and when contrasted with the lovely shaded satin in the inside of the case, they look superb. This is specially adapted for a wedding present. Price, **$3 00**

No. **26**—For a similar case to hold only six spoons. Price, **$2 50**



Ladies' Toilet Case.

No. **41**—12 in. long, 6½ in. wide, 5 in. high. The diagram No. 41 shows one of the handsomest cases ever made up, the mountings being silver, the plush being of extra fine quality, and the lining being superbly finished in satin. The design is especially pleasing, for in addition to holing a toilet set and having compartments for handkerchiefs, perfume, jewelry, etc., the lower drawer works on a new and pretty principle, revolving upon an axis in its centre, so that pushing in one end sends out the other. The advantage of this circular drawer over the ordinary kind of drawer, in addition to its novelty, is that it can never get out of place and always works easily. With a white celluloid set, containing a mirror with bevelled edge, and a lovely brush, the price is only **$3 25.** We have in addition to the few toilet cases that we have room to describe here, a very large variety at all prices up to **$30 00** each. Any one desirous of obtaining a more expensive article, or something different in style from those shown on these pages, can obtain them by writing to us for particulars, which we will gladly furnish. Should there not be time to wait for a reply, send us what amount you wish to expend, and we will guarantee to give you the very best that can be had for the money.



Baby's Plush Box.

No. **20**—Size, 6½ in. long, 6½ in. wide, 4¾ in. high. A very handsome and appropriate present for any baby. Complete baby's toilet set, comprising a strong puff box with a glass top, with photo frame, a good bone brush, with soft but firm bristles, a celluloid comb and handsome teething ring. Net price complete, **$2 25** (Postage, 25 cts.)

No. **10**—Baby's box, smaller case containing brush and comb only, very pretty. Price, **$1 00** (Postage, 18 cts.)

Silver Knife, Fork and Spoon Set.

No. **22**—Size, 8¼ in. long, 3¾ in. wide, 2 in. high. Suitable present for a boy or girl. The case shown in this illustration looks exceedingly pretty, the plush and satin in lovely shades, showing off the bright silver to perfection. The knife, fork and spoon are handsomely engraved and heavily plated with sterling silver. Altogether the box and set are everything that could be desired; the price is very low, **$2 00**

No. **23**—Is somewhat larger than No. 22, and contains an exquisitely chased napkin ring in addition to the other pieces. The price of this complete is **$2 35.** Should any one prefer a leather case, we can send them for the same money as the plush ones.

We guarantee lowest prices without reducing quality. All orders filled promptly and carefully.

Watches and jewelry department.—None but skilled mechanics are employed. All kinds of repairing and altering intrusted to us will have prompt attention.

Ladies' Jewel Cabinet.

No. **46**—Size, 9¾ in. long, 7½ in. wide, 5½ i deep. A very handsome and complete cabine with special spaces set apart for watch, six ring brooches, earrings, bracelets, chains, and oth nick-nacks, with drawer for letters, etc. Draw locked by bolt inside; case lid locks with ke The plush is the very best quality, satin lining the most exquisite shades. Makes a very usefu handsome and durable present. Net price, con plete, **$5 50** (If by mail, postage 25 cts. extra

No. **36**—(Measuring 7¼ x 5¼ x 3¼.) Somewha similar to No. 46, but smaller and has no drawe This is a great favorite and is made up in all th most beautiful colors. Price only **$2 25**

No. **26**—(Measuring 6 x 4 x 3.) Is made up o exactly the same principle as 36, only smaller, an will be sent to any address on receipt of **$1 75**

Plush Toilet Cases.

No. **40**—10 in. long, 5 in. wide, 2⅔ in. high. The unprecedented craze for toilet cases that has taken hold of Americans and Canadians during the last few years need not be wondered at when it is remembered what a very pretty and useful article can be had for such a small sum of money. These cases contain brushes, mirrors and combs in all shades, but the most popular are black and white, and we therefore confine ourselves to those colors. No. 40 can be had fitted with black pieces, **$1 50;** and in white for **$1 75.** Any one who has bought brushes, mirrors and combs well knows that these three pieces themselves cannot be bought for this money, not taking into consideration the handsomely finished plush and satin case in which they are contained.

No. **30**—Is the same case without the mirror, and will be sent with black brush and comb to any address on receipt of **$1 00;** with white brush and comb the price is only **$1 25**

No. **50**—Is the same as 40, only a larger size, has a considerable larger mirror and brush in it. In black the price is **$2 00,** and in white **$2 25** These cases are very handsome and thoroughly useful.

Plush Goods *(Continued.)*

Shaving Cases, Perfume Sets, Etc.

SHAVING CASE.

A very Unique Present for a Gentleman.

No. **05**—7½ in. long, 6½ in. wide, 5 in. high. It is at once useful and handsome, and a constant reminder of the giver. The case is finished in extra fine quality, both outside and in, having the finest silver mountings. The shaving mug is made in the perfect representation of a sea shell, or in an equally novel pattern, with appropriate decorations painted by hand upon it. The brush may be had either with a fine china handle, or with a telescoping brush which unscrews and closes in the bristles when wet. The razor we import from Sheffield, England, and is finely hollow-ground. Altogether the case is a gem, and we heartily recommend it as a useful and handsome gift. The price is very low, less than the mug and razor would cost in an ordinary store, viz., **$2 50**

No. **94**—Is a similar case without quite such an expensive mug and brush, and without a razor, but having a very rich appearance. The price is only half of No. 05, being **$1 25**

No. **84**—Is a still cheaper case at **$1 00**. The difference is partly in the size of the case and partly in the shaving brush, which is not quite so fine in quality as in No. 94.

COLLAR AND CUFF BOXES.

No. **75**—8 in. in diameter, 5½ in. high. Plush collar and cuff box. Every one, lady or gentleman, knows how the curled collars and cuffs keep the bureau drawer untidy all the time, besides becoming themselves soiled through contact with dust and other articles in the drawer. This is one of the very few things that is suitable for a present to either a lady or gentleman, and which, from its pure sensibleness, is appreciated by both sexes and all ages alike. A handle on the top serves to take the cover off. Price only **$1 50**

No. **16**—Is a collar and cuff box on the same principle as No. 75, but made in the shape of a horse-shoe instead of a circle, the plush being pressed so as to look like a hoof on the lid. The appearance is very fine and makes a specially appropriate present for a gentleman. Price complete, **$2 00**

PERFUME CASES.

A very Pretty and Acceptable Present for a Lady.

No. **57**—5 in. long, 4½ in. wide, 2½ in. high. Handsome perfume case containing a couple of bottles of high grade perfume. This engraving represents one of a very large variety we have in stock. The bottles shown are handsomely cut, and are filled with the universally known "Florence" perfume. We also fill the cases with the famous "Alhambra" perfume in white rose, jockey club and all the recent named scents.

No. 57 with Florence perfume as shown, costs	**$1 50**
No. 57 with Alhambra perfume as shown, costs	**1 25**
A smaller case with one bottle Florence perfume, costs	**1 00**
A smaller case with one bottle Alhambra perfume, costs	**80**

We also have a very large number of perfume cases which we cannot describe, containing one, two or three bottles, and made up in very fanciful designs. The prices range as high as **$5 00** each. If the above numbers do not suit you exactly, write to us for particulars of the other lines, or leave it to us to pick out something specially nice for you.

MANICURE CASES.

No. **04**—5½ in. long, 3¾ in. wide, 1¾ in. high. It has now become an established thing that every lady and most gentlemen should be possessed of and use daily a manicure set. The case itself is plush, lined with satin, and has a separate place to hold each piece. A pair of turned scissors with a file, a nail cleaner, a salve box, and a polisher made of celluloid and chamois, make up the outfit, each piece of which is complete in itself, and finished to perfection. The case will recommend itself at **$1 25**

These cases can be had at any price up to **$10 00** each.

SMOKERS' COMPANIONS.

No. **55**—Is a plush case neatly lined with satin and containing a briar root pipe, cigar holder, cigarette holder, patent silver-plated cigar cutter and silver-plated match box. The whole set is very complete, and makes a most acceptable present to any gentleman who smokes. Price, **$1 75**

No. **65**—Is a more elaborate case. In a tray are neatly laid a meerschaum pipe, cigar holder and cigarette holder, all with long clouded amber mouth-pieces, a patent silver-plated cigar cutter and silver-plated match box. Under the tray is a large space carefully lined with tin foil for keeping cigars or tobacco in. Altogether there is everything in this case a smoker could wish for, and the appearance is very rich, the plush and satin being of the finest quality. Price complete, **$3 50**

BABY CARRIAGES.

Baby Carriages.

No. 1 W.—Strong willow body, nicely upholstered in cretonne; parasol or canopy top; wheels, 16 x 18. Each, $7.85.

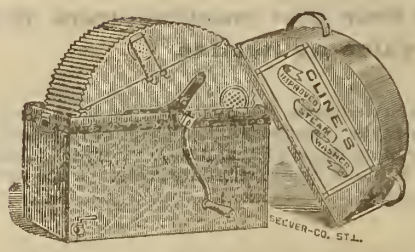
Steam Washers, Fire-Proof Cookers, Portable Heater, etc.

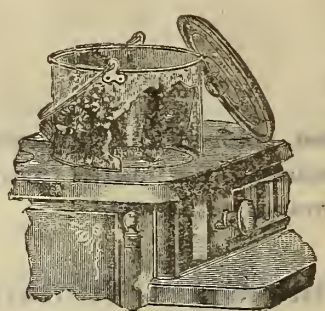


No. 16—Cline's Improved Steam Washer.

This machine offers a practical solution of the obnoxious "wash day" question. The clothes are cleaned by the action of the steam, which also bleaches them and takes out all impurities. Every machine fully warranted to give satisfaction. It uses much less soap than is required by any other system, and clothes wear double the time when washed by Cline's Improved Steam Washer than they will when washed by any other machine or wash-board. It has a faucet attached to the boiler for the purpose of removing the water without lifting boiler from stove. Has a corrugated cylinder sliding cover, complete. Full directions for using accompanies each machine. Nett price each, **$8 50.**

No. 17—Cline's Labor-Saving Dust Pan.

No house is complete without this article. Bending is unnecessary when you have Cline's Patent Dust Pan. Price, each, **10c.**



No. 18—Cline's Fire-Proof Cooker.

Sizes, 2, 3 and 4 quarts.

For cooking oatmeal, rice, mush, and foods likely to burn, it is superior to all others, and REQUIRES NO WATCHING, being simple and durable. Milk may be left to boil in it without fear of burning. It is a most excellent soup cooker. It is unequalled for cooking vegetables of all kinds, as it preserves their delicate flavors and does not discolor them. As a preserve cooker it cannot be excelled. Anything can be cooked in it. Try it and you will never be without one. We guarantee this cooker to do all that is claimed for it.

Price—Size No. 2	**$4 50**	per doz.

SOMETHING FOR THE COLD WEATHER

Ten Hours' Comfort for TWO cents

Cline's Patent Portable Foot Heater.

The public who have long suffered the disadvantage of cold feet will hail with delight this wonderful invention for carriage, buggies, sleighs, wagons, household, store and office use.

Heater.

Registers.

These Registers are made in two sizes, and are for heating carriage or closed vehicle without any visible obstruction. The Register plate is level with the floor. The fire-box is underneath and out of sight. Over 500,000 in use in Canada and the United States. Made in 4 sizes which are specially adapted for household use. Can be moved at pleasure.

THE FUEL

Is a black compound, perfectly harmless, burns without smoke, odorless, and entirely safe in handling. Guaranteed healthy, and can be lighted by a child. The fuel which is used in our Heater differs largely from all other sources of heating, viz., that

It Burns Downwards and Heats Upwards.

The Foot Warmer should be filled about three-quarters full with the fuel, and will burn steadily without refilling or any attention for ten hours. The entire cost of fuel will not exceed TWO CENTS PER DAY in the small heaters.

FUEL IN KEGS AND BARRELS.

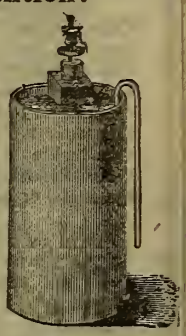
Medical Men, Electricians, Bell Hangers, Architects, Builders, Attention!

HERE IS SOMETHING YOU HAVE ALL LONG BEEN LOOKING FOR.

A Dry Battery, requiring no attention.



CYLINDRICAL.

Dr. Gassner's Patent Dry Battery, for all purposes where electricity is used. It is the best, it costs nothing for maintenance, its cells cannot break, it is not affected by heat or cold, and is without doubt the best battery in the world. Bell hangers, architects, medical men, etc., speak in the highest terms of it. It possesses all the advantages of a Leclanche cell and none of its deficiencies. They can be used immediately on receipt, requiring no preparation. Medical size, 4¼x2¾, **$2 00**; oval size, 7x3, **$2 50**; cylindrical size, 7x3, **$3 00**. Send for circulars and testimonials.

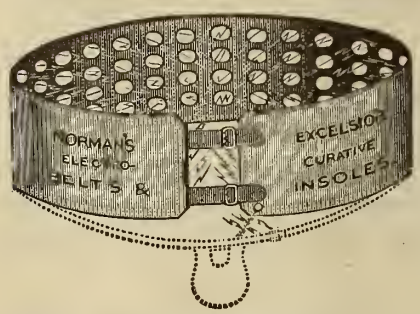
Norman's Electro-Curative Appliances

RELIEVE AND CURE

Spinal Complaints, General and Nervous Debility, Rheumatism, Gout, Nervousness, Liver Kidney, Lung, Throat and Chest Complaints, Neuralgia, Bronchitis, Incipient Paralysis, Asthma, Sciatica, Sprains, Consumption, Sleeplessness, Colds and Indigestion.



NORMAN'S Excelsior Electro-Curative BELTS.

Lung Invigorators, Spine Bands, Shoulder Bands, Knee Caps, Etc.

YOUNG MEN.

If you have impaired your vital forces by indiscretion or abuse, do not destroy your stomach by strong medicines, which can do nothing but harm, as medicine never yet cured one case of this nature. The only remedy that really will cure is Electricity, and I defy the world to produce a remedy that will cure as many cases as belts have cured. Do not waste your money on worthless trash, but try Electricity in the way I have found it so beneficial, and you will be pleased with the result.

A. NORMAN.

PRICE LIST.

512	Waist belt, full width	$20 00

DRUGS, PATENT MEDICINES, Etc.

Chinese Corn Salve and Wart Exterminator.

No. **40**—The manufacturers claim that if the directions which accompany each box are followed, a cure is certain, and as we have investigated this assertion, we are satisfied that no person suffering from corns or warts should fail to give the Chinese Corn Salve a trial.

RETAILED AT 25 CENTS. OUR PRICE, 15 CENTS A BOX.

Sunset Dye.

Will dye all the colors of the rainbow on wool, cotton, feathers, leather, grasses, window curtains, jackets, dresses and carpet rags. We will guarantee these colors to be brighter, stand better, and color more goods than any other dyes which are sold at 10 cents a package. We charge you **60**c. a dozen packages, assorted colors.

Japanese Catarrh Cure.

How often the cry comes from the sufferer of this, the most annoying and disagreeable of all diseases. It will cure a cold in the head in one day. It will cure the aching sensation above the eyes in a few days. It will cleanse the nasal passages from all poisonous virus and other foreign matter, and will make a complete cure, if curable, in thirty days. The complete cure consists of the following:—One nasal douche, one box pulvis, one box Japanese Catarrh Cure, and one brush.

NET PRICE LIST OF GROCERIES.

No Heavy Groceries will be supplied by express, as the charges would possibly be in excess of the saving on the purchase.

Light articles such as Teas, Spices, etc may be sent by express at a profit to all concerned.

There is much deception practised in the tea business. It is conceded by the majority of tea consumers that the most practical way to purchase this commodity, is to trust to some firm with a reputation for honesty and square dealing. It is the unprincipled dealers, as a rule, who have swindled the tea-drinking public so much during the past few years. We believe that we give as good value as can be obtained anywhere.

TEAS.

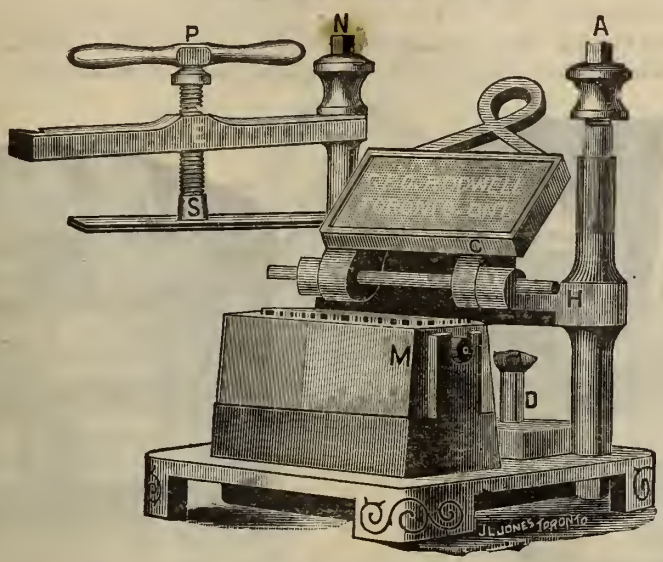
Rubber Stamp Machine and Stamp Printing Outfit.

A PRACTICAL NOVELTY.



THE BOYS' MONEY MAKER

RODWELL RUBBER STAMP MACHINE.

(PATENTED.)

A Practical Novelty and Money Maker.

This is something entirely new to the public. Only a few people outside of those interested in the trade know how a rubber mp is made. This invention as illustrated above, shows how the letters are neatly made. In addition to the instruction and enter- ıment thus afforded, the valuable feature of this novelty is that it affects the manufacture of an article that is widely sold, the nand for rubber stamps being largely on the increase on account of their convenience, neatness, time saving and advertising power. is machine enables an amateur, after a little practice, to make in about ten minutes as good a rubber stamp as can be manufactured men of long experience, by the old way, which takes from an hour and a half to three hours; making it a profitable investment, as earning power is such that the money expended in its purchase would soon be recovered from the sale of rubber stamps, which, at ir lowest price, sell readily at 25c. for single names, and at 50c., 75c. and $1.00 for larger sizes, the machine being capable of turn- out a stamp as large as 2¼ inches long by 1½ inches wide. A small font of type is furnished with each machine, and also enough ıber and other material to enable the purchaser to start the manufacture of first-class rubber stamps. Price complete, **$10 00**

Small Fonts of Type with Quads and Spaces put up in Tin Boxes.
Figures go with each Font.

No 1. $2. 50

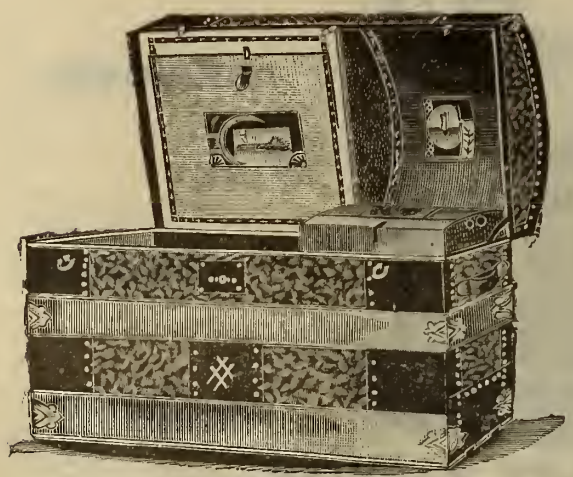
Trunks, Valises, Satchels, and Traveling Bags

DEPARTMENT.

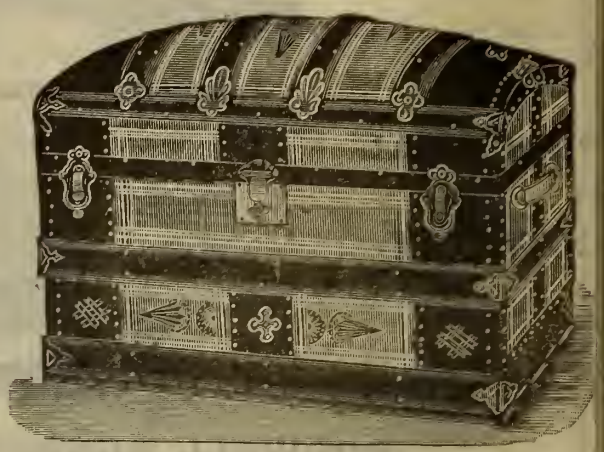
In no instance do we sacrifice quality to price. This applies particularly to trunks and valises; they are of superior workmanship and finish, and the prices are lower than any other first-class manufacturer.



No. **57—Vancouver—Marbleized Trunk.**

This trunk is much improved, having patent barrel top, cross slats, good strong steel lock.

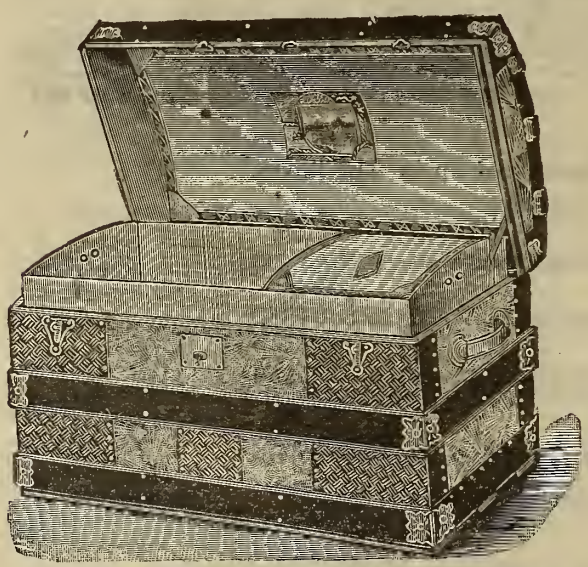
Price, 28 inch	$3 75
" 30 "	4 00
" 32 "	4 25
" 34 "	4 50
" 36 "	4 75



No. **93—Gold "Alligator" Trunk.**

There is no trunk on the market that equals this for pric quality and finish.

Price, 32 inch	$6 0
" 34 "	6 2
" 36 "	6 5



No. **54—Mansard—Crystallized Trunk.**

Eleven heavy slats, rollers, deep set up tray, containing hat box, three hinges.

Price, 28 inch	$2 25
" 30 "	2 50
" 32 "	2 75
" 34 "	3 00
" 36 "	3 25

No. **65—Leather Trunk.**

An elegant cross-slat, leather-covered trunk, all cast mall able trimmings, beautifully finished inside, in full Saratog style, very strong patent lock.

Price, 30 inch	$5 0
" 32 "	5 2
" 34 "	5 5
" 36 "	5 7

State room trunks, sole leather trunks, toy trunks, trunks of every style and description. Write us particula of your requirements and we will guarantee to fill your wants to your entire satisfaction.

Satchels and Valises.

The Gladstone style of Travelling Bag is the most desirable of any, as under the straps on the outside as much can be secured as the inside will hold; convenient for carrying shawls, blankets, etc.

No. **16—Lady's Satchel.**

Rubber cloth, square frame, outside pocket, nickel lock and trimmings. A good, durable and genteel satchel for the money.

Price—9 inch	$0 60
10 "	70
11 "	80
12 "	90
13 "	1 00

Always write your name and address on packages returned to us if you wish them to have attention; send letter of instructions by mail, do not put it in package.

Wall Paper Department.

Decorate your home. The most economical and best way to adorn and make comfortable your home; the cost is small, and good bright paper on the wall adds to the cheerfulness, beauty and comfort of your rooms. It livens up the furniture and adds warmth.

Wall paper comes in lengths of about 8 yards, 12 yards and 16 yards. Prices quoted are in all instances for a length of 8 yards. The width of wall paper is 18 inches and 21 inches respectively. Take your measurements for requirements carefully and allow liberally for waste, laps, etc. We do not sample wall paper; selections must be left to us, and we will use our best judgment. In ordering state whether you have any preference for light, medium or dark shades, and say amount required, and if small or large figured patterns, and color you would like to predominate. We will not be able to duplicate patterns in wall paper, therefore when ordering be sure and order enough, as patterns and styles are continually changing.

Note Instructions.—Paint walls with glue water before hanging paper, using about ¼ lb. glue to 10 rolls paper. Use wheat flour made into a paste and scalded with a little alum. Be sure that walls are washed and cleaned before applying the glue water or sizing.

No. **930**—**"Queen" Range Cook Stove,** with low closet. The oven dampers are so arranged that the heat passes under all covers, whether working direct or indirect draft. The heat may be thrown on or off reservoir at pleasure, thus permitting the oven to be heated quickly without the delay of having to heat water in reservoir first. Extra large reservoir, No. 8 holding five gallons, No. 9 seven gallons. Large lift-out bailed ashpan, capable of holding two days' ashes. The fire chamber is large and lined with fire-brick. A continuous fire may be kept during the winter season. Each range is supplied with mica front doors, tin-lined oven door, nickel-plated towel bar, oven shelf and knobs, and Reed's patent check damper. Water fronts can be supplied for both sizes.

This range, when fitted for wood only, has a large end door and fire-box, and is guaranteed to operate as satisfactorily as any other wood cook stove.

For Coal or Wood.

Size of Oven.	Weight about	Price.
18 x 18 x 11	340 lbs.	$30 67
20 x 20 x 12	400 lbs.	35 67

For extras see quotations under No. 920.

No. **940**—**Ruby Range Cook Stove.** In this style of range (4 holes) is embodied as many features as possible of the larger ranges, together with large cooking capacity, in a limited space, there being many parties who desire to have a range that have not the room nor desire to go to the expense of a first-class six-hole range.

Our own tests and reports from our customers enable us to recommend it as a thorough and quick working range.

Special Features—Mica front doors, tin-lined oven door, nickeled medallion on oven door, cut long centre, double short centres, iron stone fireplace linings, lift-out bailed ash-pan, nickel-plated towel rod, Reed's check damper, encased copper reservoir, Japanned reservoir covers, special fixtures for wood.

For Coal or Wood.

When buying from a house that sells for cash only, you do not have to pay the losses occasioned by a "credit system."

Stoves, Kitchen Sundries, Etc. (*Continued.*)

We can supply any kind of Cooking Range or Heating Stove required. Write us particulars and we will send you cuts to choose from. $5 00 to $75 00 each.

The "Sapphire" Heating Stove Base Burner.

This stove has been redressed and greatly improved in details for this season. It is well proportioned, neat in design, moderate in price, as owing to the smaller number of parts, we are able to offer it at a lower price than similar sized stove.

Fire-pot is a solid round one that rotates to equalize wear.

Grate is an anti-clinker, draw-centre, shaking grate, which sheds all the ashes and clinkers.

Fire-pot and grate can be removed through the front doors, saving expense and trouble in repairing.

Magazine is large and so constructed that all gases generated are returned to fire to be consumed.

Mica doors are divided into small sections and highly ornamented, giving a very pleasing effect.

Nickel-plated dome section with art tile on front panel is arranged to form an auxiliary hot-air chamber, and also to prevent discoloration from heat.

Nickel trimmings consist of dome section, magazine cover, leg base and feet, two foot rails, knobs, hinge pins, damper handles and shaker.

Top ornament is an attractive bronze figure.

For Hard Coal.

No. 300—Width of fire-pot, 13½ inches.....Price $33 00
" 400—Width of fire-pot, 15 inches..... " 36 33

The "Sapphire" Heating Stove Base Burner with oven, which will bake, boil, and heat base of stove perfectly at the same time.

For Hard Coal.

No. 305—Width of firepot, 13½ inches .....Price $37 80
" 406—Width of fire-pot, 15 inches ..... " 39 33

The "Emerald" Heating Stove

For hard coal, is an original new pattern this season.

Special features are:—Fire-pot round and rotates to equalize wear. Grate anti-clinker draw-centre, and shakes from outside of stove. Magazine large, with close fitting cover, which opens automatically when swinging the top cover off. Ash-pan is large.

We offer it in two styles of finish.

A or best finish—Nickel-plated medallions, foot rails, ash-pit door, leg base, knobs and spun urn.

B finish—Nickel-plated medallion knobs and spun urn. Plain leg base. No foot rails.

The oven has been specially designed for us, and is as large as good proportion will allow. Will boil and bake at the same time.

Pot holes near the fire with ample space to accommodate seven inch ware.

The "Opal" Heating Stove.

This powerful heater is specially adapted for stores, hotels, dining rooms, halls, school rooms, stables, etc., and gives an enormous amount of heat with small consumption of fuel

The top is large and contains a flue into which all the products of combustion enter at one side of pipe collar and pass completely around the outer part of top before finding exit to the pipe.

The large top heating surface and large boiler hole make it desirable for factories and stables where hot water, etc., are required.

It has an anti-clinker draw centre grate operated from the outside, so that dust and ashes can escape.

It has a large ash-pan that catches all the ashes

It has a slide check draft in upper door, with perforated tin inside to arrest sparks.

This stove creates a circulation of air from all parts of the room, towards and over the stove, heating the extreme ends and all parts equally and simultaneously.

Try these powerful heaters if you wish to warm a large room quickly, easily and cheaply.

For Coal or Coke.

Cream Cans—$1 00 each.
Dairy Pails—50 cents each.

Royal Flint Ware.

In presenting this list of Royal Flint Ware, we do so with the assurance that the goods are superior to any line of culinary utensils ever offered to the public. Purity, cleanliness, durability and attractiveness are qualities which these goods possess, making them the best kitchen utensils in the market.

These claims are made after most careful tests, having perfected a composition possessing absolute fire-proof qualities. The goods are designed in popular styles and finished in the most tasty and workmanlike manner, while the cost of the articles to the appreciative Canadian housewife is about the same as inferior goods made and now sold for similar purposes.

Each vessel is constructed with an air space, to prevent burning.

Royal Flint Ware is absolutely pure, having a china surface, which is the only surface that comes in contact with food cooked in them.

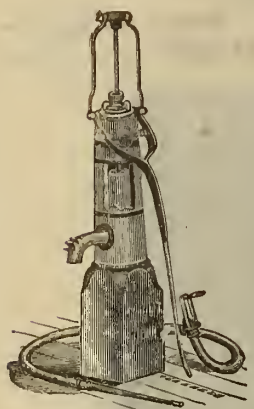
Cooking utensils in tin, enamelled or flint ware. Any article in these lines supplied. Fancy stove boards all sizes.

Wind Engines and Pumps.

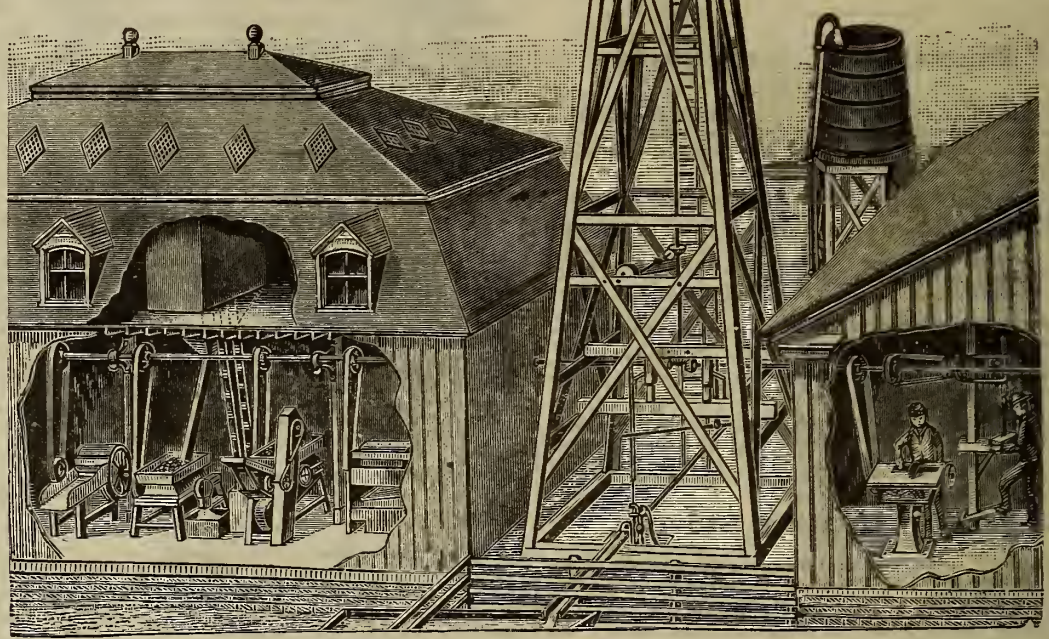


ECLIPSE PUMP.

The easiest working hand pump in the world for deep wells. Iron or wood tubing; iron, brass or wooden cylinders, with or without forcing attachments.

THE ECLIPSE No. 2 has an advantage over all other lever hand pumps in that it has about 1 inch more stroke with same leverage, and consequently will throw more water with one move of the handle. It costs a little more, but especially for deep wells from 100 to 200 feet deep, I recommend it as being far ahead of any hand pump now in the market in the United States or Canada.

STANDARD PUMPING MILL.



STANDARD GEARED MILLS from 1 Man to 40 Horse-Power, for Grinding, Chopping, Sawing, Pumping, Etc.

All styles and descriptions of Wind Mills at reasonable prices. We can supply you with Wind Mills for grinding, cutting, elevating, pumping, etc.

PUMPS, for Forcing and Fire Purposes.
PUMPS, for Barnyards and Houses and Tanks.
PUMPS, for Steam, Wind and Horse-power.
PUMPS, for Deep Wells a Specialty.

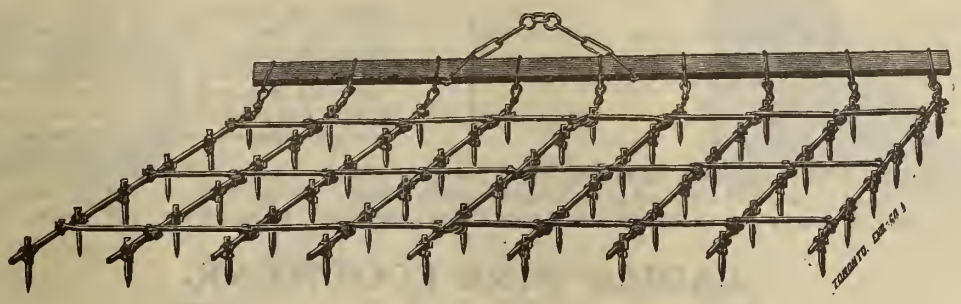
IRON and BRASS CYLINDERS, HYDRAULIC RAMS.
WOODEN CONDUCTING PIPE.
IRON PIPE AND FITTINGS, of all descriptions.
BRASS GOODS, of all kinds, in connection with Hydraulics.

ALL KINDS OF WOODEN AND IRON PIPES.

Write us for prices and full particulars. We shall be pleased to answer all enquiries and give information regarding these mills and pumps to intending purchasers. We will send Illustrated Descriptive Catalogue and Price List. Correspondence solicited, and we shall be glad to render assistance in defining your wants, etc., etc.

Agricultural Implements.

The limit of space at our disposal prevents our illustrating a full line, therefore we request you to kindly communicate with us for your requirements, and we will be pleased to answer all enquiries, and furnish full particulars with illustrations.



Best Patent Flexible Harrow.

These harrows, without exception, are the best on the market, from their unique construction. The bars are made of hard spring steel, very stiff and strong, and the teeth and hinges being of solid steel (which cannot be used in other harrows), clips of malleable iron, and staples of Lowmore iron, with special forged nuts, make them A 1 in every respect. Furnished as follows:—Light and medium harrows, all steel; heavy harrows, iron bars, steel teeth. The manufacturers claim this harrow to be the best and most perfect on the market, and having thoroughly investigated their statement, we can heartily endorse them and personally recommend these really very fine implements.

1st.—Because it is very flexible, each bar being attached to the draw bar, and working independently of each other.

2nd.—Each bar is attached to the other by three transverse hinges reaching only from one bar to the other, and having the joint or hinge at the bar, it permits any of them to rise or fall without displacing the others.

3rd.—As each bar is attached to the draw-bar, when the harrow comes in contact with stationary stones or roots, the strain comes directly on the draw-bar, and not on other parts of the harrow. The hinge immediately permits of any one or more bars rising sufficiently to pass over the obstruction and liberate itself.

4th.—The teeth are fastened to the bar in their place and position by means of movable iron clasps and staples, and can be raised or lowered to any desired length to drag in the ground.

5th.—There are no holes punched in the bar, which are made of hard spring steel, and the teeth are not reduced to fit holes, as in other harrows, but have their full strength where they are fastened to the bar.

6th.—The flexibility of the harrow enables it to adapt itself as readily to rough and uneven ground as to smooth, and the oscillating motion produced by its flexibility pulverizes the ground and leaves it in a loose and more porous condition than any other harrow.

7th.—It is the simplest in construction, the most effective in its operation, the least liable to get out of repair, and the best in the market.

Price, each Safely Crated and Free on Board at Depot.

Boot and Shoe Department.

Our line of boots, shoes and slippers is very complete, and prices are as low as they can be sold. Every pair of boots warranted exactly as represented.

NOTE.—In ordering, state the size worn, whether narrow, medium, common sense, or the ordinary width, is desired. Size an letter indicating width is generally to be found on lining of old shoes, thus: "2B" means size "2," width "B." To make clea sizes in boots and shoes, we give the following approximate sizes and measurements.

Babies' sizes are 1, 2, 3, 4, 5.
Children's sizes are 4, 5, 6, 7, 8, 9, 10, 11, 12.
Misses' sizes are 12, 13, 1, 2,
Ladies' sizes are 2½, 3, 4, 5, 6, 7, 8.
Boys' sizes are 10, 11, 12, 13.
Youths' sizes are 1, 2, 3, 4, 5.
Men's sizes are 5, 6, 7, 8, 9, 10, 11, 12.

Babies' feet measure 4 to 5½ inches in length.
Children's feet measure 5 to 7⅞ inches in length.
Misses' feet measure 7½ to 8⅝ inches in length.
Ladies' feet measure 8⅜ to 10½ inches in length.
Boys' feet measure 7 to 8¼ inches in length.
Youths' feet measure 8½ to 9⅜ inches in length.
Men's feet measure 10 to 12½ inches in length.

Should you not know the size wanted, send us the length and shape of the foot drawn with a pencil while standing on a sheet o clean paper. When ordered by mail add sufficient to remittance to cover postage; we will return change. To help you determine th expense will give weight of three pairs, as follows:—Wigwam shoes, 1 pair, 8 oz.; ladies' boots, 1 pair, 1¼ lbs.; Men's boots, 1 pai 2 lbs.

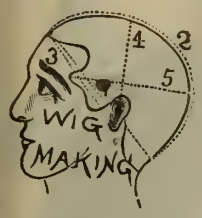
HAIR GOODS.

When ordering send sample of Hair of shade required. Any articles not satisfactory of first purchase) will be exchanged free of charge. Be very explicit in all letters to avoid mistakes. The space here is limited and all goods cannot be mentioned. Should there be anything required not mentioned here, particulars will be furnished on application. We supply everything in the line of Hair Goods, Ornaments, Pins, Curlers, etc. The prices quoted here are for ordinary shades only. White, Drab, Auburn and Blonde come extra.



Wigs, Toupees, etc.

Ladies' Full and Half Wigs in bang, wave or plain fronts, with long back hair —can be dressed high or low—in stock or made to order, at $18, $20, $25, $30 and $40.

Gents' Wigs in all sizes, shades, etc., curly or straight, at $10, $12, $15, $18, $20, $25, $30 and up to $50.

Toupees, or Half Wigs, for the top of the head. These are feather weight and are easily adjusted. At $10, $12, $15, $20, $25, up to $40. All these goods are made as natural as life. Detection is utterly impossible.

Measuring for Wigs.

1 Around the head.
2 From forehead to poll of neck.
3 From ear to ear across the forehead.
4 From ear to ear over top of head.
5 From temple to temple around back of head.

For Toupees cut a paper pattern the size of extent of baldness.

Braids and Switches.

We have a full stock of these goods. All switches are made in three strands for braiding or coiling, unless specially ordered in single strands.

Long Stemmed at $1, $1 50, $2, and $3.

Medium Stemmed at $3, $3 50, and $4.

Short Stemmed at $5, $6, $7, $8, and $9.

Very Short Stemmed at $9, $10, $12, $15, $17, $20 and upwards.

Extra Long Haired Switches at $15, $17, $20, $25 and up to $50.

Reversible Bangs.

This is a universal favorite among the ladies. It is made of best quality curly hair and will always stay curled. Can be combed like a person's own hair. Gives a neat dressy appearance.

Prices, $2 50, $3, $4, $5, $6 to $8.

Water Waves.

A fine head dress, specially adapted for old and middle-aged ladies. They are made of best water-waved hair and are easily dressed with water. They are made with and without hair falling to the back.

Prices without Fallbacks, $2, $2 50, $3, $3 50, $4, $4 50.

With Fallbacks, $2 50, $3, $3 50, $4, $5, $6, $7, $8, $9 to $12.

Dr. Dorenwend's Great German Hair Magic

Is the finest thing in the world for restoring grey hair, removing dandruff, stopping falling out of the hair, etc. Thousands are using it and all like it. The only reliable Hair Tonic on the market. Try it. You will thank us for recommending it.

Price $1 per bottle, 6 bottles for $5.

Parisian Bangs.

Without a doubt, is the most complete head-dress of this character ever produced. The front bang part is similar to the Reversible style, the back being made of the best French and German hair. This design is especially adapted for ladies whose hair is thin or grey. It hides all defects of the hair and head.

Prices, $8, $10, $12 50, $15, $17.

Other Bangs and Frontpieces.

Pompadour No. 1, very neat, at $5, $7, and $9.

Pompadour No. 2, $2 50, $4.

Shingle Bangs No. 1, $3, $4 50, $6, and $7 50.

Shingle Bangs No. 2, $2, $3 50 and $5.

Do you read "Forest and Farm." It is the best farmers' $1.00 weekly published in Canada—contains a summary of the world's news in live, readable shape, and current market prices of general merchandise. Free sample copy sent upon application.

Always write your name and address on packages returned to us, if you wish them to have attention; also, send letter of instructions by mail.

MILLINERY AND TRIMMINGS.

We are prepared to fill orders for hats and bonnets by letter orders and forward them by mail or express, and when instructions are followed, guarantee entire satisfaction. All work warranted of the highest artistic order and latest season fashions. Instructions in orders:—Explain clearly what style you desire and shade you prefer to have predominate. Give complexion, full, round or narrow face, size of head, height, age, weight and price. All our hats are quoted at two prices; you may add to the minimum price quoted $1, $2 or $5, and we will give you value accordingly in quality of material and finish.

Carpet and Upholstering Department.

QUICK SERVICE.

Carpets will not be sent C. O. D. Cash must accompany order in every case. No carpet sen on approval. We will not be able to duplicate patterns in carpets as a rule, hence be sure and order enough. Patterns and styles are continually changing. Matting, Oil Cloth, and all carpets are priced so very low that they are net, no discount allowed.

At the request of many of our patrons we have decided to fill orders for carpets, and offer the following as being a very comple line, at much lower prices than these goods are usually sold. We have made arrangements with a large manufacturer's agent here th will enable us to carry a sample line in our store, that can be replenished or added to from day to day as fast as the new patterns a received. This prevents any old or undesirable pattern from accumulating on our hands, and enables us to sell at a much small margin of profit than other houses who carry and handle their own stock.

We do not sample carpets, as it would take too large a piece to show the figure. In ordering mention the predominating col wanted, and state whether you want large or small figures. We will endeavor to use our best judgment in making selection Carpets cut and sewed to order, cannot be returned if sent as ordered.

In ordering, give size of room and the space you wish to cover, and no more, and then in figuring the amount of carpet require allow three (3) to six (6) inches on each breadth for shrinkage, hemming, etc., on all cotton and woollen carpets.

We have borders 22 inches wide to match all Tapestries, Body Brussels, Velvet and Moquettes

Borders improve a carpet wonderfully in beauty. Measures for bordered carpets must be very exact. Give diagram of all od shaped rooms. The charge for sewing is 5 cents per yard for plain, and 8 cents for bordered carpets.

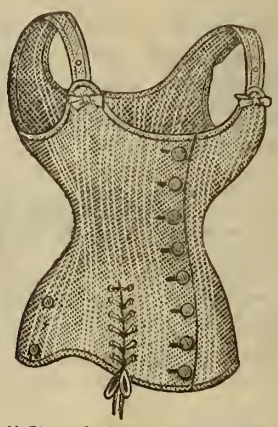
Corset Waists, Baby Linen, and Bridal Suits.

We have special facilities for securing at first cost the best makes of ladies', children's and infants' underwear. The lace trimm and embroideries which are used are of the best, and we sell garments at prices which cannot be competed with in the same quality of goods.



Style 210—"Good Sense" Corset Waist.

Best fitting and best finished corded corset waists ever offered to the public. These goods excel all others in perfection of fit for all ages. Best for health, comfort and beauty; beautifully corded, superior shape, best material used throughout.

Special Advantages Under Ferris' Patent.—Buttons front instead of clasps, thereby avoiding the injurious stiff steels in ordinary corsets. Tape-fastened buttons are used together with our duplex cord-edge button holes. Ring buckle at hip to secure hose supporters. Cords are placed in a special manner for stiffening instead of bones, thereby leaving the garment pliable and flexible throughout. Broad back steels are put in patent pockets (can be instantly removed); they give a strong support to the back. These steels are covered to give extra wear. Shoulder straps are adjustable, and being curved and broad at the back, are comfortable, supporting the skirts and stockings directly from the shoulders. Physicians affirm that such support is essential to health.

Superior Shape.—These corsets are not made after any "French Patterns," but are made to conform to the natural beauty of the figure, and with regard to the most approved rules of health. Can be washed without losing the shape or causing any damage, as all the steels may be easily removed. Price, complete, $2 25

Ladies' Underclothing.

	Each.

" 20 00 " 40 00	20 "		

Express money orders are procurable at nominal rates in any town or city reached by the express companies.
For any small amounts you can send us Canadian stamps of the present issue or dollar bills; but you had better register your letter, as we do not hold ourselves responsible for unregistered letters sent.
Certified cheques or drafts on Toronto are, of course, acceptable.
For further information on ordering by mail, see front cover and page 1. Address all communications to:

THE CHARLES STARK COMPANY, 52 CHURCH STREET, TORONTO, ONTARIO.

CLOTHING DEPARTMENT.

LOOK AT OUR PRICES.

We are confident of being able to Suit any Taste and Purse,

Particularly in this department. It embraces all the newest patterns and colors the market affords, and at the lowest prices possible consistent with quality. A full line of the newest styles in handsome

PLAIDS, CHECKS AND MIXTURES, DIAGONALS OF THE NEWEST SHADES, ETC., ETC.

This department is a special feature of our catalogue. We do not sample. Clothing manufacturers are constantly making changes in patterns of goods, and it is impracticable to furnish samples.

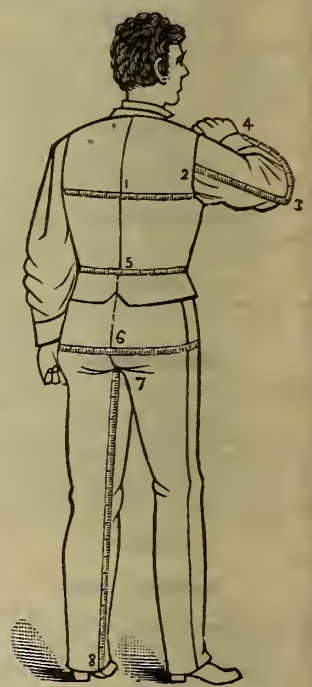
In the following pages we have endeavored to give descriptive quotations of an assortment from which persons in need can supply their wants, and whether a low priced or high priced article. We give the best to be afforded for the amount invested, but never sacrifice quality to price.

MEASUREMENT.

Please observe the following Rules of Measurement, and always give your Height, Weight and Age.

MEASUREMENT REQUIRED FOR COAT.

First.—Chest measure to be taken over the vest close under the arms, giving number of inches around the body.
Second.—Length of sleeve to elbow from 2 to 3, also from 3 to 4. (See cut.)



MEASUREMENTS REQUIRED FOR VEST.

Same as first measurement for coat over the vest.

MEASUREMENTS REQUIRED FOR PANTS.

First.—Measure around the body under the vest for the waist measure at No. 5, as on the cut
Second.—Measure around the body, for hip measure at No. 6, as the cut.
Third.—Measure from No. 7 to 8 for inside seam measure.

MEASUREMENTS REQUIRED FOR OVERCOAT.

Same as for coat.

Expianation of Cuts.

STYLE 13

No. **279**—Canada Tweed, strong and durable in neat mixtures—stripes and checks. Coats are lined with strong Verona serge to match tweed. The pants are all lined with good strong white cotton. We start this quality as under:

$2 50, $2 75, $3, $3 25, $3 50, $3 75, $4, $4 25, $4 50

No. **280**—English Tweeds of good quality, in nice neat spots and fancy patterns of stripes and mixtures, also small checks. The coats are lined with fine Verona serge. The pants are lined all through with white cotton of good quality. As style No. 13. We commence this quality as follows:

$3 50, $3 75, $4, $4 25, $4 50, $4 75, $5, $5 25, $5 50

No. **281**—Scotch Tweeds, Bannockburn, of all the latest goods from the Scotch market in newest styles from the best mills. The coats are lined with a satin twill. The buttons are imported, and are made to match the goods. They are the nobbiest and finest Boys' Suit in the market. As style No. 13. Our prices are as under:

$4 50, $4 75, $5, $5 50, $6, $6 50 $7, $7 50, $8

No. **282**—French and German Tweeds in all colors and patterns. These goods are the finest and best made cloths these mills can produce. The coats are lined with German satin twills to match goods. Pants are lined with white cotton. As style No. 13. Prices as under:

$4 50, $4 75, $5, $5 50, $6, $6 50, $7, $7 50, $8

No. **283**—Blue Serges; we make these up in three qualities. First quality—Is a strong English cloth serge. Looks well and gives fine wear. It is the Norfolk shape, with belt, and the coats are lined with Verona serge, and pants lined with white cotton, strong and well made. As style No. 18. Prices as under:

$2 50, $2 75, $3, $3 25, $3 50, $3 75, $4, $4 25, $4 50

No. **284**—Second quality—This serge is of French manufacture, worsted and Melton finish, whichever you prefer. The coats are made in the same style as above, but are lined with French satin twill. The pants are also lined. They are a highly finished suit. As style No. 18. Prices as under:

$3 50, $4, $4 50, $5, $5 50, $6, $6 50, $7, $7 50

No. **285**—Third quality—Is of Fine English Worsted Serge. The coats are lined with Victoria satin and sleeves of coat lined with French Silecia stripe. Best ivory buttons are on these garments. We guarantee every article precisely as represented, and when we say that each and every article sold by us or illustrated in our Catalogue is warranted exactly as represented, and that we will exchange anything purchased from us that may not come up to your expectation, it means that you take no chances in ordering from us. All goods will be exactly as catalogued.

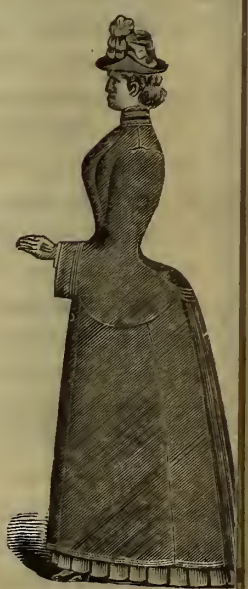

FIGURE 333.

In Sept., 1877, this five cent package of Yeast was put on the market. It was put at this price so as to exactly meet the wants of that large majority of housekeepers who prefer to buy small quantities, when by doing so they need not sacrifice economy. That the experiment is a success is proved by the fact that the Breadmakers' Yeast is now sold in nearly every grocery from Halifax to Vancouver. This yeast germ is something new and wonderful, and it costs only five cents to try it.

TWO FIRST, AND ONE SECOND PRIZE.—Mrs. Rob Gibb, Jr., Sarnia, writes: "I took West Lambton Ag cultural Society's First Prize, also Moore Township F First Prize at Courtright on bread made with the Bre makers' Yeast. I also took Second Prize at Petro Fall Show with bread made with your yeast."

December 1st, 1888.

Dry Goods Department.

Goods are full measure, full count, and quality the best. We strive to give you more for the money than any other dealer.

Dry Goods Department *(Continued).*

Trimming Department.

We make our selections from a complete line of all the latest novelties in dress and mantle trimmings, in American, English and French styles. They include plain and fancy braid, and braid and beaded sets in all the fashionable shades and black. The sets come in cuffs, collar, vest and back, and panel for the skirt. Basque sets may be ordered separately, but always say how many pieces are wanted; and if you will enclose a piece of the dress and say whether you wish the exact shade or the appropriate color to go with it, we will be the better able to suit you.

Mohair and silk gimps, in black and colors, latest style of trimming, from 30c. per yard up.

Do you read "Forest and Farm." It is the best farmers' $1.00 weekly published in Canada—contains a summar of the world's news in live, readable shape, and current market prices of general merchandise. Free sample copy sent upon application.

We guarantee every article precisely as represented, and when we say that each and every article sold by u or illustrated in our Catalogue is warranted exactly as represented, and that we will exchange anything purchased from us that may not come up to your expectation, it means that you take no chances in ordering from us. All goods will be exactly as catalogued.

Shooting and Fishing.

THE LAWS, RULES AND REGULATIONS GOVERNING BOTH.

THE CHARLES STARK COMPANY being the largest house in the Dominion dealing in all kinds of shooting material and fishing tackle, their Catalogue would hardly be complete without some reference to the laws of the country and rules of sport governing the use of such articles. We therefore present the following:

The Game Laws of Ontario.

The only season during which the following game may be hunted, taken or killed, is as follows;

Deer—15th October to 20th November. Partridge—1st September to 1st January. Woodcock—15th August to 1st January. Snipe, Rail and Golden Plover—1st September to 1st January. Ducks of all kinds —1st September to 1st January. Geese —1st September to 1st May. Hare—1st September to 15th March. These dates are inclusive.

These may be exposed for sale for twenty days after expiration of time for killing. No eggs to be taken or destroyed at any time. No traps, nets or snares, baited lines or similar contrivances to be used. These may be destroyed by any persons without liability. No contrivances described or known as batteries, swivel guns, sunken punts, or night lights to be used for killing wild fowl.

Fur-bearing animals may be only taken, hunted or killed as follows:

Beaver, mink, muskrat, sable, marten, otter or fisher—1st November to 1st May. Nor shall any trap or snare or other contrivance be set for them outside this season. Nor shall any muskrat house be cut, speared, broken or destroyed at any time. Any person may destroy such traps, snares etc., so set without liability.

N.B.—No poison to be used in killing the animals named, and no poisoned bait to be exposed in any locality where dogs or cattle may have access to the same.

No deer dog to run at large from the 15th November until the 15th October.

Fines and Penalties.

Deer—$5 to $50 each offence; Fur Animals—$5 to $25; Birds or Eggs—$5 to $25 each bird or egg.

Any other breach of this Act $5 to $25.

No fine can be less than the minimum sum above.

The whole fine goes to the prosecutor. In case of no goods or chattels, imprisonment for three months.

Insectivorous Birds Act, R. S. Ontario, page 2,009, and amendment, 1878, page 82:

These Acts do not apply to birds mentioned in the game Act, or to birds commonly known as poultry.

It shall not be lawful to shoot, destroy, wound or injure, or attempt to do so, any bird whatever except eagles, falcons, hawks, owls, wild pigeons, kingfishers, jays, crows, raven, plover and blackbirds. Nor shall the birds protected by these Acts be taken, captured, bought or sold, or exposed for sale, or had in possession, nor shall it be lawful to take, injure, destroy or have in possession any nest, young or egg of the same. Any person may seize on view any bird unlawfully possessed, and take the same before a magistrate.

For violation of any provisions of these Acts a fine of from $1 to $20 is imposed, the whole to go to the informer, and on non-payment, imprisonment of from 2 to 20 days.

These Acts do not apply to any one having a written permission from the Commissioner of Agriculture authorizing him to obtain such birds or eggs for *bona fide* scientific purposes only.

Any person may, during the fruit season, for the purpose of protecting his fruit from attacks of such birds, shoot or destroy on his own premises the birds known as the Robin and Cherry Bird, without being liable to any penalty.

Recent Amendments to the Law.

A Bill passed by the Legislative Assembly during the session of 1888, provides that no moose, elk, reindeer or caribou shall be hunted, taken or killed between the first day of April, 1880, and the fifteenth day of October, 1895.

It is also provided that no person shall at any time prior to the year 1895 hunt, take or kill any deer, unless such person has been actually resident and domiciled within the Province of Ontario or within the Province of Quebec, for a period of at least three months next before the said time, and any person offending against this section shall be liable to a fine not exceeding $20, nor less than $10, with costs of the prosecution, for each animal so hunted, taken or killed, and in default of immediate payment of said fine and costs, shall be liable to be imprisoned in the common gaol of the county or district wherein the offence was committed for a period not exceeding three months: Provided always that this section shall not apply to any person who, being a shareholder of or in an incorporated company, hunts, kills or takes on the lands of such company, any of the animals mentioned in this section: Provided, moreover, that this section shall not apply to any person in any year for which he has obtained from the Commissioner of Crown Lands a permit to hunt, kill or take any of the animals in this section mentioned, and the Commissioner of Crown Lands is hereby authorized to grant and issue such a permit upon payment therefor of a fee of $10 for each year during which the same is to be in force, and upon being satisfied that the person applying for the permit may be relied upon to observe and comply with the other provisions of this Act.

No one person shall, during any one year prior to the year 1895, kill or take alive more than five deer; and no two persons hunting together or from one camp or place of rendezvous, or forming or being what is commonly known as a hunting party shall, in any one year prior to the year 1895, kill or take alive more than eight deer; and no three or more persons hunting together or from one camp or place of rendezvous, or forming or being what is commonly known as a hunting party shall, in any one year prior to the year 1895, kill or take alive more than twelve deer, and any person offending against this section shall be liable to a fine not exceeding $20, nor less than $5, with costs of the prosecution, for each deer beyond or exceeding the number so permitted to be killed or taken as aforesaid, and in default of immediate payment of such fine and costs, shall be liable to be imprisoned in the common gaol of the county or district within which the offence was committed for a period not exceeding three months.

Shooting in the Province of Quebec.

Close Seasons.

Moose and caribou, from 1st of February to 1st September; deer, from 1st January to 1st October.

The hunting of moose, caribou or deer with dogs or by means of snares, traps, etc., is prohibited.

No person (whiteman or Indian) has a right, during one season's hunting, to kill or take alive—unless he has previously obtained a permit from the Commissioner of Crown Lands for the purpose—more than two moose, three caribou and four deer.

After the first ten days of the close season, all railways and steamboat companies and public carriers are forbidden to carry the whole or any part (except the skin) of any moose, caribou or deer, without being authorized thereto by the Commissioner of Crown Lands.

Beaver, mink, otter, marten, pekan, from 1st April to 1st November; hare, from 1st February to 1st November; muskrat (only in the counties of Maskinonge, Yamaska, Richelieu and Berthier), from 1st May to 1st April following; woodcock, snipe, partridge of any kind, from 1st February to 1st September; black duck, teal, wild duck of any kind (except sheldrake and gull), from 15th April to 1st September, and at any time of the year, between one hour after sunset and one hour before sunrise. It is also forbidden to keep exposed, during such prohibited hours, lures or decoys, etc.

Birds known as perchers, such as swallows, kingbirds, warblers, fly-catchers, woodpeckers, whipporwills, finches, (song-sparrows, red-birds, indigo birds, etc.,) cow-buntings, titmice, goldfinches, grives, (robins, wood-thrushes, etc.,) kinglets, bobolinks, grakles, grosbeaks, humming birds, cuckoos, owls, etc., except eagles, falcons, hawks and other birds of the falconidæ, wild pigeons, king-fishers, crows, ravens, waxwings (*récollets*) shrikes, jays, magpies, sparrows and starlings, from 1st March to 1st September.

It is illegal to take nests or eggs of wild birds at any time of the year.

A fine of $2 to $100, or imprisonment in default of payment.

No person who is not domiciled in the Province of Quebec, nor in that of Ontario, can at any time hunt in this Province without having previously obtained a license to that effect from the Commissioner of Crown Lands. Such permit is not transferable.

Shooting and Fishing. (*Continued.*)

THE FISHERY LAWS OF THE DOMINION.

TABLE OF CLOSE SEASONS.

KINDS OF FISH.	Ontario.	Quebec.	Nova Scotia.	N. Brunswick.	P. E. Island.	Manitoba and N. W. T.
Salmon (Net fishing)		1 Aug. to 1 May	15 Aug. to 1 March	15 Aug. to 1 Mar.		
Salmon (Angling)		15 Aug. to 1 Feb.	15 Sept. to 1 Feb.	15 Sept. to 1 Feb.		
Salmon, Restigouche River		15 Aug. to 1 Feb.		15 Aug. to 1 May.		
Speckled Trout (*Salvelinus Fontinalis*)	15 Sept. to 1 May	1 Oct. to 1 Jan.			1 Oct. to 1 Dec.	1 Oct. to 1 Jan.
Large Grey Trout, Lunge, and Winninish		15 Oct. to 1 Dec.				
Pickerel (*Dore*)	15 Apr. to 15 May	15 Apr. to 15 May				15 Apr. to 15 May.
Bass and Maskinonge	15 Apr. to 15 June.	15 Apr. to 15 June				
Whitefish and Salmon Trout	1 Nov. to 30 Nov.					
Whitefish		10 Nov. to 1 Dec.				5 Oct. to 10 Nov.
Sea Bass				1 March to 1 Oct.		
Smelts			15 April to 15 May.	15 April to 15 May.		
		(Bag	net fishing prohibited, except under license.)			
Lobsters		20 Aug. to 20 Apr.	1 Aug. to 1 April (*West coast.*) 20 Aug. to 20 Apr. (*North coast.*)	1 Aug. to 1 April (*South coast*) 20 Aug. to 20 Apr. (*North coast.*)	20 Aug. to 20 April.	
Sturgeon				31 Aug. to 1 May		1 May to 15 June.
Oysters		1 June to 15 Sept	1 June to 15 Sept	1 June to 15 Sept.	1 June to 15 Sept.	

NOTE.—Fishery laws only partially extended to British Columbia. Drifting for salmon confined to tidal waters, and fishing to be discontinued fro Saturday noon till 6 p. m. Sunday.

Net fishing of any kind is prohibited in public waters, except under leases or licenses.

The size of nets is regulated so as to prevent the killing of young fish. Nets cannot be set or seines used so as to bar channels or bays.

The use of explosive or poisonous substances for catching or killing fish is illegal.

Mill-dams must be provided with efficient fish passes. Models or drawings will be furnished by the Department, at Ottawa, on application.

Angling by hand (with hook and line) is the only means permitted to be used for taking fish in the lakes and rivers under control of the Government of the Province of Quebec.

No person who is not domiciled in the Province of Quebec, can at any time fish in the lakes or rivers under control of the Government of this Province, not actually under lease, without having previously obtained a permit to that effect from the Commissioner of Crown Lands. Such permit is only valid for the time, place and persons therein indicated.

Rules for Trap-Shooting at Inanimate Targets.

Following is a summary of the rules adopted by the Dominion Gun Alliance, with which is affiliated all the principal gun clubs of the Dominion:

Before the match commences, the contestants, by a majority vote, shall select two judges, who shall choose a referee.

The referee shall act only when the judges disagree, and then his decision shall be final, but the referee shall be supreme in all the arrangements and the governing of the contest.

All matches shall be shot from either three or five traps, and the traps shall be so adjusted that the elevation of the target in its flight at a distance of ten yards from the trap shall not be more than ten feet or less than four feet from a level line from the bottom of the trap. In using three traps number one trap shall be set to throw a right quartering bird. Number two trap to throw a straight away bird. And number three trap to throw a left quartering bird. In using five traps number one shall be set to throw a right quartering bird. Number two a left quartering bird. Number three a straight away. Number four a right quartering, and number five trap a left quartering bird. The puller and indicator shall be at least six feet behind the shooter, and if the shooter fails to shoot when the trap is properly pulled it must be scored a lost bird.

Double Birds.—Doubles shall be thrown from a trap that throws a left quartering bird, and a trap five yards to its right that throws a straight away bird.

Ties on single birds shall be thrown from full numbers of traps used in match.

Position of the Gun.—After the shooter steps to the score the butt of the gun stock shall be held below the arm-pit until he calls "pull"; otherwise, if challenged, the shot shall be declared a "lost bird" whether hit or missed.

Loading of Gun.—Charge of powder unlimited; charge of sh not to exceed 1¼ oz., Dixon's Standard Measure, No. 1106 or 11 "dipped" measure. No guns larger than 10-bore shall be allowe

Broken Birds.—No target shall be retrieved to be examin for shot marks. A target to be scored broken must be broken as to be plainly seen in the air.

Lost Birds.—All targets not broken in the air as above define and not ruled as "no birds," shall be scored lost. When shootin at single targets, one barrel only shall be loaded; should mo than one barrel be loaded, the shot shall be scored lost.

"No Birds."—If a target be broken by the trap, it shall optional with the shooter to accept it; if he accepts the result sh be scored.

Allowing Another Bird.—The shooter shall be allowed a other target under either of the following contingencies:—In sing bird shooting, if two or more are sprung instead of one. If t target is sprung before or at any noticeable interval after t shooter calls "pull." If the target does not fly 25 yards from trap, passing over a line (imaginary), at a distance of ten yar from the traps, and four feet high at the latter distance. If t shooter's gun being properly loaded and cocked, does not go through any cause whatever, except through the fault of t shooter. If a target is thrown so that to shoot in proper time would endanger life or property. But if the shooter, in either the foregoing contingencies, fires at the target, he is to be deem as accepting it, and the shot must be scored according to the resu

Double Birds.—In case one may be a fair bird and the oth an imperfect or no bird, the shooter shall shoot at a new pair; bo birds must be sprung at once, otherwise they shall be "no birds If a shooter fires both barrels at one bird in succession, they sh be scored lost. In double-bird shooting, in case of misfire of eith barrel, through no fault of the shooter, he shall shoot at anoth pair.

Rises and Ties.—The rise, in championship matches and sweepstakes, where no handicap has been recorded, shall be eight yards in single, and fifteen yards for double bird shooting. Wh ties are shot off, the rise shall be increased two yards.

Ties on doubles shall be shot two pair.

All ties shall be shot off on the same grounds immediate after the match, if the light permits; otherwise on the next co venient day according to the decision of the judges; or, with t permission of the judges, the prize may be divided.

In team matches the members of a team must all be membe of the same club.

Live Bird Shooting.

Two judges shall be appointed by the contestants, who sh appoint a referee. A shooter may appoint a puller for himse The referee's decision shall be final.

For pigeon shooting H. and T. ground traps shall be us placed five yards apart. For sparrows, five ground traps shall used, numbered from the right, 1, 2, 3, 4, 5, and placed two ya apart. For bat shooting, the bats shall be placed in a barrel a

Shooting and Fishing. (*Continued.*)

Live Bird Shooting. *(Continued).*

e thrown into the air by a handler. The traps shall be placed in ich a position as the majority of the committee present deem ost advantageous.

For pigeon shooting the standard distance shall be 26 yards r guns of number 10 gauge, and half a yard less for each num- er of gauge less than these, but no distance shall be less than 21 ards. For sparrow shooting the standard distance shall be 21 ards, and no gun larger than 10 gauge shall be used. For bat ooting the standard distance shall be 18 yards, and no gun rger than 10 gauge shall be used.

No one shall use a larger gun than No. 10 gauge, nor over an nce and a quarter of shot as measured in a Dixon's Standard o. 1106 or No. 1107 measure struck off in any charge. Any one sing a larger charge shall be disqualified and shall forfeit all ghts in the contest.

Each shooter must, if his load is challenged by anyone shoot- g in the match, submit his gun and cartridges to be examined by ie referee.

For pigeon shooting a pigeon shall be put in each trap before ie "toss," and the referee shall decide by toss which trap shall be ulled first. Both birds shall be liberated before the traps are efilled.

For sparrow shooting the traps shall all be filled with lively irds, and number 1 trap pulled first, then 2, 3, 4, 5 consecutively.

For shooting bats the handler shall take the bat carefully into is hand, and at the word "throw" shall toss it at least 10 feet up ito the air.

Shooters shall draw lots to determine the order in which they hoot.

Each shooter shall come to the foot mark on his name being alled by the scorer, but in case of an accident or other sufficient round in the opinion of the referee, time be allowed, but not to xceed five minutes.

The shooter shall not load his gun until he comes to the score, nd shall remove any unfired load before he quits it.

Shooting.—For pigeons, the shooter may use both barrels of is gun, but if both barrels are discharged simultaneously the bird hall be declared "lost." For sparrow and bat shooting, only one arrel shall be used.

After the shooter comes to the score, if he levels his gun or aises the heel of the gun-stock above his arm-pit before the bird s on the wing, the bird shall be declared "lost." The shooter's eet shall be behind the footmark till after he has shot, or the bird hall be declared lost. When the shooter is ready, he shall give he caution, "are you ready," and then call "pull." Should the rap be pulled without his order, the shooter may take bird or not, ut if he fires, the bird must be deemed to be taken. The referee nay allow the shooter another bird if he be baulked.

If the bird leaves the trap, and in the opinion of the referee is hot on the ground with the first barrel, the shooter shall have nother bird. If more than one bird is liberated, the shooter may all "no bird" and claim another, but if he shoots he must abide by he result. If the shooter orders the trap to be pulled and does not hoot, or his gun is not properly loaded, cocked and ready to be fired, nd the bird gets away, it shall be scored "lost." If a miss-fire ccurs with the first barrel, the shooter need not use the second, but may claim another bird, but if he uses the second he must abide by the result. If a miss-fire occurs with the second barrel, the shooter may have another bird, but he must fire his first barrel with a regular charge of powder and no shot, from his shoulder, at the bird after it is on the wing, before firing the second barrel.

If, after the trap is pulled, the bird does not rise within one minute, or goes three yards from the trap, or rises and lights again within five yards from the trap, the referee shall declare it "no bird;" but if a bird rises and flies five yards it shall be considered a fair bird and must be taken.

A bird may be shot on the ground with the second barrel if it has been fired at with the first while on the wing.

If the shooter has left the foot-mark he may not return to use the second barrel.

If any person, dog or other animal should be in the way so that it would be dangerous to shoot at the bird, the referee shall give the shooter another; but no shot can be fired at a bird after it has passed the line of the foot-mark.

Boundary.—The boundary on pigeons shall be 100 yards from a point half way between the traps. The boundary on sparrows and bats shall be 50 yards.

Gathering.—If a bird falls apparently shot, so that it may be gathered, it shall be scored "dead" unless challenged at once by some one shooting in the match. The bird must be gathered within the boundary if challenged by any one shooting in the match, and within three minutes from the time of the challenge. The shooter may gather his own bird or appoint some other person or dog to do so. The gatherer, if not a dog, shall go direct from the foot-mark to the bird, take it with his hands without assistance and without injury, and hand it to the referee, when if it does not show one or more shot marks, it shall be scored "lost."

A bird once it has gone beyond the boundary shall be scored "lost." If a bird lights on a boundary fence, tree, building or other thing 6 feet or more above the ground, it shall be scored "lost" unless it drops so that it can be gathered within the time limit. If the bird is interfered with by anything or anybody, the referee can score it "dead" or "lost," as he shall think fit.

No pulling of feathers, or otherwise maiming or injuring a bird, will be allowed.

Ties.—Shooters making a tie shall continue to shoot "miss and out" until one score shall have beaten the other.

Double Bird Shooting.—The distance shall be twenty-two yards for guns of ten gauge, and half a yard less for each gauge less, but in no case less than eighteen yards. If either bird is shot on the ground, it shall be scored "lost." If more than two birds are liberated, the shooter may call for another pair, but if he shoots he must abide by the result. If the shooter has a miss-fire with either barrel, or kills both birds with the first barrel, he shall shoot at two more birds, and first pair shall be "no birds." If the birds do not, within one minute after the trap is pulled, rise and fly so as to afford a fair shot at each on the wing, they shall be declared "no birds." Six minutes are allowed for gathering and only the bird or birds gathered within that time will be scored "dead."

Snow Bird Shooting.—The rules shall be the same for snow bird shooting, except that no larger charge than an ounce and one-eighth shall be used.

Game Laws of Manitoba.

All kinds of deer, including cabri or antelope, elk or wapiti, moose, reindeer or cariboo, or the fawns of such animals, between January 1 and October 1. All varieties of grouse, between December 1 and September 1. Woodcock, plover (except the golden plover), snipe and sand pipers, between January 1 and August 1. All kinds of wild duck, sea duck, widgeon, teal, wild swan or wild goose, except the variety of wild goose commonly known as "The Snow Goose," or "The Wavey," between May 1 and August 15. Otter, fisher or pekan, beaver, muskrat and sable, between May 15 and October 1. Marten, between April 15 and November 1.

Any such animal or bird may be had in possession in any building or portion thereof used as a private dwelling, or in any outbuilding used in connection herewith, and in the same occupation for the private use as food of the occupant of such building or such portion thereof, or of the family of such occupant, at any time, but in all cases the onus of proof that such animal or bird was not trapped, taken or killed by any person, and was not purchased, procured or received by such occupant during any close season, and the onus of proof of the purpose for which such animal or bird is had in possession, shall be upon the person so in possession. No eggs of any of the birds above mentioned shall be at any time disturbed or had in possession, except as hereinafter mentioned. None of the animals or birds above mentioned shall be exported from Manitoba at any time whatever. No person, not having a domicile in this province, shall at any time shoot at, hunt, trap, take or kill any of the animals or birds above mentioned without having first obtained a license from the Department of Agriculture, Statistics and Health. No person shall hunt with dog, gun, net or otherwise on the grounds or lands of another, without first obtaining permission so to do from the owner, agent or occupant of such grounds or lands. Provided, however, that persons may have in their possession the eggs of wild birds for the purpose of hatching and breeding, and the birds raised therefrom, and that persons may keep for the purpose of domestication any animal above mentioned.

Notwithstanding anything in section sixty-one (61), chapter nineteen (19), 46 and 47 Victoria, and the Acts amending the same, no person shall shoot at, hunt, take or kill any of the following varieties of grouse, commonly known as prairie chickens or pheasants, and partridges, except for private use, but in all cases the proof that he has shot at, hunted, taken or killed such grouse for private use shall be upon the person so shooting, hunting, taking or killing such grouse: and even for such private use as aforesaid he shall only take or kill the same between the first day of September and the first day of December. Any person violating the preceding section shall, on conviction before a Justice of the Peace or other Magistrate, be fined a sum of not less than $25, and not exceeding $50, or in default of payment not less than one, or more than two, months' imprisonment.

W. W. GREENER'S ENGLISH BREECH-LOADING GUNS.

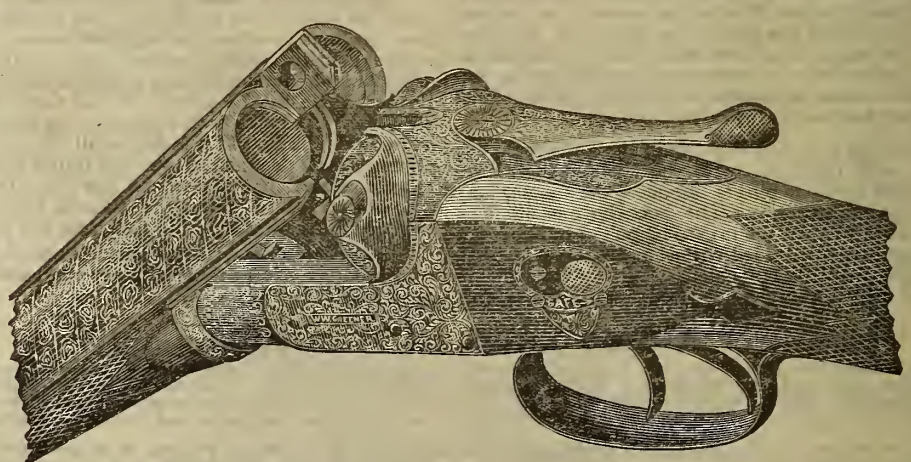
We have, after practical and thorough investigation, positively concluded that the best guns of English manufacture are the made by W. W. Greener, and in consequence gladly accepted the Canadian Agency, and now carry a complete stock, selling them a modest advance upon the first cost. W. W. Greener is the inventor of many well approved patents for improved gun mechanism, a the proprietor of the most successful patents, and has taken the highest honors throughout the world.

No. 2—W. W. Greener's Ejector Guns.

Celerity, Comfort, Economy result from the adoption of this gun. They are the highest development of the sporting gun. Hundreds are daily use and giving every satisfaction. Testimonials as to their efficiency from sportsmen in England, in Central Africa and in Siberia. Are simple, efficie convenient and sound.

W. W. Greener's "Self-acting" Ejector, Hammerless Gun embodies every improvement of note applicable to the sporting shot g It has been produ by Greener at the request of sportsmen who desire a gun that will EJECT the fired cartridge case in the same manner as does the Martini-Henry Rifle. These g have been subject to severe tests, and it is now with the utmost confidence that we recommend it to sportsmen as the *ne plus ultra* sporting gun. Although simple construction and few parts, its mechanism requires such fine adjustment, and therefore the most skilled labor, that it is impossible to make it satisfacto in the lower grades.

No. 1—Finest quality, elaborately engraved and finished, and made of the best material, 10, 12, 16 and 20 bores..... Price, **$190 00**
2—Best quality in material, but not so finely engraved and finished..... **170 00**
3—This gun is of good material, well made and closely fitted. A gun for service, great care being taken in the shooting.... **150 00**



No. 5—W. W. Greener's Patent Treble Wedge Fast Hammerless Gun, with Double Lock Safety Attachment.

THE SIMPLEST AND STRONGEST IN THE MARKET.

The cocking mechanism of this gun is more simple, the gun neater and more graceful in appearance, possessing greater solidity and handiness than obtainable under any other existing arrangement. The chief advantages are: More leverage for cocking the locks, obtained by substituting a cocking swiv pivoted in the barrel lump, for cocking dogs, the weight of the barrels being almost sufficient, *per se*, to effect the cocking of the locks; there is less friction; t gun is more readily taken apart and put together, it being immaterial whether the gun is cocked or not on replacing the barrel; and the body of the breech-acti may be made longer and stronger.

Price—12 guage, **$98 00**; 10 guage, **$9 00** extra; finely engraved, **$12 00** extra.

W. W. GREENER'S ENGLISH HAMMER GUNS.

No system of breech mechanism is so popular, none so strong or so thorough, as the "Treble Wedge Lock." It cannot be destroyed by any explosive.

No. 6—W. W. Greener's New Far-killing Duck Gun.

This new gun has all latest improvements, low hammers, horn heel plate, and the patent treble wedge-action, the strongest and best ever invented. This xcellent system secures the barrels to the action by a double bolt underneath in the ordinary way. It possesses in addition a cross-bolt which firmly secures the arrels to the standing breech at the top and behind the charge, effectually preventing the springing back of the standing breech at the moment of firing, and edges the barrel down at the same time. The whole arrangement is simple and strong, and works pleasantly by a thumb lever placed between the hammers. his cross-bolt is a decided improvement upon any of the guns now in use with the extended ribs only, as it possesses much greater binding power, and thoroughly uiting the barrels to the stock, both underneath and over the charge, making the gun safe and durable with any quantity of powder that can be used in the gun on the shoulder. These guns are warranted to shoot 20 per cent. stronger and closer than the best London-made guns, and are supplied at less than half the ost. Supplied in 10, 12 or 16 gauge; weight, 7 to 10 lbs. Special price, **$78**

No. 7—W. W. Greener Trap Gun, 10, 12 and 16 Bore.

The above cut is an exact representation of Greener's "Trap" gun. It has top lever, double bolt solid strikers, extension rib, pistol grip, patent fore-end, ne laminated steel barrels, and horn heel plate. The stocks are English walnut, checkered grip and fore-end. The hammers are low, and when cocked are ompletely below the line of sight, and the locks best polished steel and rebounding. There is no gun, foreign or domestic, that compares with this new gun in eauty, balance or strength. These guns are all choke bored unless specially ordered otherwise, and no pains will be spared in making them superior in shooting ualities to any in the market. Mr. Greener has been the winner in every gun trial ever held for choke bores, and his guns are now acknowledged to be the lead- ng guns in Europe and America for uniformity and closeness of pattern and great penetration.

An examination of "The Trap Gun" will show that it is made of best material, and built in the strongest and most substantial manner, and, for the price sked, is the best adapted of any gun in the market for downright hard service. Parties wishing elegant finish, and exquisite engraving and fitting, are recom- ended to purchase one of Greener's high priced guns. Those wishing durability, strength, hard and close shooting, and unexcelled penetration, or a gun for duck r trap shooting, well fitted and good enough for severe work, and not too fine for hard service, and at a low price, can find just what they want in "The Trap un." Price, 12 and 16 bore, **$58**, 10 bore extra, **$4**

In ordering goods from our Catalogue be sure always to give the name of the article wanted and price. Catalogue number is not always sufficient.

W. W. Greener's English Hammer Guns.

Every sportsman should read "The Gun and its Development, with Notes on Shooting," by W. W. Greener, author of "Mod Shot Guns," "Choke Bore Guns," "Modern Breech-Loaders," etc., mailed to any address on receipt of $1. His latest book, "Mod Shot Guns," of 200 pages, illustrated, cloth cover, mailed on receipt of 50 cents.

No. **8—W. W. Greener's "Dominion" Gun.**

This Gun is made especially for the Canadian market, and is sold at a price that is within the reach of all sportsmen, witho sacrificing quality or finish; replete with the best and latest improvements, well bent stock, pistol grip and doll's head extension, ho heel plate, patent snap fore-end, solid strikers, low hammers, through lumps, rebounding locks, top lever, double bolt, snap breech actio and are full or modified choke bore, and warranted to shoot well, wear well and handle well. The best shooting gun ever offered at t price; 12 or 16 gauge; weights, 6½ to 8¾ lbs., **$48.** 10 gauge; weights, 8½ to 10 lbs., **$52**

No. **9—W. W. Greener.**

The "Winning" Gun, patent treble wedge fast; gun fitted with Greener's improved low hammers. The cross bolt invention a great improvement on the Wesley Richards system. The cross bolt holds the barrels down in position; at the same time it wedg the standing breech to the ends of the barrels and against the base of the cartridge, and effectually secures the barrels at the top of t standing breech, which prevents gaping at the joints at the moment of firing. It will securely stand double the charge that can be fir from the shoulder; 10, 12 or 16 gauge, 7 to 10 lbs. weight; price, **$90**

Guns built to order. Time required, sixty days.

Take dimensions as follows

Take a piece of wood or iron with a perfectly straight edge, sufficiently long to reach from the sight on the muzzle to t extremity of the butt; lay this straight-edge along the rib and measure the distance both to comb and heel; this is the bend. T length required will be from the centre of the fore or right-hand trigger to the heel, centre and toe respectively, and the depth from t heel to the toe. The circumference of the hand may be obtained by passing a string around it immediately behind the trigger-guar measuring the string. In taking the length, measure to the centre of the heel-plate or extreme length, and not to the edge of it.

J. P. Clabrough & Bro.'s Hammerless Guns.

The style, quality and finish of these guns are well known to Canadian sportsmen, and require no commentary from us to introduce them. They are all precisely as represented and guaranteed to give entire satisfaction.

No. **100—Clabrough's New Hammerless Gun.**

The lowest price hammerless gun on the market, of English make. In this gun all value is put into the barrels, locks and shooting. Fine laminated steel barrels, with extension rib, double bolt, patent fore-end, automatic safety attachment, and combining all improvements requisite to a complete gun, 10 and 12 gauges, weight 7½ to 10 lbs., 30 and 32 in. barrels. Price, net, **$48 00**

J. P. Clabrough & Bro.'s Hammerless Guns.

Easy of manipulation and unrivalled for safety, opens freely and least liable to get out of order. The hammers can be let down without snapping, by simply pressing the trigger and closing the barrels. Scott's pattern double bolt top action, extension rib, pistol grip, choke bore, patent fore-end, and all improvements. The hammers cocked and triggers locked automatically by operating the gun. When ready to fire, push forward the safety catch just behind the lever, thereby releasing the triggers.

No. 1—Damascus barrels, complete with all modern improvements; finely engraved; 10, 12, 14 and 16 gauge; weight, 7 to 10 lbs. Price, **$60 00**

No. 2—Fine Damascus barrels, complete with all modern improvements; handsomely engraved; treble wedge last. (See cut.) 10, 12, 14 and 16 gauge; 7 to 10 lbs. weight. Price, **$75 00**

No. 3—Clabrough's highest grade "Replete," beautifully hand engraved; 10, 12, 14, and 16 gauge; 7 to 10 lbs. Price, **$90 00**

When you buy from a firm that sells for cash only, you do not have to pay the losses occasioned by a "Credit System." This is one of the secrets why we are able to sell at lower prices than any other House in Canada.

J. P. Clabrough & Bros.' Complete

English Breech-loading Guns.

These are the best guns for the money imported into the Dominion. They are all choke bored, carefully and soundly actioned combining all improvements, and manufactured only by the most skilled mechanics, each gun undergoing the personal inspection of Mr. Clabrough.

Complete Guns. All Improvements. Strong Shooters.

Clabrough & Bro.'s best gun, treble grip Scott action, jointed on the circle, finest Damascus barrels, extra smooth gaited locks, D. & E. patent fore-end, extension lever rib, low hammers, solid strikers, combining all modern improvements; the low hammers leave an unobstructed sight; best quality stock, extra fine checkering and engraving; full choke; close, strong shooters; the gun for trap-shooting; 10, 12, 14 and 16 guage, 30 and 32 inch barrels, 6½ to 10 lbs. weight. Price, **$85.**

Auguste Francotte's High Grade Guns.

Francotte's Improved Featherweight Shot Gun.

The featherweight guns improved by Aug. Francotte are of a special build.
Although exceedingly light, they still offer the same guarantees of solidity as guns of ordinary weight.
Full attention is paid to all the rules of high class gunmaking.
The barrels are 25 inches long and their outside gauge exactly the same as of guns of ordinary weight.
All parts have the substance usually wanted.
The ribs are tin soldered, the lumps and joints of the barrels are brass soldered.
The extension rib, to take the treble sliding bolt (as shown in cut), is of steel bodily laid into the barrel and brass soldered.
Unless specially ordered, the left barrel is choke-bored, the right one cylindrical.
They are supplied in 10, 12, 14 and 16 gauge.

The Breech has Greener's Treble Wedge Fast Bolt.

Special study has been given to shape and strength.
The for-end is on the well known and highly appreciated Purdey system.
The locks are rebounding; their fore part is laid solidly into the breech-block, but the whole lock movement is placed behind, leaving greater strength than in actions with the mainspring laid into the sides of the breech fore part.
The way the locks are placed leaves so much more wood and consequently more strength to that part of the gun.
The stock is hollowed out where no wood or strength is required.
A 12 bore gun weighs only 5 lbs. 8 oz. to 5 lbs. 13 oz.
A 16 bore gun weighs only 5 lbs. 2 oz. to 5 lbs. 7 oz.

All the Francotte Featherweight Guns are Shot and Regulated.

The choke-bored barrel is regulated at 40 yards; the cylindrical 30 yards.
Although the shooting is for a little not so close than with barrels 30 inches long, the results are of the very best either with choked barrel or the other.
No. **9605**—Gun complete as per enumeration above. Net, **$85**
No. **9606**—Francotte's Hammerless Featherweight Gun, combining the many advantages as set forth above. These guns we can confidently recommend and guarantee in every detail. Price, **$95**

THE BREADMAKERS' YEAST.

So far reports show that bread made with this yeast has taken in the Province of Ontario alone 562 prizes. This being true, it can only be accounted for by its superiority.

Auguste Francotte's High Grade Guns. *(Continued.)*

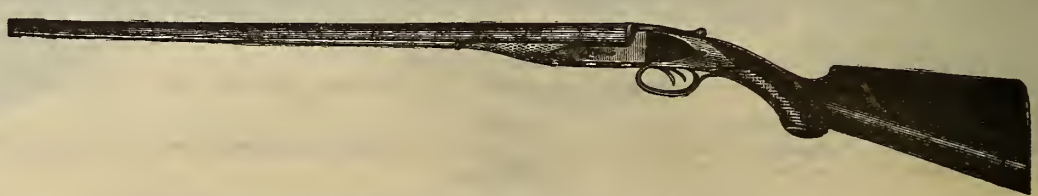
THE NIMROD.

Francotte's New Double Central Fire Breech-Loader.

This new machine made pattern stands foremost amongst the best sporting shot guns.
The treble bolt top snap is on Greener's treble wedge fast principle.
The fore end fastening is detachable and Purdey's device.
The rebounding solid bar locks have the 3 pin bridle and are of a quite novel construction, which ensures strength to the breech part without increasing the weight of the gun.
The steel body pin is screwed into the action and can be tightened up or replaced.
The barrels (the left barrel full choke) are 30″ long, rebored by an entirely new process ensuring the highest result fo accuracy, length of range and penetration.
Each barrel is very carefully viewed and worked on the most exact gauges.
They are brass soldered at the breech as far and including the fore end lump.
The ribs are tin soldered and beautifully matted by new patent machinery.
The stock is of the very best hard well seasoned walnut, with nice figure, either straight or pistol grip, bend and length assorte as required, without any additional expense.
The hammers are very strong, of graceful shape and below line of sight.
The butt is either of checkered horn, or if preferred, of very best steel, at the same price.
All parts are made of the very best sorts of steel or other material most suitable to the functions they have to fufil.
The whole weapon is most carefully finished and viewed, fit to put into the hands of the best sportsman.
All bear the well known maker's name, **A. Francotte,** as a guarantee of good quality. The weight is 7½ lbs. for 12 bore The weight is 6¾ lbs. for 16 bore.

The Nimrod Gun is made in two grades or qualities for 12, 14 and 16 bores.

No. **9700** Grade A—Best silver twist or best special steel barrels well finished, border engraving, matted rib. **$38**
No. **9710** Grade B—Very fine Oxford Damascus barrels, highly finished quality, matted rib, fine English engraving. **$50**
With border engraving. **$53**



Francotte's Hammerless Ejector Guns.

(Anson and Deeley's Lock Action.)

Patent ejector, hammerless. When opened after discharging it ejects the empty cartridges automatically. If one barrel only is fired, the discharged cartridge will be thrown out and the other will remain in the gun. Where game is plentiful and something quicker than an ordinary breech-loader is desirable, this arm will be found much more effective than a repeater or any other style of gun.
No. **5 E**—Finest Damascus twist barrels, doll's head extension with treble wedge fast action, automatic safety attachment, finely engraved, matted rib, full or modified choke bored, and handsomely finished throughout; 10 or 12 gauge, 30 or 32 in. barrels, **$125**
No. **4 E**—Similar style of finish to No. 5 E, with Greener's patent cross bolt treble wedge fast action; 10 or 12 gauge, 30 or 32 inch barrels, **$150**

No **275** P. R.—Laminated barrels, oiled walnut stock, checkered pistol grip, and patent fore-end, block strikers, steel rebounding locks, rubber butt plate, 10 and 12 gauge, left barrel choked. Price **$19 00.**

James' Complete English Breech Loaders.

No. 12—James' New "Triumph" Gun.

James introduces this season a new and improved model of this most popular Gun. It is designed specially to the requirements of Canadian Sportsmen, and in addition to the usual improvements formed on modern complete guns, has TREBLE GRIP from the TOP LEVER, and is well and tastily finished and elegantly engraved. The shooting of each Gun guaranteed. Furnished in 10 and 12 gauge. Weights, 7¾ to 10 lbs. Lengths 30 and 32 inch. Best English laminated steel barrels. Net price, **$40.**

No. 10—James' New "Trap" Gun.

This new model is made to suit Canadian sportsmen. It has well-bent stock, pistol grip, horn heel-plate, patent snap fore-end, solid head plungers, low hammers, through lumps, rebounding steel locks, and is fitted with TOP LEVER DOUBLE-BOLTED SNAP BREECH ACTION, with a TOP EXTENDED RIB. The barrels are English figured twist, and all are full choked—unless otherwise ordered—on W. W. Greener's world-renowned method. This gun is a first-rate performer and is handsome, handles well, and will shoot and wear to the satisfaction of any sportsman. It is furnished in 10 or 12 gauge, 30 or 32 in. barrels. Weights 7¾ to 10 lbs. Special price, **$35 00.**

No. 8—James' New "Complete" Gun.

Finest interwoven twist barrels, choke bored, extension rib, bar rebounding locks, patent fore-end, choice walnut stock, with pistol grip, fine blued mountings, neatly engraved. The large quantity we have sold of this gun is a sure test of its merits. We can guarantee satisfaction in every instance. In 10 and 12 gauge. Weight from 8 to 10 pounds. Barrels 30 to 32 inches. Special reduced price, **$26.**

English Breech-Loading Shot Guns.

The "James" Guns are the most popular make on the market. Guaranteed to shoot, and to the satisfaction of any sportsman.

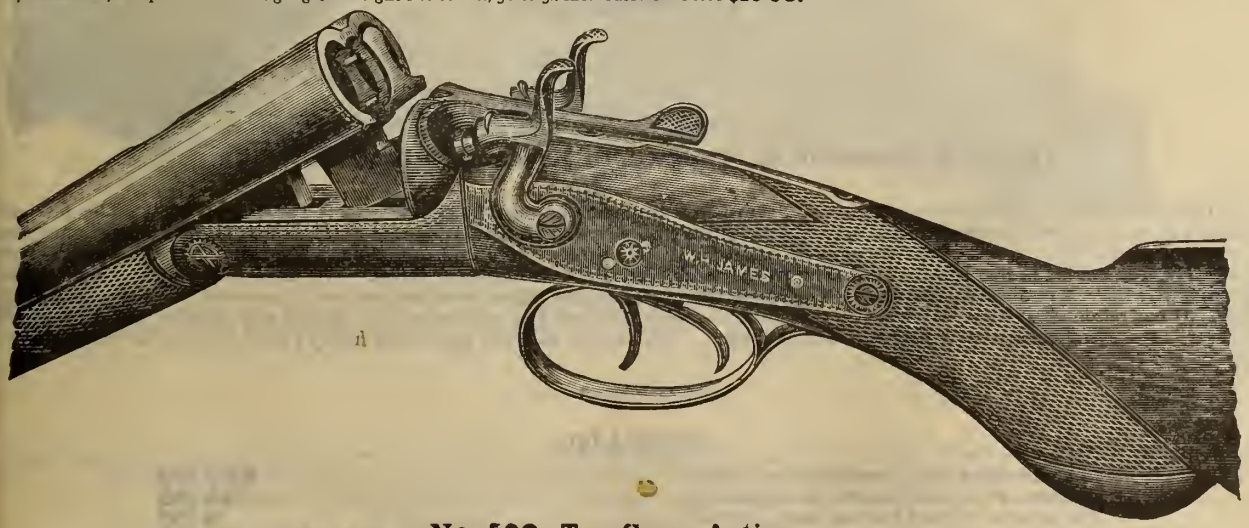
No. 300—Side Snap Action.

Double barrel breech-loader, back action locks, with genuine twist barrels, finely bored patent fore-end, English walnut stock, checkered border, engraving, 10 or 12 gauge. Weight 8 to 10 pounds, with 30 or 32 inch barrels. Special price, **$13 00.**

No. 320—Similar to No. 300, with pistol grip stock and rebounding case hardened locks and rubber butt plate, **$15 00.**

No. 420—Side Snap Action, with Bar Locks.

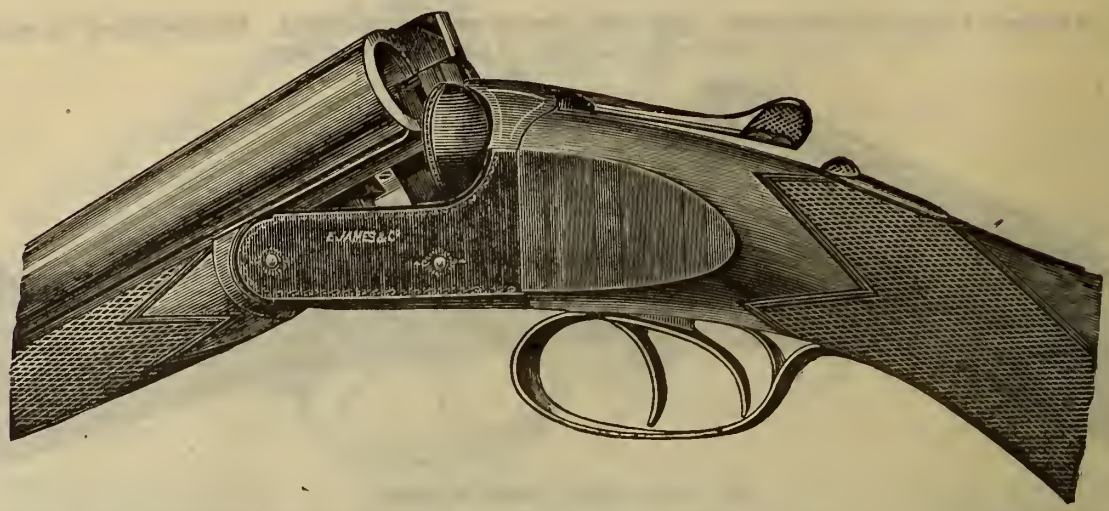
Genuine twist barrels, large head springless plungers, low hammers. Good strong serviceable gun, with patent fore-end and English walnut pistol grip stock, checkered, complete. 10 or 12 gauge. Weight 8 to 10 lbs., 30 or 32 inch barrels. Price **$16 50.**



No. 520—Top Snap Action.

Genuine twist barrels. The best gun on the market for the price. Excellent shooter and having rebounding locks, pistol grip, walnut stock, and patent fore-end, checkered and engraved. 12 or 10 gauge, 30 and 32 inch barrels, 7¾ to 10 lbs. weight. Price **$17 00.**

BREECH-LOADING DOUBLE GUNS.



No. **20**—James' "Hammerless" Gun.

Fine laminated steel barrels with Anson and Deely action, matted extension rib, top lever, double bolt, D. & E. patent fore-end, choke bored, nicely engraved, 10 and 12 gauge, 30 or 32 inch barrels, the best hammerless gun in the market for the price. **$48**

The New Forehand & Wadsworth Breech-loading Shot Gun.

The cut above is a correct representation of the arm. It is modeled after the popular "Scott Top Snap Gun." The few years that this gun has been before the trade and sporting community it has earned a reputation that places it beside the foremost guns made and sold in this country. It is a clean, strong, well made gun, with all the modern improvements. No metal but the best cast-steel and wrought iron is used in its manufacture. The frame is of beautiful case-hardened finish. We use nothing cheaper than the best Belgium Twist Barrels in our cheapest guns. The stocks are of Italian or Circassian walnut and well checkered, the butt plate being of rubber. It has rebounding locks, solid strikers, pistol grip, snap fore-end and extension rib. Every gun will be bored to suit the purchaser. No extra charge in boring for special target. The weight of these guns runs from 6½ to 8½ lbs. on the 12 ge., and 8 to 10 lbs. on the 10 ge.

Price List.

12 bore.	Fine twist barrels, no engraving	**$40 00**
10 bore.	Fine twist barrels, no engraving	**44 00**
	The same with good line engraving, extra	**4 00**
	Fine Damascus steel barrels, with extra work to correspond, will run from **$20 00** to	**60 00**

DOUBLE BARREL BREECH-LOADING SHOT GUNS.

No. **160 R. P.**—Ditto, with pistol grip stock and rebounding locks. Price, **$10.**

Two First and one Second Prize--Mrs. Robert Gibb, Jr., Sarnia, writes: "I took West Lambton Agricultural Society's First Prize, also Moore Township Fair First Prize at Courtright on bread made with the Breadmakers' Yeast. I also took Second Prize at Petrolia Fall Show with bread made with your Yeast. Dec. 1st, 1888."

American Hammerless Guns.

Colts' Hammerless Double Barrel Shot Guns.

This gun, brought out in 1883, and of which the cut gives an accurate representation, is made of the best materials and workmanship, and is in all respects equal to the most costly and best English sporting guns. Every effort has been used in its construction to ensure close and powerful shooting, and the targets are the best possible in pattern and penetration. The parts are simple, strong, and few in number.

The locks can be oiled by taking out the screw of the lock and cover plate, and removing the plate, and using a piece of wood or other suitable instrument.

The safety device is positive, not actuated by springs, and cannot fail to act in every case. When the word "safe" engraved on the breech action is exposed, the gun cannot be fired, and when it is covered by pushing forward the slide, either or both barrels can be fired.

Damascus barrels, English walnut stock, 10 or 12 gauge.....price **$80 00**
Finest Damascus barrels, finest English walnut stock, handsomely engraved, 10 or 12 gauge ..... " **125 00**

Extra charge of $15 will be made for all deviations from above length of barrels or weights of guns. Extra charge of $7.50 will be made for all deviations from above dimensions of stocks.

The Harrington & Richardson New Hammerless Gun.

The Anson & Deeley action, which Messrs. Harrington & Richardson use in their new hammerless breech-loading gun, is acknowledged in Europe and America to be by far the best action in use.

The rapidity with which it can be discharged, and the much greater safety, both to the person handling the gun and his companions, assure its very speedy general use. The guns are made, as are all first-class American breech-loaders, on the interchangeable plan, and the quality of material, beauty of finish, perfect fittings, and strength and regularity of shooting is unexcelled by the best London makers with guns double the price.

No. **1**—Top lever, double bolt, extension rib, Anson & Deeley's patent action, laminated barrels, fine English stock with full checker and Deeley & Edges' patent fore-end; line engraving.....price **$100 00**

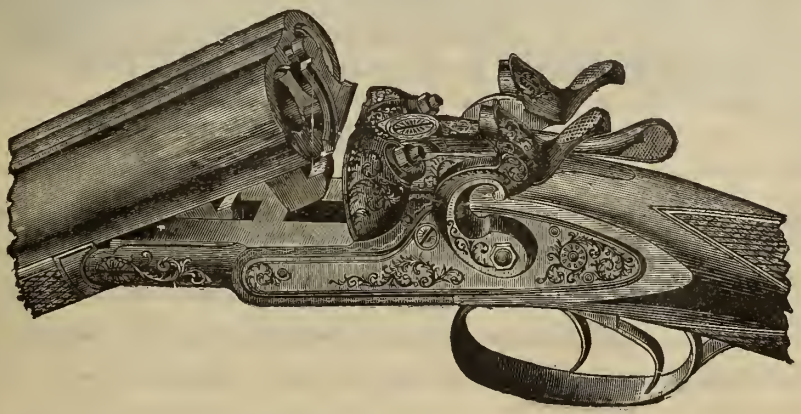
Top snap action, elevated extension rib, rebounding locks, solid head plungers.

No. 1—Twist barrel, American walnut stock, engraved and checkered, pistol grip, 12 gauge.....Price $50
2—Fine laminated steel barrels, fine figured American walnut stock, engraved and checkered pistol grip, 12 gauge..... " 65
Ten gauge extra, **$10.**



Colt's Double-Barrel Breech-Loading Sporting Guns.

These guns are made of the best materials, with the best workmanship, on the interchangeable plan. The locks are rebounding. The act of opening the breech withdraws the firing-pins by a positive motion, without springs, preventing the possibility of premature explosion in closing the breech.

The barrels are made and imported especially for this Company, and will be furnished of all qualities. They are brazed and soldered by machinery owned by and peculiar to this Company, ensuring perfect and indestructible work. No other guns possess this advantage. The stocks are of English or Circassian walnut, of any desired style. Any grade of ornamentation of the metal work will be furnished. When guns are made to order, patterns will be furnished with them if desired, and all guns are warranted to make the pattern furnished with them.

All goods will be exactly as catalogued.

Forehand & Wadsworth Single Guns.

We recommend them as the best single gun in the market, and are agents for Canada.

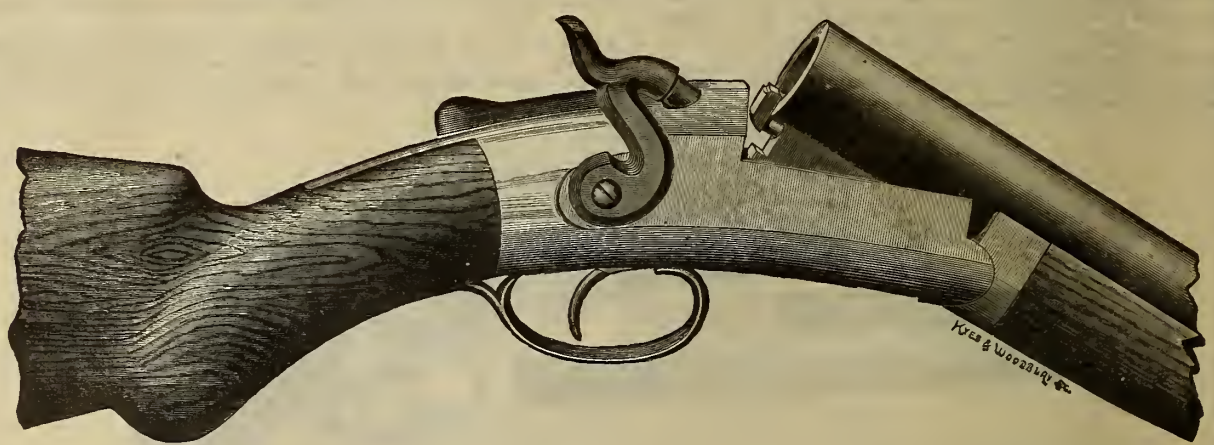
No. **750**—**Forehand & Wadsworth's New Hammerless Single Gun.**

In offering this gun to the trade and sporting fraternity, we feel assured that we shall meet a long felt want for a good, substantial, well made gun. Other hammerless single guns have been put upon the market, but they have failed to meet the demand for various reasons.

What we claim for this gun is its simplicity and safety, besides all of the parts are interchangeable. This gun is automatic in its action, with an absolute safety catch to lock the trigger to prevent accidental discharge.

It is top snap action, as the cut above shows, with all the modern improvements that you will find in a double gun. We put twist barrels to them all, with heavy rubber butt plate, and stock well checkered. Every gun is choked to give it good shooting qualities, and the workmanship throughout is equal to the high grade double guns. The weight of the gun is about 7 pounds.

Prices: 12 bore, twist, 30 to 36 in., **$13;** Damascus barrel, 30 and 32 in., **$5** extra.



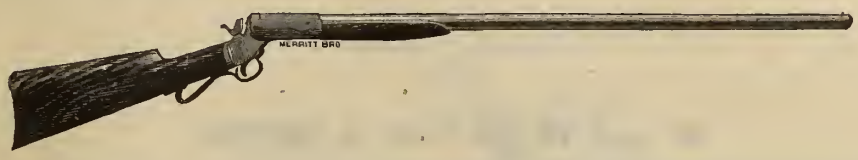
No. **775**—**Single-barrel, Breech-loading Shot Gun, 10 and 12 Bore.**

This gun is too well known to need much said about it. It is acknowledged by all, and justly so, to be the best single breech loader in the country. Several have attempted to imitate it, but they make miserable failures. Nothing but the best material is used and are of the best workmanship. This gun possesses all of the modern improvements that a double gun does. It has rebounding locks, pistol grip, snap fore-end, top snap action, and solid block strikers. The 12 bore is a 7 to 7½ pound gun; the 10 bore is well adapted to duck and glass ball shooting, and will weigh from 8¾ to 9¾ pounds. All of these guns are slightly choke bored to give them good shooting qualities, but when special choking is required we shall make an extra charge.

Prices: 12 bore, plain steel barrel, **$11;** 12 bore, twist barrel, **$13;** 10 bore, plain steel barrel, **$13;** 10 bore, twist barrel, **$15**

Do you read "Forest and Farm." It is the best farmers' $1.00 weekly published in Canada—contains a summary of the world's news in live, readable shape, and current market prices of general merchandise. Free sample copy sent upon application.

Single Barrel Breech-Loading Shot Guns.



Stevens' New Style Single Barrel Breech-Loading Shot Gun.

10, 12, 14, 16 and 20 gauge, 30 or 32 inch barrel, pistol grip guard bow, oiled stock and fore end browned mountings. The best shooting gun in the market.

	Browned Frame.	*Nickel.*
Plain barrels, 12, 14 and 16 gauge, weight 6 to 7 lbs	**$12 50**	**$14 50**
Plain barrels, 10 or 20 gauge, weight 7 lbs	**13 50**	**15 50**
Twist barrels, 12 and 14 gauge, weight 6½ to 7 lbs	**15 50**	**17 50**
Laminated steel barrels, 12 and 14 gauge weight 6½ to 7 lbs	**17 00**	**19 00**
Extra finish on any of the above		**2 50**

Combined Central Fire Rifle and Shot Guns.

Rifle barrels, 24 or 26 inch, 22 to 44 calibre, to fit any of the above guns, extra	**$11 00**
28 or 30 inch barrels	**12 00**
Sighted same as No. 1 or No. 2 and No. 3 or 4 Rifles.	
Set of reloading tools for rifle barrel, extra	**3 00**

We can fit a rifle barrel to a shot gun frame, but cannot fit a shot barrel larger than 20 gauge to a rifle frame, and in order to do his it must be a centre fire frame.

X L POCKET SHOT GUN. A UNIQUE INVENTION.

This X L Shot Gun is an entirely new arm, made to meet an existing demand for a cheap, light, perfectly safe and good shooting un, that can be taken apart instantly without the aid of any tool, and put into a very small compass. It is unique in its design and is nade to shoot long central fire shot cartridges, 38 and 44 calibres, and may also be used with ball cartridges with effect, up to 100 yards.

This action is similar to the Sharps, which is one of the strongest invented. It is manipulated by throwing down a lever on the nder side of the arm, same as in the Winchester single shot and Ballard Rifles. The lock is rebounding. The extractor is automatic nd throws the shell out clear of the gun. The action consists of few parts and is not likely to get out of order. It is a most simple nd solid device and capable of standing any charge of powder or shot. The stock is of American walnut with pistol grip.

No. **501**—38 calibre, 18 inch barrel, weight 4 lbs., 6 oz	**$ 9 50**
504—44 calibre, 24 inch barrel, weight 5 lbs. 4 oz	**10 50**
509—20 gauge, using paper or brass shot shells, 30 inch barrel, weight 5½ lbs.	**12 50**
525—12 gauge, 30 inch barrel, weight 6 lbs	**12 50**

"ZULU."

"Zulu" Snider action, cut down musket, breech loader, strong and durable, blued barrels, positive extractor, 12 gauge, **$3 25**

The Winchester Repeating Shot Guns.

10 and 12 GAUGE, 6 SHOTS.

Sportsmen will find this a strong, serviceable arm. The system contains but sixteen parts in all, and can be readily understood from the sectional cuts.

The breech block and finger lever form one piece, and move together in opening and closing. The hammer, placed in the breech block, is automatically cocked during the closing motion; but can also be cocked or set at half-cock by hand.

The trigger and finger lever are so adjusted that the trigger cannot be pulled prematurely, and the gun cannot be discharged until closed.

The barrel can be examined and cleaned from the breech.

The magazine and carrier hold five cartridges, which, with one in the chamber, make six at the command of the shooter. Any-one accustomed to shooting can readily shoot double birds with this gun.

To fill the magazine, throw down the lever and push four cartridges through the carrier into the magazine, placing the fifth in the carrier. The forward and backward motion of the finger lever, which can be executed while the gun is at the shoulder, throws out the empty shell, raises a new cartridge from the magazine, and puts it into the barrel. The gun is then ready to be fired.

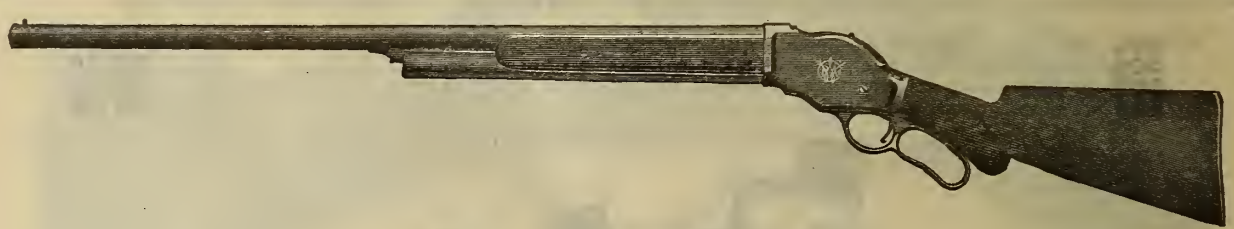
This gun has as yet been very little used in public. On the occasion of its first appearance, the gun divided with one other gun the first prize for fifty birds, February 22nd, 1887, at Plainfield, N. J.

The standard gun will be made up with rolled steel barrel, case-hardened frame, and pistol grip stock of plain wood, not checked. All guns will be full choked, and no gun will be sent out which will not make a good target.

The standard length of barrel will be 30 or 32 inches, as may be desired. But unless otherwise ordered, 12 gauge guns with 30 inch barrel and 10 gauge with 32 inch barrel will in all cases be sent.

Two kinds of Damascus barrels will be furnished when desired, at prices given below.

The standard gun will have a stock 12¾ inches in length and 2⅝ inches drop; and any variation from standard length or drop will be charged for extra.



PRICE LIST.

Winchester repeating shot gun, rolled steel barrel, with plain pistol grip stock, 30 or 32 in. barrel, 10 or 12 gauge	$25 00
Fancy walnut stock and fore-arm, not checked	10 00

Price each, **$18**

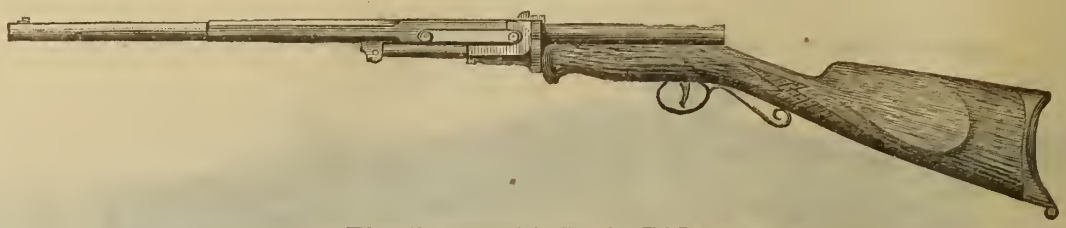
Two First, and One Second Prize.—Mrs. Robert Gibb, Jr., Sarnia, writes: "I took West Lambton Agricultural Society's First Prize, also Moore Township Fair First Prize at Courtright, on bread made with the Breadmakers' Yeast. I also took Second Prize at Petrolia Fall Show with bread made with your Yeast. Dec. 1st, 1888."

Another Happy Young Woman Writes: "666 Maria Street, Ottawa, Dec. 1st. I was visiting a sister lately in Western Ontario, and was delighted with her beautiful bread. As she said she used Breadmakers' Yeast, I determined to try it. On my return I did so, and my bread is declared by all to be delicious.—Miss S. Townsend."

BREECH-LOADING AIR RIFLES.

They are just the thing to make the neighbor's cat "scratch gravel," and dog fly for home, and for killing English sparrows, cherry birds, rats, gophers, etc., it has no equal. One hundred shots for one cent—cheaper than you can pick up stones. Guaranteed to quiet a midnight "Thomas Cat Serenade" quicker and more effectually than any other known method, and the economy in boot jacks, slippers, etc., will soon pay the trifling cost of the gun.



The "Columbia" Air Rifle.

An elegant and effective target rifle with the darts or slugs, and will kill birds at 20 to 30 yards. Weight, 5¾ lbs.; total length, 42 inches; nickel-plated mountings, 6 darts, 200 slugs, and nickel-plated extractor for withdrawing from the targets; calibre, 21-100. Price, **$10** each.

H. M. Quackenbush's Improved Air Gun.

Shoots 21-100 darts and slugs. Full length, 36 inches; weight, with appurtenances, 4½ pounds. This gun shoots with sufficient force at 35 feet to drive the point of a dart through ⅜ inch pine, and is quite accurate at that distance. It can be easily taken apart for the convenience of carrying in your trunk or valise, and is not a heavy gun to carry or handle. Each gun is neatly boxed, with 6 patent darts, 6 paper targets, 100 slugs, together with a combined claw and wrench. Prices: Full nickel-plate, **$8 50;** browned frame and nickel-plated barrel, **$8.**

The Quackenbush New Model Air Rifle.

Similar in construction and same in operation as the "Improved Air Rifle," except the barrel is heavier and held in the frame by a spring guard, the drawing back of which will allow the barrel, piston and spring to be instantly withdrawn, when necessary, for boxing, cleaning, and giving access to each part. Each rifle neatly boxed, with 6 patent darts, 6 paper targets, 100 slugs, together with a claw. Reduced price, **$10.**

The "Peerless" Air Pistol.

Nearly the same power as the Air Rifle. Weight, 26 ounces; total length, 15 inches; nickel-plated mountings; complete, with 6 darts, 200 slugs, and extractor; calibre, 21-100. Price, **$5.**

Eureka Air Pistol.

Loads by pushing rod under barrel. Is easily loaded, shoots with much force, and is durable. Thousands have been sold. Perfectly accurate. Shoots darts and slugs. Put up with outfit complete, including skeleton stock. Prices: Japanned, **$5;** in full nickel plate, **$6;** postage, if by mail, **70c.;** darts for air rifles, per dozen, **60c.;** slugs for air rifles, per box of 100, **20c.;** postage, if by mail, **11c.**

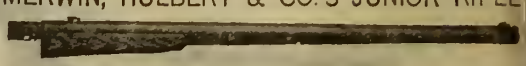
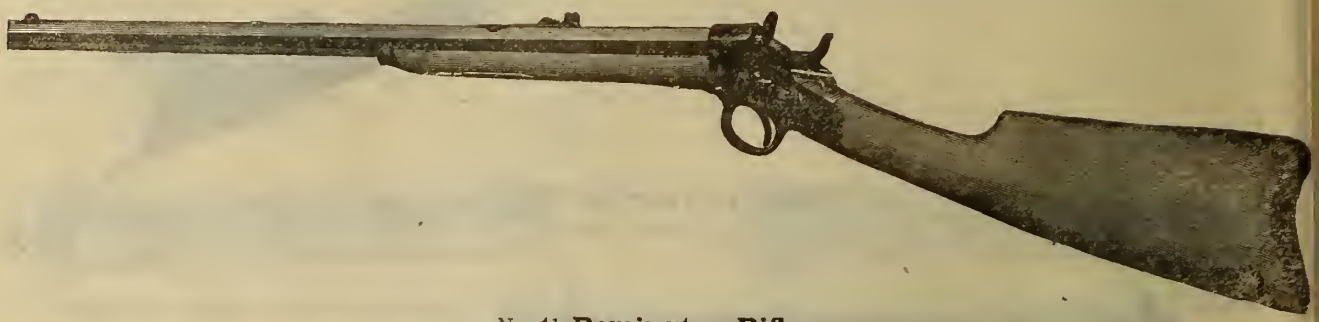
MERWIN, HULBERT & CO.'S JUNIOR RIFLE



No. **480—M., H. & Co., Junior Rifle.**

Perfectly safe, good, strong shooting rifle, that can be taken apart without tool, and put into a very small compass. 26 inch octagon barrel, 6½ lbs. weight, with case hardened mountings, open sights, finely rifled, warranted accurate, 22 and 32 calibre. Net, **$11**



No. **1½ Remington Rifles.**

No. 1½ rifle, sporting stock, open sights, octagon barrel, 7 to 7½ lbs., 22 and 32 calibre, rim fire. 22 calibre, 24 inch barrel, **$11;** 32 calibre, 26 inch barrel, **$11**

No. **3 Remington.**

The New Model No. 3 Remington Rifle is specially designed for long range target and hunting purposes, requiring the use of heavy charges. It has a solid breech block, with direct rear support, side lever action and rebounding hammer, so that the arm always stands with the trigger in the safety notch, rendering premature discharge impossible. It is made with half octagon or full octagon barrel, case-hardened mountings, and fine selected pistol grip walnut stock, which heretofore has only been furnished with higher-priced rifles, and chambered for the new styles of straight shells.

No. **3** Rifle. Open sights, half octagon or full octagon barrel, pistol grip stock, side lever, rebounding hammer, 8½ to 10 lbs., 32, 38, 40, 44 and 45 calibre, central fire.

26 inch, **$18;** 28 inch, **$19;** 30 inch, **$20;** 32 inch, **$21.**

Extra for breech front and tang rear graduated sights	**$4 50**
Extra for weights over 10 pounds, each pound	**1 00**
Extra for each two inches additional length of barrel	**1 00**

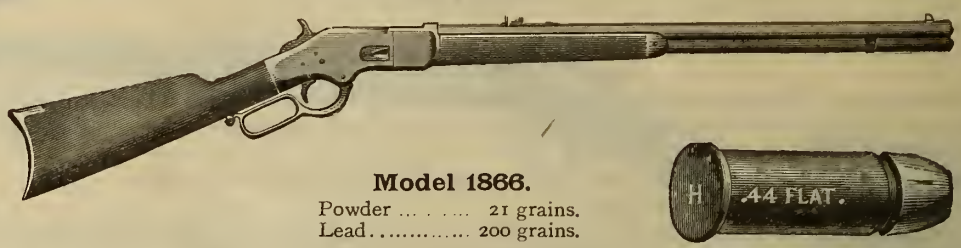
When you buy from a firm that sells for cash only, you do not have to pay the losses occasioned by a "Credit System." This is one of the secrets why we are able to sell at lower prices than any other House in Canada.

Winchester Repeating Rifles.

These weapons are well known to every sportsman; their popularity and enormous sale is a guarantee of their merit. We offer them at prices far lower than they were ever sold before.

The system and operation of the Winchester is easily understood. It is operated by simply throwing down the guard, whic extracts the old shell from the chamber, throwing it off at the top, cocks the hammer, and places a new cartridge in the firing chambe The motion may be executed while the gun is at the shoulder without taking the eye from the sights. thus enabling the firer to discharg two or more shots without removing the gun from the shoulder or losing sight of the object it is desired to hit.



Model 1866.
Powder ..... 21 grains.
Lead..... 200 grains.

The Winchester Rifle, Model 1866, remains in the mechanism for loading and firing, precisely the same as the Henry; the in provements in this model consist in an entire change in the magazine and the arrangement for filling it. By these changes the gun made stronger, yet lighter; the magazine is closed and strongly protected; it is more simple in operation, requiring fewer motions i the one case, and fewer pieces in the other, than did the Henry.

This gun uses a rim-fire metallic cartridge 44-100 calibre, with 28 grains of powder and 200 grains of lead. The receiver, or locl frame, is of gun metal; the other parts, except the stock, of steel and wrought iron of the best quality, no malleable iron being used.

Sporting Rifle, Round Barrel, Plain Trigger.

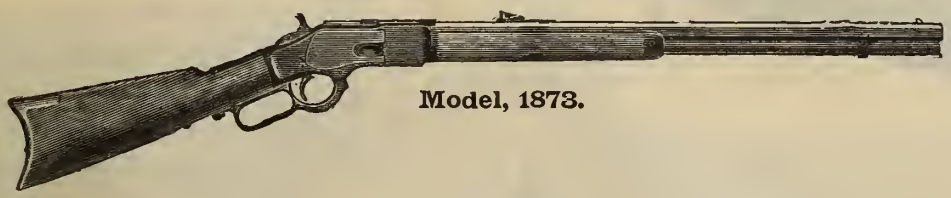
WINCHESTER REPEATING RIFLES *(Continued).*

At Reduced Prices. Originator of Popular Prices.



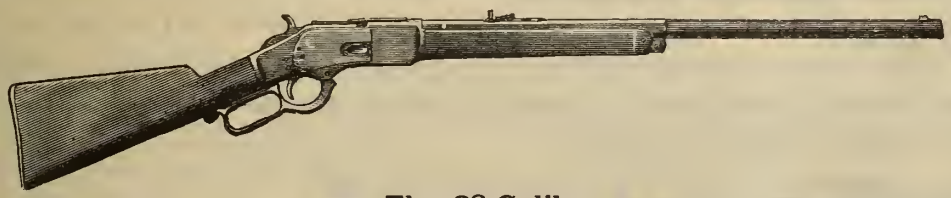
Model, 1873.

The .44 Calibre.

Octagon Barrel.

Full Magazine.

This arm uses a cartridge containing 40 grains of powder and 200 of lead. Being the first of this model put on the market, it is very widely known, and its success as an all-round gun is proved by the sale of more than 200,000. This form of Winchester is adapted to a centre-fire cartridge. The receiver is made of steel instead of brass, as in the model of 1866, and is provided with a slide covering the carrier block mortise. The firing pin is automatically withdrawn in opening the gun, and the trigger locked until the gun is closed. To suit the demands of sportsmen, 4 calibres are offered : .44, .38, .32 and .22.



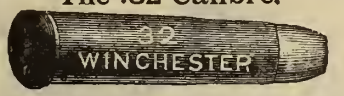
The .38 Calibre.

Short Magazine. Number of Shots, 6.

Price, same as Full Magazine.

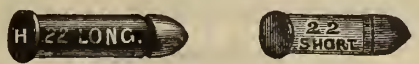
The .38 calibre is slightly lighter than the .44, but with the exception of weight and calibre, is made in all respects exactly like it. The cartridge contains 40 grains of powder and 180 of lead, and is in form like the cut. This gun gives accurate shooting up to 300 yards, and is a convenient rifle for deer and small game. The standard length of barrel is 24 inches. This length will, in all cases, be sent, unless otherwise ordered.

The .32 Calibre.



The .32 calibre is a modification of the .38, using the same receiver, but with magazine of smaller diameter. It is designed for small game at short range, and will be found the most accurate small-bore rifle in the market. It is especially valuable for hunting squirrels, geese, etc. Standard length of barrel is 24 inches. Prices and extras same as Model 1873. The cartridge contains 20 grains of powder and 115 grains of lead.

The .22 Calibre.



The excellence of the .22 calibre short and long cartridges for target and hunting purposes has become so well known, the company are led to offer a Winchester repeating rifle using them. It is made from and has the same outline as the Model of 1873. This rifle can be furnished only with 24 and 26 inch barrels and full magazine.

Price List

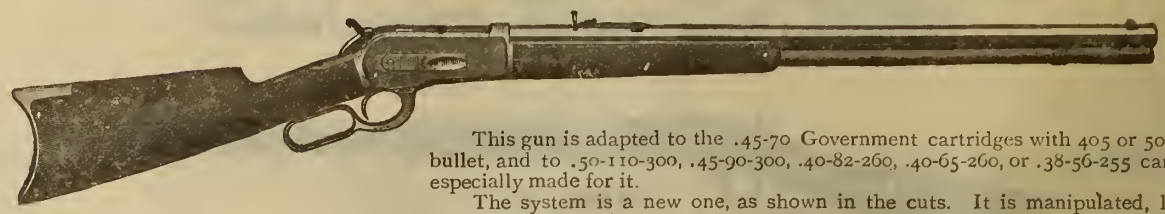
Weight	8¾ lbs.	8¾ lbs.	9 lbs.	7¼ lbs.

THE NEW WINCHESTER REPEATER, MODEL 1886. (*Continued.*)



This gun is adapted to the .45-70 Government cartridges with 405 or 500 gra bullet, and to .50-110-300, .45-90-300, .40-82-260, .40-65-260, or .38-56-255 cartridg especially made for it.

The system is a new one, as shown in the cuts. It is manipulated, like th Winchester, by a finger lever. This part has a short movement, enabling easy ar rapid firing of the gun from the shoulder. The gun is locked by two bolts, having a motion like the old Sharp's breech-block, whic show on the top of the gun when it is closed. In this position the locking-bolts lie one on each side of the breech-bolt, each fittir into its slot in the frame on the one side, and into a similar slot in the breech-bolt on the other. A glance at the gun will convince ar one that this is a most simple and solid locking device.

The first opening motion of the lever withdraws and locks back the firing-pin until the gun is again ready for firing. A hoc attached to the finger lever draws the cartridges out of the magazine into the carrier block. This enables the use of a weak magazir spring, which permits the magazine to be easily filled. The cartridge is forced from the carrier into the chamber by the forward mov ment of the breech-bolt. The arrangement of the breech-bolt, finger lever and locking bolts gives power to put in and take out cartridge, and to withstand any charge.

The magazine is filled while the gun is closed, through a spring cover at the side, and is provided with a stop which permits th use of cartridges having the same shell of varying lengths less than the standard. Thus a gun chambered for the .45-70 cartridge w carry that cartridge with either the 405 or 500 grain bullet. Guns, however, chambered for the .45-90 or .40-82 cartridges will can those cartridges only, and no others.

Price List of Winchester Repeating Rifle, Model 1886.

Octagon barrel, 26 inches long or under, weight about 9½ lbs	**$21 00**
Half octagon barrel, 26 inches long or under, weight about 9¼ lbs	**21 00**
Round barrel, 26 inches long or under, weight about 9 lbs	**19 50**

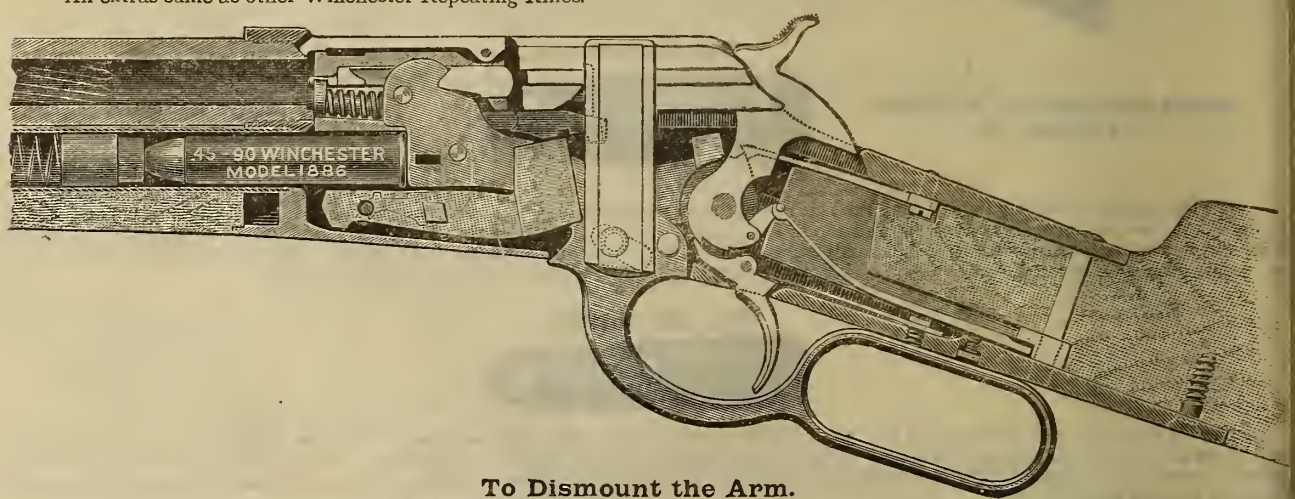
The standard length of barrel will be 26 inches. Guns taking the .45-70 cartridge will have the Sporting Leaf Sight, and a others the Sporting Rear Sight.

A rifle with 26 inch barrel and full magazine will carry nine .45-70-405, .40-65 or .38-56 cartridges, or eight of the other fo cartridges.

Half-magazine rifles will carry three cartridges in the magazine and one in the barrel

Guns with set triggers can be furnished if so ordered.

All extras same as other Winchester Repeating Rifles.



To Dismount the Arm.

Remove the stock. Unscrew strain screw. Drive out the main spring from left to right. Remove the carrier spring. Tal out the hammer screw and tang with sear attached. Draw out hammer. Remove the spring cover. Drive out the finger lever pin ar bushing. Draw the locking-bolts out from below. Pull back the breech-bolt until the lever connecting pin shows at the rear of the r ceiver. Drive out the pin. Draw out finger lever and carrier attached by the carrier hook. Remove the cartridge guide and mag zine stop.

To Assemble.

Put in the magazine stop and cartridge guide. Connect carrier and finger lever with the carrier hook, and put them into th receiver from below. Enter the breech-bolt at the rear, and press the upper end of the finger-lever into its place in the breech-bolt. Pus in the lever connecting pin. To do this it will be necessary to press back the ejector until the notch in the ejector corresponds with th pin. Push the bolt forward into the gun. Push up the locking-bolts from below. See that the cartridge guide enters its notch in th right hand locking-bolt. Replace finger lever pin and bushing. Replace the spring cover. Lay the hammer in place, and push in th tang, drawing back the trigger, so that its point may not catch on the hammer. Push in the hammer screw. Replace the carrie spring. Replace the main-spring and stock.

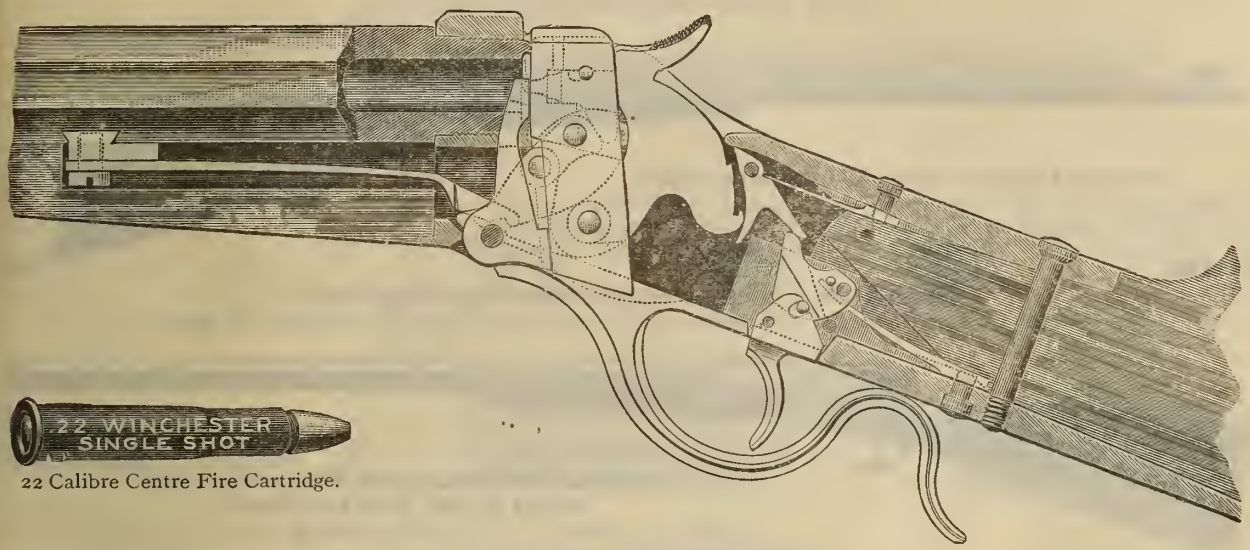
Penetration of Winchester Cartridges.

Fired in Winchester Repeating Guns, targets made of ⅞ inch clear, dry pine boards, set up 1 inch apart; target 15 feet fror the muzzle of the gun: 32 W. C. F., 6½ boards; 38 W. C. F., 7½ boards; 44 W. C. F., 9 boards; 40-60 W. C. F., 9½ boards; 40-8 W. C. F., 11 boards; 45-60 W. C. F., 11½ boards; 45-90 W. C. F., 12 boards; 45-75 W. C. F., 12½ boards; 45-70-405, 16 boards 45-70-500, 18 boards.

Testing Guns for Accuracy.

In testing guns for accuracy, sit down when firing, resting the muzzle on some solid object, and, if possible, securing a solid res for the arms and body. In this way extreme accuracy can be obtained—sufficient for the testing of the gun. Do not in any cas attempt to get accuracy by screwing the gun in a vise. No reliable results can be had in this way.

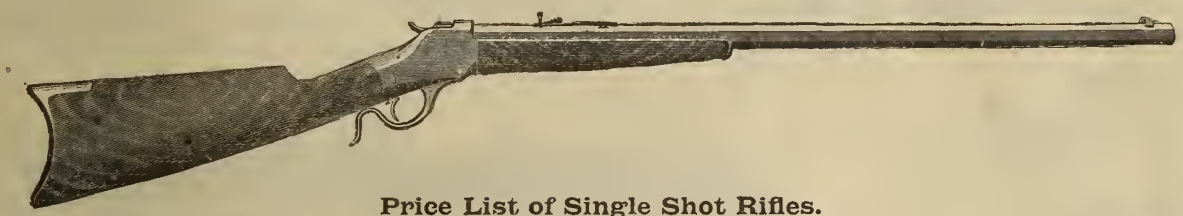
WINCHESTER SINGLE SHOT RIFLE.



22 Calibre Centre Fire Cartridge.

Winchester Single Shot Rifle.

This gun has the old Sharp's breech-block and lever, and is as safe and solid as that arm. The firing pin is automatically withdrawn at the first opening movement of the gun, and held back until the gun is closed. The hammer is centrally hung, but drops down with the breech-block when the gun is opened, and is cocked by the closing movement. It can also be cocked by hand. This arrangement allows the barrel to be wiped and examined from the breech. In outline everything has been done to make the gun pleasing to the eye. It can be furnished with or without set trigger, with barrels of all ordinary lengths and weights, and for all standard cartridges; also with rifle and shot gun butt, plain or fancy wood, or with pistol grip. All 22 calibre Rim Fire Rifles are fitted with a kicking extractor which throws the shell clear of the gun.



Price List of Single Shot Rifles.

Octagon or half octagon barrel	**$15 00**
Round barrel	**14 50**
Musket	**16 00**

These guns will be made for the following sizes of rim-fire cartridges: 22 short, 22 long, 22 extra long, 32 short, 32 long.

The standard length of barrel of the .22 calibre rim-fire rifle will be 24 inches, and of the 32 calibre, 26 inches; and these lengths in No. 1 barrel will be sent unless otherwise ordered. For the above cartridges no barrels will be made heavier than the No. 2.

They will also be made for the following sizes of centre-fire cartridges: 22 W. C. F., 32 W. C. F., 32-40, 38 W. C. F., 38-55, 38-56 W. C. F., 38 Express, 40-70 Straight, 40-70 Ballard, 40-90 Ballard, 40-90 Sharp's, 40 Express, 40-60 W. C. F., 40-82 W. C. F., 44 W. C. F., 45-60, 45-75 W. C. F., 45-90 W. C. F., 45 Sharp's, 45 Express, 50-95 Express, 50-110 Express.

Guns taking the .22, .32, .38 and .44 W. C. F. cartridges will only be made in the three smallest sizes of barrels, 1, 2 and 3. The standard length of the .22 W. C. F. will be 26 inches, and of the .32, .38 and .44 W. C. F. 28 inches. These lengths and the No. 1 barrel will be sent on all orders unless otherwise specified. For the other sizes of centre-fire cartridges mentioned above, guns may be had with any size of barrel except the No. 1. The standard length will be 30 in., and this length with No. 3 barrel will be sent on orders. To accommodate all tastes as to weights of single shot rifles, five sizes of barrels will be made, numbering from 1 to 5 and varying in weight.

No. 1 barrel is the smallest, and will be adapted to the .22 and .32 rim-fire cartridges, and the .22, .32, .38 and .44 W. C. F. cartridges. Guns with this size of barrel will weigh from 7 to 8 lbs., varying according to calibre and length.

No. 2 barrel is intended for the same cartridges as the No. 1 when a heavier gun is desired, and guns with this size of barrel will weigh about 8½ lbs., varying according to calibre and length. If very light guns are desired for the larger sizes of centre-fire cartridges, this barrel can be furnished for them.

No. 3 barrel is intended for large sizes of military and sporting centre-fire cartridges, and guns with this size of barrel will weigh from 8½ to 10 lbs., according to calibre and length. A .32 calibre with 30 inch No. 3 barrel will weigh about 9¾ lbs.; a .38 calibre about 9½ lbs., and a .40 calibre about 9 lbs., and a .45 calibre about 8¾ lbs.

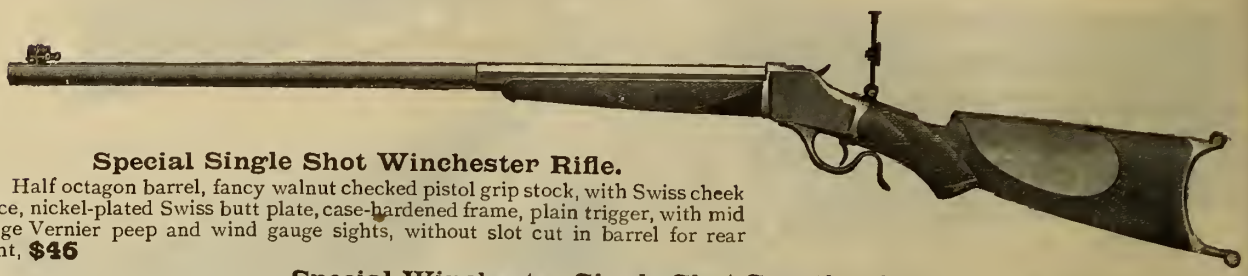
No. 4 barrel is made to accommodate those wanting a heavier gun, and will weigh from 10½ to 11 lbs. For this weight an additional charge of $2 will be made over the regular price.

No. 5 barrel is the heaviest which can be made, and will weigh about 12 lbs. For this weight an additional charge of $10 will be made over the regular price.

For extra lengths over those given above, $1 for every 2 inches. No barrels can be made over 36 inches in length. Set triggers, additional, $2; jointed rod in butt stock, 50 cents.

When special barrel without slot for rear sight is wanted, an additional charge of $2 will be made, and no allowance for rear sight. The same charge will be made for changing the position of rear sight.

WINCHESTER RIFLES.



Special Single Shot Winchester Rifle.

Half octagon barrel, fancy walnut checked pistol grip stock, with Swiss cheek piece, nickel-plated Swiss butt plate, case-hardened frame, plain trigger, with mid range Vernier peep and wind gauge sights, without slot cut in barrel for rear sight, **$16**

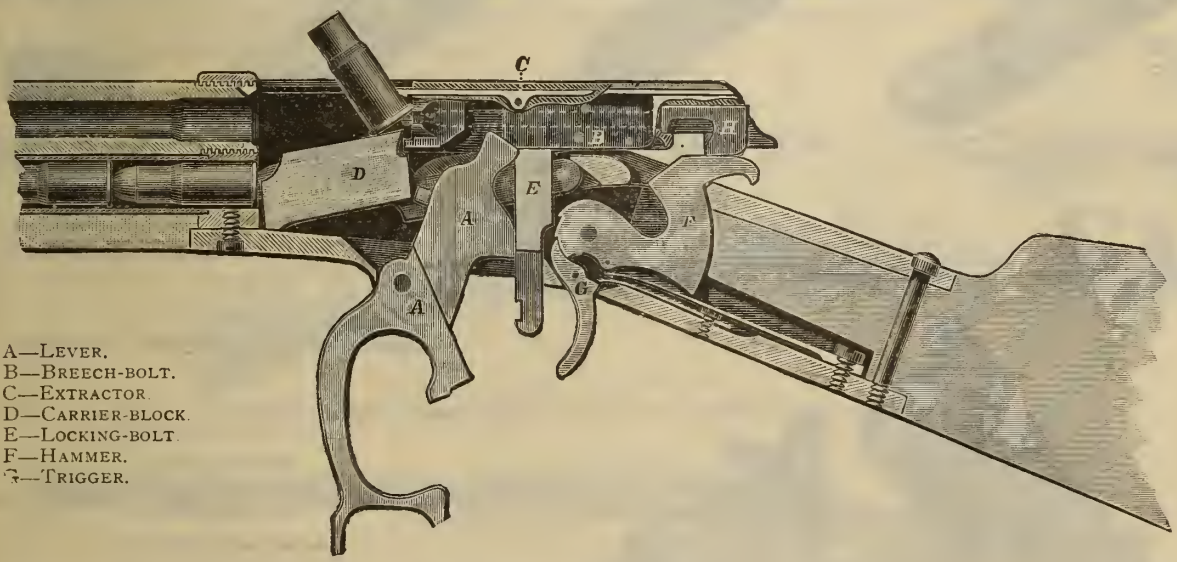
Using the popular .32, .38 or .44 W. C. F. cartridges.

A few Desirable Features of a Repeating Rifle which are embodied in the Marlin Model, 1888.

Light-weight combined with a very strong action. A lock mechanism consisting of few pieces, which are not liable to get out of order. The steel breech-bolt comes up solidly against the end of the barrel, and is locked in its place by a square locking-bolt of tempered steel, which slides up and down in grooves, and is backed by the solid part of the frame. The lever operates directly on the locking-bolt, which in turn draws back the firing pin, holding it until the cartridge is in the barrel, and the bolt is again firmly locked in its place, thereby making a premature discharge of a cartridge impossible. In operating the action, the cartridges in the magazine slide back with the opening of the bolt, which avoids the danger of explosion from the sudden jumping of the whole column of cartridges in the tube. It can be operated and used as a single shot rifle, leaving the cartridges in the magazine as a reserve, by pressing in a very little on the loading cover and holding it there, which prevents the admission of the cartridges from the magazine to the carrier, the extractor working as usual, throwing out the empty shell, thus leaving the arm unloaded if desired.



A—Lever.
B—Breech-bolt.
C—Extractor.
D—Carrier-block.
E—Locking-bolt.
F—Hammer.
G—Trigger.

To Dismount the Arm.

Take out the tang screw and remove the stock, then swing the main spring to one side, thus taking all pressure off the hammer screw; then take out the hammer screw and hammer. Next take out the lever screw and lever; the breech-bolt can then be slid out. Then take out the screw in the front end of the trigger-plate; this will allow the trigger-plate and locking-bolt to be removed.

To Assemble the Arm.

Put in the carrier-block, slide in the locking-bolt, put on the trigger-plate, and replace the screw in the front end. Replace the hammer, slide in the breech-bolt about half way, and then put in the lever. The main-spring can then be swung into position without trouble and the stock replaced.

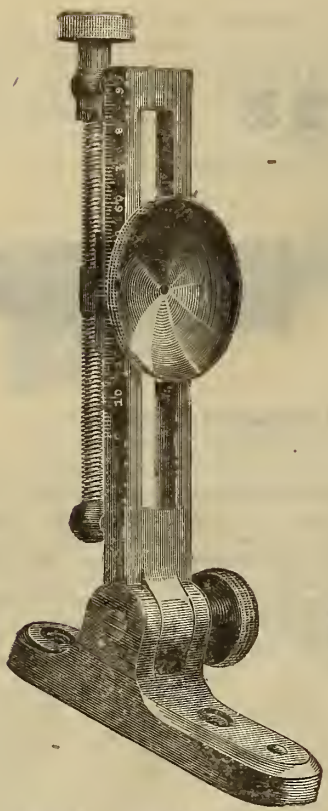
SIGHTS.

Specially adapted to Marlin and Ballard Rifles.

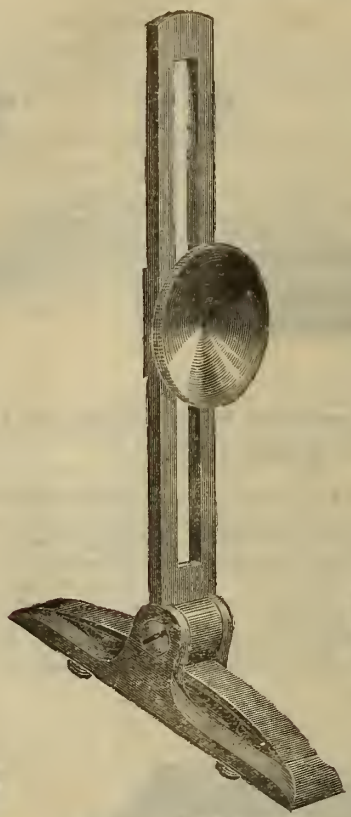
Rocky Mountain Rear Sight (Buckhorn).
Price, $1.

Rocky Mountain Front Sight (Knife Edge).
Price, 50c.

Beach Combination Fron Sight.
Price, $1.

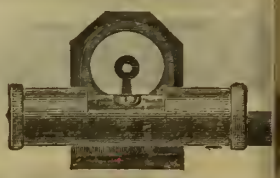


Marlin's Improved Vernier Mid-range Peep Sight.
Price, $4.



Gallery Peep Sight.
Price, $2 50.

Marlin's Improved Graduated Peep Sight.
Price, $3.

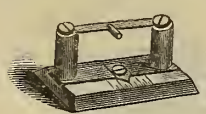


Wind Gauge Sight, wit Spirit Level.
Price, $4; without level, $3; l only, $1.

Globe Front Sight.
Price, $1.

Blank Piece for filling Rear Sight Slot.
Price, 25c.

The Cochran-Bond Wind Gauge.



Bead front sight, for target or hunting. The head is attached to a piece of thin, flat metal, which is fastened on the top of t small pillars, as shown in the cut. When aiming, all that can he seen of the sight is the head, which has the appearance of floatin equilibrium. The advantage of a sight like this can he seen at a glance, as the eye can follow the object of attack all around, under, well as on top, and it leaves an unobstructed sight. For fine target shooting this sight is recommended. Price each, $2. In order sights, always state the make of rifle, give maker's name, length of barrel, model (if any), and calibre.

Marlin Double-action Revolver.

A revolver made of steel throughout, using Smith & Wesson's cartridg which are obtainable everywhere.

Double Action.

The highest standard obtainable for strength, simplicity, durability, a ease of manipulation.

Automatic Ejecting,

By a simple device, as shown in the cut. A trial is solicited.

Inferior to None.

Price: 32 and 38 calibres, 3½ in. barrels, rubber stock, nickel plat or blued, $10.
Prices for ivory or pearl stocks, engraving, furnished on application.

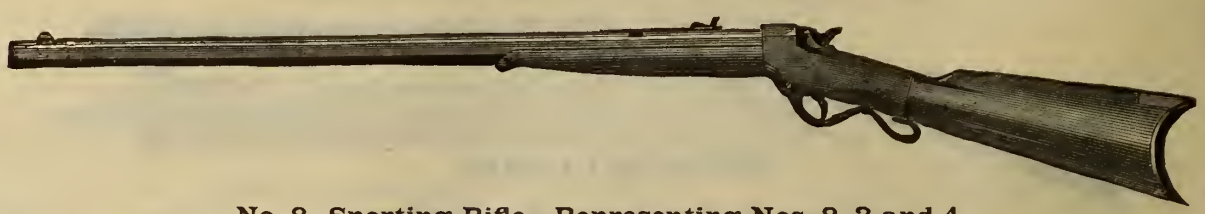
Ballard Rifles.



No. 2—Sporting Rifle.—Representing Nos. 2, 3 and 4.

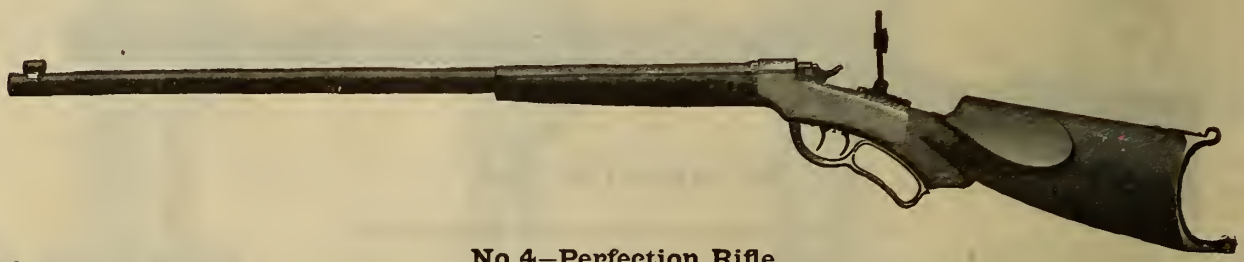
In .32 and .38 calibre, 24, 26 and 28 in. octagon barrels.....**$16** In .32 and .38 calibre, 30 in. octagon barrels.....**$17**
Weight from 7½ to 8½ lbs.

No. 3—Gallery Rifle.

In .22 calibre, octagon barrels, 24 inch, 7 to 8½ lbs., **$16.** Ditto, 26 inch, 7 to 8 lbs., **$17.** Ditto, 28 inch, 8 lbs., **$18.**

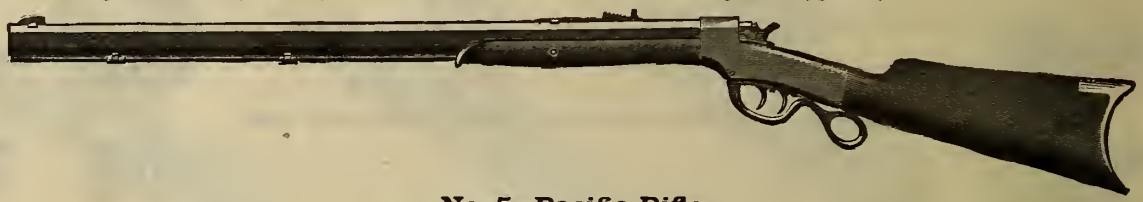
No. 3 F.—Fine Gallery Rifle.

Twenty-two calibre, octagon barrel, with pistol grip, and improved "off-hand" nickeled butt plate, using same cartridges as No. 3 Gallery Rifle. 26 inch, 8½ lbs., **$22 50.**



No 4—Perfection Rifle.

Octagon barrel, Rocky Mountain sights, extra heavy wrought frame, using everlasting shells or factory ammunition, but not the ordinary short, long, or extra long cartridges. In .32-40, .38.55 and .40-63 calibres, 30 inch, 9½ lbs, **$17.**



No. 5—Pacific Rifle.

Octagon barrel, double set triggers, extra heavy wrought frame, cleaning rod under the barrel, Rocky Mountain sights, using either everlasting shells or factory ammunition. In .38-55, .40-63, .40-85, .40-90 and .45-70 calibres, 30 inch, 10 lbs, **$22 50.** Ditto, 32 inch, 11 lbs., **$24.**

No. 8—Union Hill Rifle.

Half-octagon barrel, pistol grip stock, checked, "off-hand" nickeled butt plate, double set triggers, fine target sights, uses either everlasting shells or factory ammunition. In .32-40 and .38-55 calibres, 28 and 30 inch, 9¾ lbs., **$34.**

No. 9—Union Hill Rifle.

Same as No. 8, but having single trigger. In .32-40 and .38-55 calibres, 28 and 30 inch, **$30.**

No. 10—Schuetzen "Junior" Rifle.

Same as No. 8, but having 32 inch barrel, weight 12 lbs., mid-range Vernier peep and wind-gauge sights. In .32-40 and .38-55 calibres, 32 inch, 12 lbs, **$42 50.**

No. 6 1-2—Off-Hand Rifle.

Rigby barrel, fine target sights, English walnut stock, Swiss butt plate, pistol grip, finely checked, horn tip, engraved frame and barrel, uses either everlasting shells or factory ammunition. In .32-40 and .38-55 calibre, 28 and 30 inch, 9¾ lbs., **$57 50.**

SIGHTS, ETC.

Lyman's Patent Rear Peep Sight. Adapted to Marlin, Colt, Winchester, Remington, Ballard, Kennedy, Bullard, and other rifles. When ordering sights, state clearly the make, model (if any), calibre and length of barrel. It is absolutely necessary for us to know these points to ensure satisfaction and a proper fit. No filing or drilling required to fit this sight to any of the rifles mentioned above.

Sigbt used on the '86 model Winchester, sbowing the improved knurling ou the sleeve. This improvement is now on all these sights, and it allows of a quick and accurate change in the elevation.

As seen in these cuts, this patent base is very low, taking up little room on the tang of tbe rifle, consequently enables the shooter to grasp the rifle with greater ease. This improvement also allows of greater elevation in shooting, and all concede that it looks well on the gun. These bases are made of different lengths to adapt the sight to tbe different make of rifles, so tbat any one can screw them to the tang of a magazine rifle or to the Ballard, Sharps, Remington, and numberless other single-loaders, also a sight adapted to double express rifles and shotguns whicb have a rifle barrel.

Cut of Sight Stem Showing Pin.

Sight used on the Ballard Rifles.

The optical principle involved in this sight is entirely new in its application, and is more easily seen than explained.

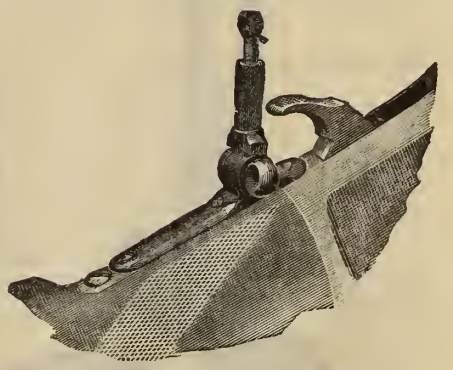
When aiming, this sight has tbe appearance of a ring or hoop, which shows the front sight and the object aimed at, witbout intercepting any part of the view.

The cut No. 1 gives an approximate idea of how the sight appears when aiming. It will be noticed that the top of rifle barrel and front sight are seen as distinctly as if no rear sight was used.

Tbe aperture of the Lyman Sight being very near the eyes, is greatly magnified as compared with tbe notch in the common open sight.

Price of the Lyman Patent Rear Peep Sight, complete with screws for attaching to rifle. Each, **$3.**

Cut No. 1.



A very Short Sight for Double Express Rifles.

Lyman's Patent Ivory Shot Gun Sight.

Enlarged Cuts of Sight.

Section of Sight in Gun.

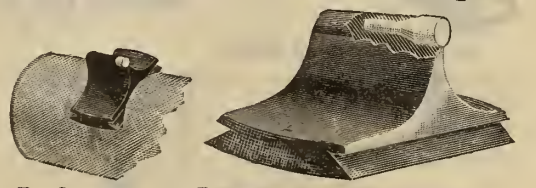
Reamer.

This sight is a decided improvement on any sight heretofore used on a shot gun. Unlike the ordinary metallic sight, it does not glimmer in the sunlight, and it can be seen in a dim light. Another improvement in this sight is its large size. Almost every sportsman knows how little is tbe value of the ordinary sights for quick work; in fact, they are generally made so small and of such material as to be hardly noticed when aiming. With this sight one can do far better shooting at tbe trap and in the field.

The above cuts show the construction of this sight. It will be noticed that the sight is so made as to expose only the ivory above the rib of the gun, and at the same time is held in the steel sleeve or holder, so as to give it the greatest possible amount of strength.

Price of this sight witb Reamer, **40c.**

Lyman's Patent Ivory Bead Front Sight.

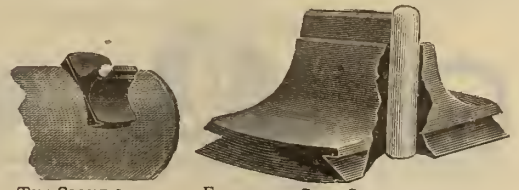


The Sight on the Rifle. Enlarged Cut of Sight, showing the construction of the Ivory Bead.

This sight gives tbe sportsman a clear white bead, which can be seen distinctly against any object, in the woods or in bright sunlight. The contrasting black neck of the sight makes the bead all the more prominent. The ivory bead in this sight is so well protected by the surrounding metal, that there is not much danger of its being injured. If by any means it is injured, the steel bead remains, so that the sight can still be used. Then, when convenient, the ivory can easily be replaced.

Price each, **90c.**

Lyman's Patent Ivory Hunting Front Sight.



The Sight on the Rifle. Enlarged Cut, Showing the construction of the Sight.

This sight is better than the bead sight for a hunting rifle, as it cannot be injured. It is also a very accurate sight, and many prefer it to any other front sight for "all around" use.

Price each, **65c.**

SIGHTS *(Continued).*

The Winchester Folding Peep Sight.

Price, **$1 25.**

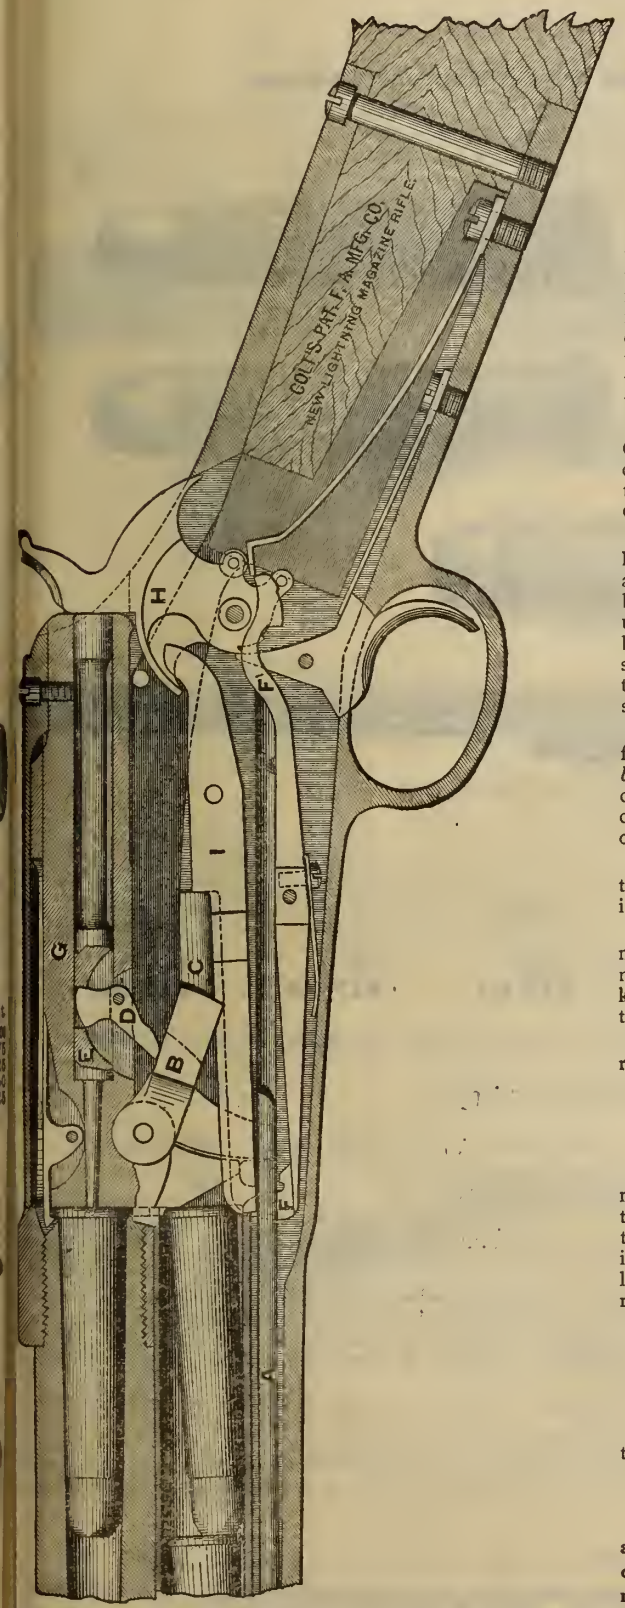
N.B.—The above Sights are adapted to Winchester Rifles only.

Colt's New Lightning Magazine Rifle.



(This cut shows the Rifle and its parts in position ready for firing.)

DIRECTIONS FOR USING.

To Load and Fire.

When the hammer is at full or half-cock, the action is released by lowering the hammer. Bring the piece to the shoulder in the usual way; grasp the handle or slide *A* with the left hand and draw it to the rear. The first part of this rear movement raises the locking-brace *B* from the abutment *C*, acts upon the firing-pin-lever *D*, withdraws the firing-pin, and releases the magazine gate *F*, causing it to hold back the cartridge in the magazine, and as the bolt *G* moves to the rear, ejects the cartridge shell, cocks the hammer *H*, and raises the carrier *I*, so that when the movement is finished, the cartridge is in the proper position to enter the chamber.

Then push the slide *A* forward. This movement carries the bolt *G* forward, drives the cartridge into the chamber, throws down the carrier *I* into position to receive, and withdraws the magazine gate *F* to release another cartridge, throws the brace *B* against the abutment *C*, and the rifle is then ready for firing.

After the piece has been fired, or when the breech is closed, the handle and slide may be locked by half-cocking the hammer. This action causes a projection on the magazine gate lever (shown just behind the letter *F* in the Cut), to engage a corresponding recess in the under side of the slide, thus locking it, and preventing it and the breech-bolt from moving. As may be seen from the drawing, the handle and slide can only be released by bringing the hammer to the down position. In the other positions of the hammer, viz., full and half-cock, the slide, handle, and breech-bolt are positively locked.

A feature peculiar to this Rifle is, the breech-bolt is brought clear forward and the extractor is hooked over the cartridge in the barrel *before* the magazine gate will allow another cartridge to be fed to the carrier, and the magazine gate is positively locked, only allowing one cartridge at a time to pass from the magazine, thus preventing blocking of the breech action, and the escape of cartridges under the carrier.

The firing-pin is held back positively until the cartridge has entered the chamber, when the bolt is locked so that premature explosion is impossible.

The hammer is automatically locked and unlocked by the hook near the end of the magazine lever *F*. By this arrangement the rifle may be loaded and discharged by the reciprocating motion of the slide, keeping the trigger constantly pressed back during the motion by the trigger finger.

The magazine can only be charged when the slide is drawn to the rear.

To Take Apart the Rifle.

Take out the tang screw. Draw off the butt stock. Take out the magazine screw at the front end and remove the magazine. Take out the two side screws, cock the piece, draw the slide about half way to the rear, and withdraw the trigger plate. Slide the bolt clear back, insert a punch in the small hole on the left hand side, and push out the locking-brace pin, and slide out the bolt. The other parts can be removed without special directions.

To Assemble the Rifle.

Replace the parts in the reverse order from that given for taking the rifle apart.

We guarantee every article precisely as represented, and when we say that each and every article sold by us or illustrated in our Catalogue is warranted exactly as represented, and that we will exchange anything purchased from us that may not come up to your expectation, it means that you take no chances in ordering from us. All goods will be exactly as catalogued.

Colt's New Lightning Magazine Rifle.

.38-.56, .40-.60, .45-.60, .45-.85, and .50-.95 Express Calibres.

	Octagon.	Round.	Carbine.	Baby Carbine.
Length of barrel	28 inches	28 inches	22 inches	22 inches
Number of shots	10	10	8	8
Weight	10 lbs.	9¾ lbs.	9 lbs.	8 lbs.
Price	**$19 00**	**$17 50**	**$17 50**	**$17 50**

The .50-.95 Express Rifle will only be made with a 26-inch barrel. Prices: Octagon barrel, **$22;** round barrel, **$20.**

This model is made in the following calibres:

.38 inch calibre	56 grains powder	256 grains bullet	.45 inch calibre	60 grains powder	300 grains bullet
.40 " "	60 " "	260 " "	.45 " "	85 " "	285 " "
			.50 " "	95 " "	300 " "

Carbines will, if desired, be furnished with swivels for strap.

This rifle possesses peculiar advantages in weight and calibre for sporting purposes, particularly for large game. The materia are the best, and the workmanship of the highest order.

The cuts and description of this rifle show that the breech action is simple and perfect, making the rifle absolutely safe again accidental explosion by a positive automatic lock, and the left-handed method of handling ensures the easiest manipulation of the gun.

Care should be taken in the selection of cartridges, that the 40-60-260 cartridges should be obtained, for although the rifle w take the cartridge with a bullet weighing 210 grains, the shell will be distorted, as the rifle is chambered for that in which the bull weighs 260 grains, which will give the best results.

Attention is called to the fact that by holding the trigger back, and using the reciprocating motion with the left hand, the rifle c be fired with great rapidity and without further use of the trigger.

In addition to the above styles, we are now making in this model an express rifle to use the .50 inch calibre cartridge, containi 95 grains of powder and 300 grains hollow express bullet. A solid bullet can be used if desired, but to obtain the flattest possib trajectory only the regular hollow express bullet should be used. This arm is especially adapted to those sportsmen who hunt lar game, and as an express rifle is unexcelled.

REMEMBER--That it would be poor policy for us to misrepresent our Goods or make any False Statement. We want every sale made to bring us two or three New Customers; this is one of the Greatest Secrets of our Success.

COLT'S NEW LIGHTNING MAGAZINE RIFLES.

.22-.32-.38 and .44 Calibre. Central Fire.

This rifle possesses great advantages, from the adoption of the left-handed method of handling, which enables the breech-action to be much simplified and lightened, without detracting from its strength. The materials used in its construction are the best of their kind, and the workmanship is of the same high standard as that of the other arms manufactured by this company.

Attention is called to the positive action of the magazine gate, which, after one cartridge is fed to the carrier, is positively locked, so as to prevent blocking the breech-action, or the escape of a cartridge from the magazine under the carrier.

Sporting Rifle, Octagon Barrel.

Calibre, .32-.38 or .44.

Length of barrel	26 inches.
Number of shots	15
Weight	7¼ lbs.
Price	**$17 00**

Sporting Rifle, Round Barrel.

In calibre, .32-.38 or .44.

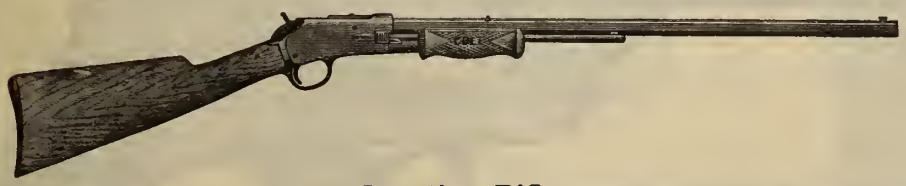
Length of barrel	26 inches
Number of shots	15
Weight	6¾ lbs.
Price	**$16 00**

Carbine.

In calibre, .32-.38 or .44.

Length of barrel	20 inches.
Number of shots	12
Weight	6¼ lbs.
Price	**$16 00**

.22 long, rim fire.



.22 short, rim fire.

Sporting Rifle.

22 Calibre.

	Octagon.	Round.
Length of barrel	24 inches	24 inches
Number of shots	15 long 16 short	15 long 16 short
Weight	5¾ lbs.	6 lbs
Price	**$19 00**	**$18 00**

This rifle possesses peculiar advantages in weight and calibre for small game and target practice. The materials are the best and workmanship of the highest order.

Care should be taken in the selection of cartridges. The rifle will take all long or all short .22 calibre cartridges, or a part long and a part short.

The handle and slide are locked in their forward position except when the hammer is down. Do not use ball breech caps.

SMITH & WESSON REVOLVERS.

We have been appointed sole agents for Canada for these superior revolvers. Every sportsman and dealer is familiar with them. Their superior finish, quality and excellence place them ahead of any line of revolvers manufactured on the American continent.

Hammerless Safety Revolver.

.32 CALIBRE CENTRE FIRE.

Weight 14 oz.; number of shots 5; length of barrel 3 and 3½ inches, with automatic shell extractor, rebounding lock and patent safety attachment.

Price, with 3 or 3½ inch barrel, **$15.**

THE NEW DEPARTURE.

Smith & Wesson's Hammerless Safety Revolvers.

The great number of accidents recorded during the past years, in the use and handling of the revolver, has made it evident that some decided change in this arm, by which these accidents shall be avoided, is not only desirable but necessary. To this end much time and thought has been expended, but not until quite recently has the object sought after been fully attained in the perfection of the Hammerless Safety Revolver which is now offered to the public.

It is well known to all familiar with the subject, that a very large proportion of the accidents with revolvers arise from some unintentional manipulation of the hammer. Either it receives a blow, is allowed to slip off the thumb in cocking, is accidentally caught on some foreign object and partially raised, or is unintentionally left at full cock. The only other and a fruitful source of accident is the unintentional manipulation of the trigger.

In the new Hammerless Safety Revolver all these liabilities to accident are made impossibilities: first, by placing the hammer of the arm entirely within the lock frame so that no external force whatever can be applied to it, and second, by so arranging the trigger that it cannot be pulled except at the instant of deliberate firing, and only by this means. One very important feature of this arrangement is the safety of the arm in the hands of children, as r ordinary child under eight years of age can possibly discharge it. The ne arm is also provided with a rebounding lock as an additional source of safe and protection.

We think it safe to say one of these revolvers may be carried with as litt danger of injury to the person carrying it as if it were a block of wood, and y it possesses in a high degree all the essential qualities of a weapon of defenc or an arm for target practice. As a weapon of defence it has the advantage, c account of the hammerless feature, of being readily drawn from the pocket.

As to weight and general appearance, the Hammerless Safety Revolver but one-half ounce heavier than the double action model of the same calibr and fully as handsome in appearance as anything yet issued from the Smi & Wesson works. In addition to the above described elements of safety, th revolver has the Automatic Ejector as applied to all of the former models, an in short possesses every desirable quality of the well-known Smith & Wesso revolvers.

Hammerless Safety Revolver.

CALIBRE 38, S. & W. CENTRE FIRE.

Weight 18½ oz.; number of shots 5; length of barrel 3½, 4 and 5 inches, with automatic shell extractor, rebounding lock and patent safety attachment.

Price with 3½ inch barrel..... **$16 0(**
Price with 4 inch barrel..... **16 5(**
Price with 5 inch barrel..... **17 0(**

SMITH & WESSON REVOLVERS *(Continued.)*

Double Action.

Five shot; weight, 13 oz.; length of barrel, 3, 3½ and 6 inches.

New Model, .32 Calibre, Central Fire, Double Action, with Patent Automatic Shell Extractor.

Prices: 3 or 3½ inch barrel, **$13**; 6 inch barrel, **$14 50.**

Directions for the use of Smith & Wesson Revolvers.

To Load.—Half cock the arm; raise the barrel catch to its full height, and tip the barrel forward as far as it will go. Place the charges in the chambers and return the barrel to its place, being sure to have the barrel catch down to its place, when the arm is ready for use.

To Eject the Empty Cartridge Cases.—Grasp the barrel catch with the thumb and forefinger of the left hand, holding the breech of the barrel and cylinder downward, and with the right hand carry forward the lock frame and stock of the arm until the ejector returns to its place, when the arm is in condition to reload. In the safety hammerless revolvers the barrel catch is arranged to be operated by the thumb of right hand.

To Remove an Exploded Shell.—Open the arm sufficiently to start the cartridges out a little, then close it again sufficiently to allow the ejector to return to its place, remove the exploded shell, and press the other charges home, close again, and the arm is ready for use.

To Remove the Cylinder and Ejector.—Open the arm until the extractor protrudes about half way, raise the barrel catch, and turn the cylinder two turns to the left.

To Replace the Cylinder and Ejector.—Open the arm to its full capacity. Raise the barrel catch, press the cylinder forward upon the base pin and give it two turns to the right.

Five shot; weight, 18 oz.; length of barrel, 3¼, 4, 5 and 6 inches.

New Model, .38 Calibre, Centre Fire, Double Action, with Patent Automatic Shell Extractor.

Prices: 3¼ inch barrel, **$14 50**; 4 inch barrel, **$15**; 5 inch barrel, **$15 50**; 6 inch barrel, **$16 25.**

No. 3—Navy Revolver. New Model, Double Action, with Automatic Shell Extractor.

Calibre, .44 Smith & Wesson Russian, central fire, 6 shot; weight, 2 lbs. 3 oz.

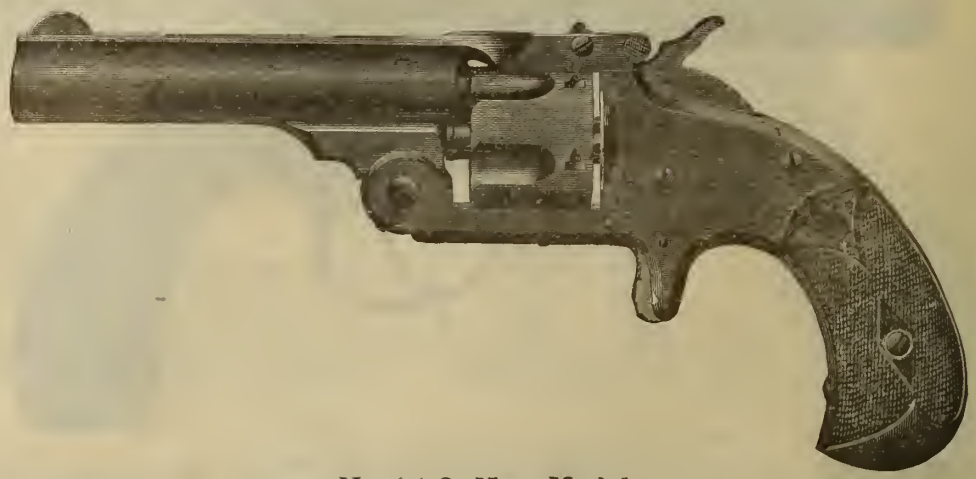
Prices: With 4 inch barrel, **$17 50**; with 5 inch barrel, **$18**; with 6 or 6½ inch barrel, **$18 50.**

SMITH AND WESSON REVOLVERS *(Continued).*

Single Action.



No. 1 1-2—New Model.

.32 calibre, central fire, single action, with patent automatic shell extractor, and rebounding lock, five shot, weight 12½ oz.; lengt of barrel, 3 and 3½ inches.

Prices, with 6 in. barrel, **$13,** with 3½ in. barrel, **$11 50.**

Smith and Wesson's 32-44 Target Revolver.

A special .32 calibre revolver, provided with special sights for fine shooting. It is built on the same frame and made the sam size as the New Model No. 3 or Army Revolver. It uses a .32 calibre cartridge (the .32-.44 S. & W. target), containing 11 grs. powd and 83 grs, of lead in form of a grooved conical bullet. It also uses a lighter cartridge (the .32-44 S. & W. Gallery), which contains grs. powder and 50 grs. of lead. The latter cartridge has a round, spherical bullet. Weight of the arm 2 lbs., 11 oz. Length of barr 6½ inches. Number of shots 6.

Price, **$20.**

No. 2 New Model.

.38 calibre, central fire, single action, five shots, with patent automatic shell extractor. Weight, 16 oz.

Prices, with 3¼ inch barrel, **$13,** with 4 inch barrel, **$13 50,** with 5 inch barrel, **$14,** with 6 inch barrel, **$14 75.**

Smith and Wesson .38-44 Target Revolver.

Provided with special sights for fine shooting, using .38-44 S. and W. ammunition, with powder 23 grs., lead 146 grs., central fi single action, with gourd and patent automatic shell extractor, six shot, Weight, 2 lbs., 9 oz.; length of barrel, 6½ inches. Same si revolver as the .44 Army S. A. No. 3.

Price **$20.**

All Smith and Wesson revolvers can be had in either full nickel-plated or finely blued, with rubber or walnut stocks, at pric quoted.

FOREHAND & WADSWORTH NEW MODEL REVOLVERS.

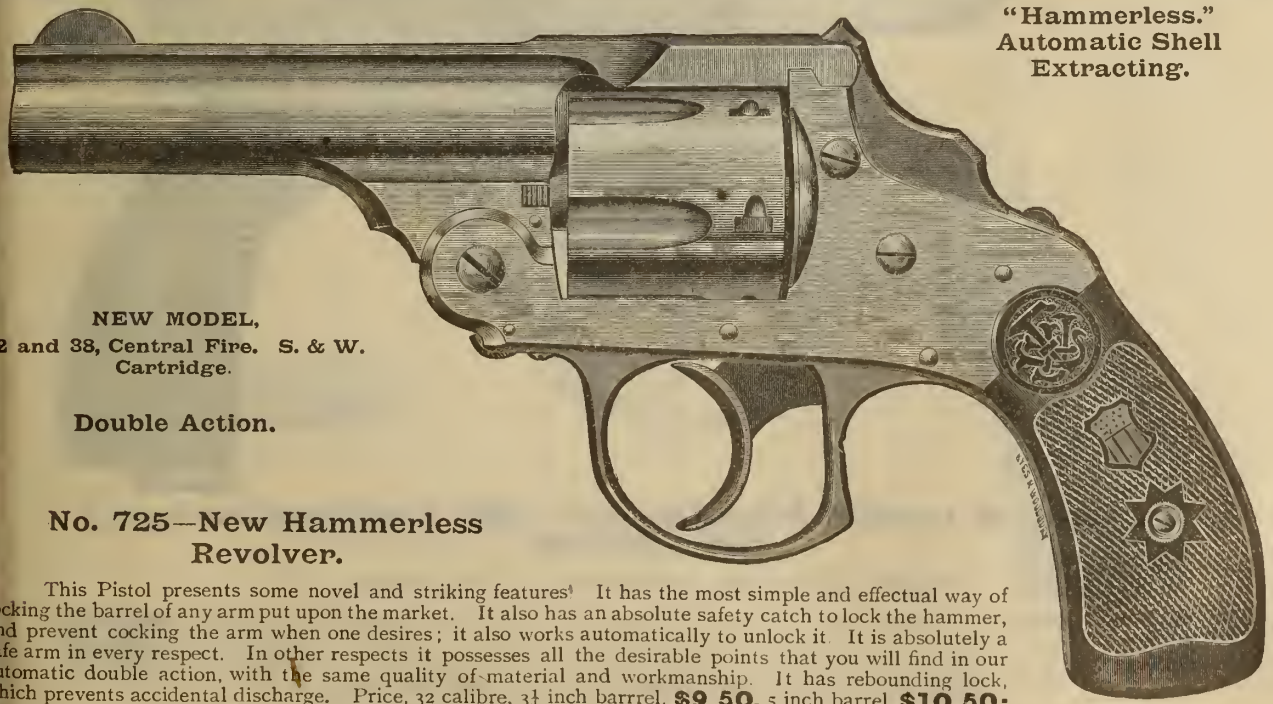
We endorse and recommend these arms, based upon our knowledge of them after being in actual use and severely tested in all points requisite to ensure a perfect arm, and being satisfied of the merits and real worth of the weapons, we have accepted the Canadian agency for them, and in consequence can afford to sell at surprisingly low prices.

New Model 32 and 38 Central Fire. S. & W. Cartridge. **Automatic Shell Extracting.**

No. 700—Double Action.

We claim for this Pistol some important advantages over other make of pistols of this kind. It has rebounding locks, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. A very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a catch in front of the cylinder. The workmanship in this arm is very superior. All the parts are interchangeable, and are made from drop forgings. The frame is of cast steel, no malleable iron about it. Price, .32 calibre, 3¼ inch, **$8 50,** 5 inch, **$9 25;** .38 calibre, 3¼ inch, **$9,** 5 inch, **$9 75.**

"Hammerless." Automatic Shell Extracting.



NEW MODEL,
32 and 38, Central Fire. S. & W. Cartridge.

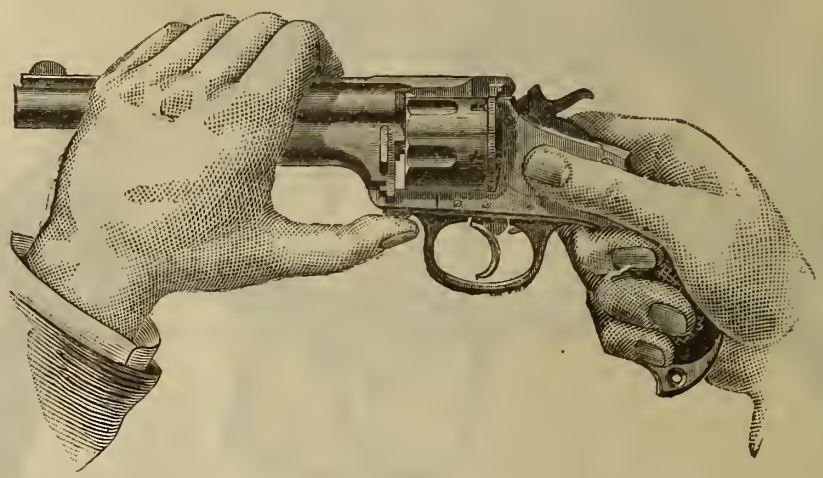
Double Action.

No. 725—New Hammerless Revolver.

This Pistol presents some novel and striking features. It has the most simple and effectual way of locking the barrel of any arm put upon the market. It also has an absolute safety catch to lock the hammer, and prevent cocking the arm when one desires; it also works automatically to unlock it. It is absolutely a safe arm in every respect. In other respects it possesses all the desirable points that you will find in our automatic double action, with the same quality of material and workmanship. It has rebounding lock, which prevents accidental discharge. Price, 32 calibre, 3¼ inch barrrel, **$9 50,** 5 inch barrel, **$10 50;** 38 calibre, 3¼ inch barrel, **$10,** 5 inch barrel, **$11.**

Merwin, Hulbert & Co.'s System Automatic Revolvers.

These revolvers are made of forged steel, interchangeable in their parts, of sufficient strength, and are perfection of workmanship. They have simultaneous and easy extraction of the shells; an inclined screw action on the base-pin starts the shell, overcoming any resistance. They extract one or more shells, if desired, without removing the loaded ones. They can be taken apart for cleaning without the aid of any tool. They have no small parts exposed to rust, and the extractor is a solid part of the base-pin. They are rifled by a new process that gives perfect accuracy, are well balanced and pleasant to handle. The lines of recoil and resistance are so nearly alike that they prevent any upward throw of the arm when fired. The motion of extracting the shells cleans the arm, and they cannot clog by any number of discharges.



WITH FOLDING HAMMER.

Double Action, .32 Automatic Folding Hammer, 7 Shot, 3 1-2 Inch Barrel, Special Target Revolver.

Weight, 1 lb. 2 oz., using .32 calibre long C. F. target cartridges.

No. **453**—Rubber stock **$14 00**
No. **454**—Ivory **15 00**
No. **455**—Pearl **16 50**

Intaglio and gilt, extra	**3 00**

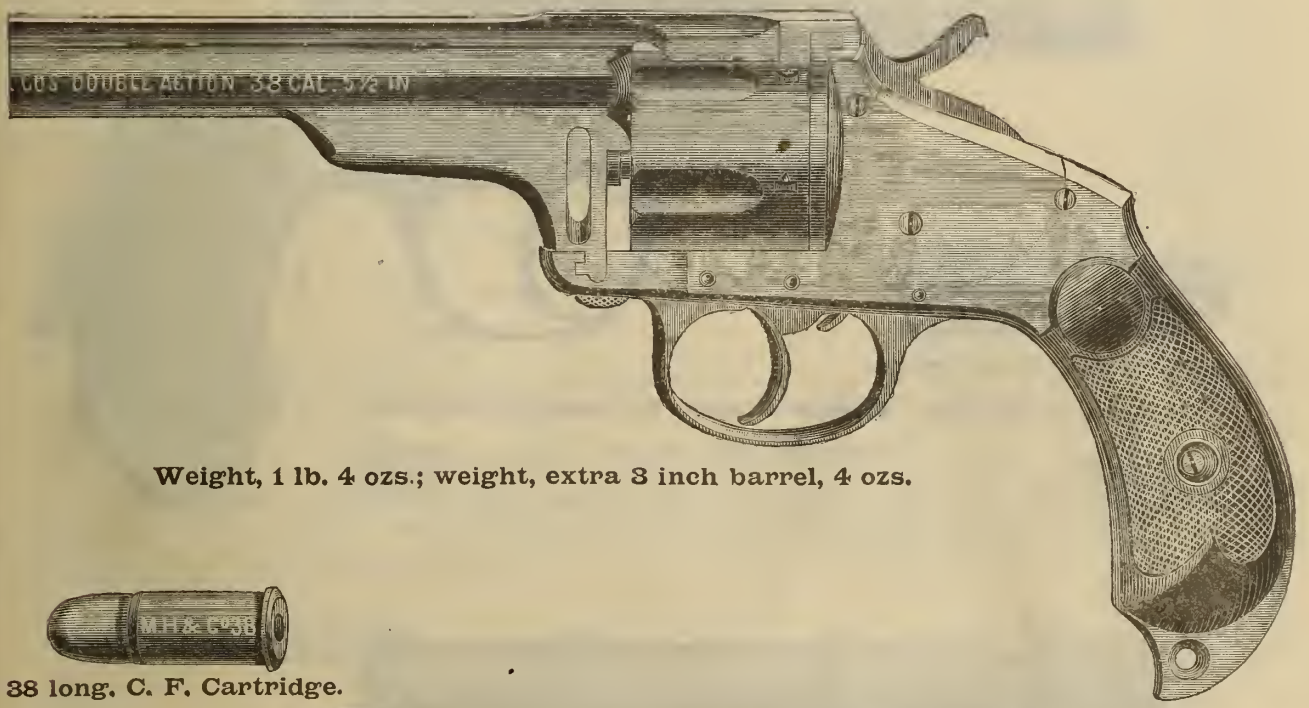
It is also made with the old style of hammer, which we can supply.

When you buy from a firm that sells for cash only, you do not have to pay the losses occasioned by a "Credit System." This is one of the secrets why we are able to sell at lower prices than any other House in Canada.

Two First and one Second Prize--Mrs. Robert Gibb, Jr., Sarnia, writes: "I took West Lambton Agricultural Society's First Prize, also Moore Township Fair First Prize at Courtright on bread made with the Breadmakers' Yeast. I also took Second Prize at Petrolia Fall Show with bread made with your Yeast. Dec. 1st, 1888."

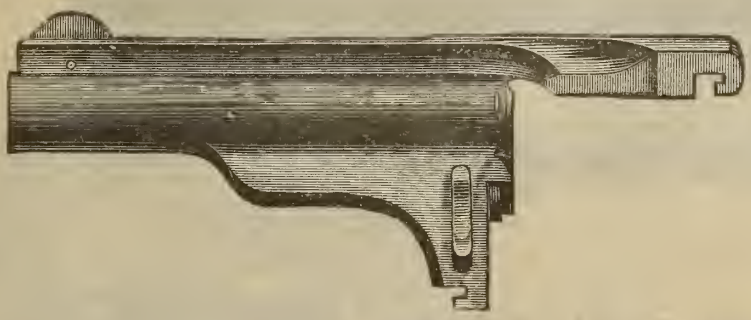
Merwin, Hulbert & Co.'s Double Action 38 Cal. Automatic Revolver.

Five shot, 5½ inch, with extra 3 inch barrel. This arm is made with an interchangeable 3 inch barrel, that enables it to be changed into a pocket revolver. No tool required. The barrels can be changed in 3 seconds.



Weight, 1 lb. 4 ozs.; weight, extra 3 inch barrel, 4 ozs.

38 long. C. F. Cartridge.



3 Inch Barrel.

No. **356**—Rubber stock **$17 00**
No. **357**—Ivory stock **18 00**
No. **358**—Pearl stock **20 00**

Above Revolver is also made in Single Action. Price, $1 less than quoted above. Postage, 41c.

These weapons are well known to every sportsman; their popularity and enormous sale is a guarantee of their merit. We offer them at prices far lower than they were ever sold before.

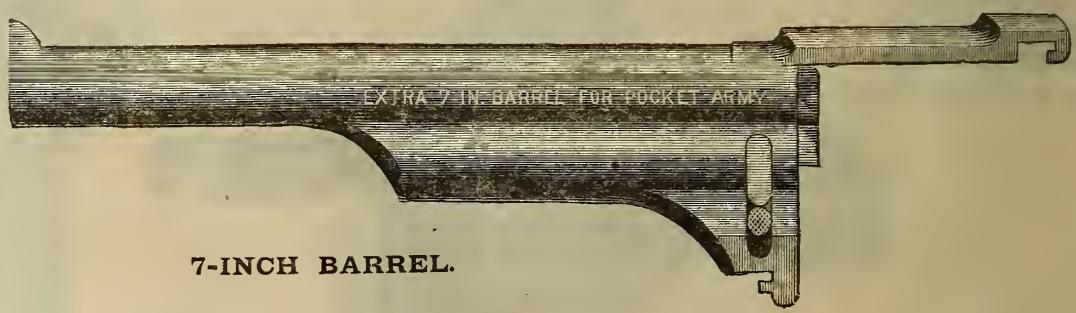
No. 18—Rubber stock	$18 00
No. 19—Ivory "	20 00
No. 20—Pearl "	22 00



7-INCH BARREL.

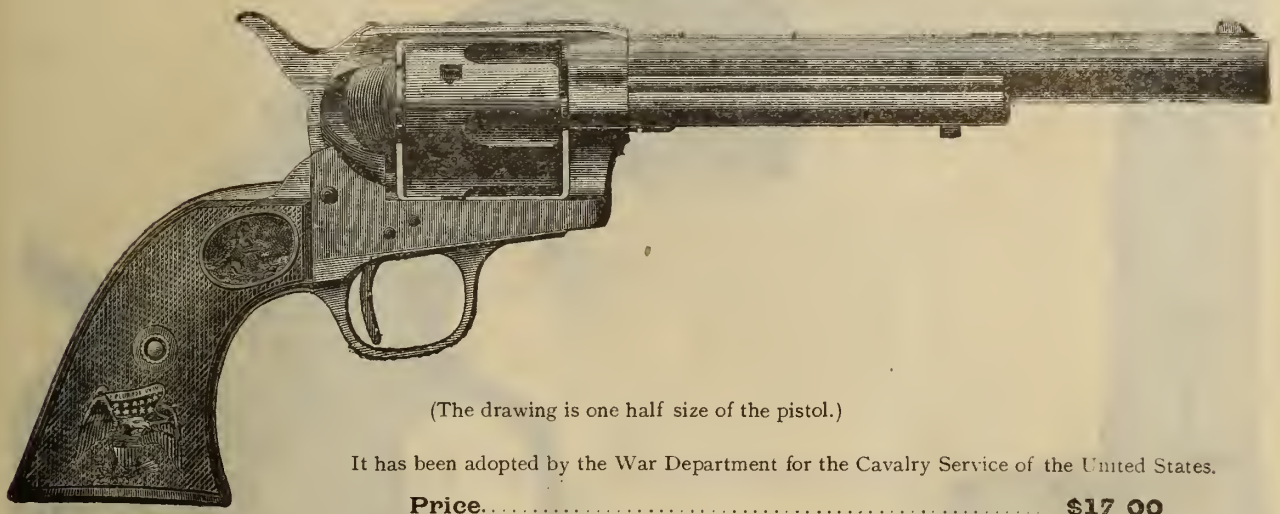
POCKET ARMY DOUBLE ACTION REVOLVER.

With extra 7-inch Barrel.

We call special attention to this Pocket Army. In its construction the best materials and highest known state of the art have been applied. For precision, penetration, poise, compactness, beauty of outline and general convenience, it has no equal. The crested form of the handle permits it to be of less size than any arm of this calibre; the lines of recoil and resistance are closer together, a more firm and natural grasp, and much greater leverage are given to the hand, all of which tend to resist the upward throw of the barrel in firing. To separate the frame, barrel and cylinder (for cleaning), and reassembling them, requires no tools. Prices the same as above, with folding hammer.

COLT'S NEW MODEL

Army Metallic Cartridge Revolving Pistol.



(The drawing is one half size of the pistol.)

It has been adopted by the War Department for the Cavalry Service of the United States.

Price..... $17 00

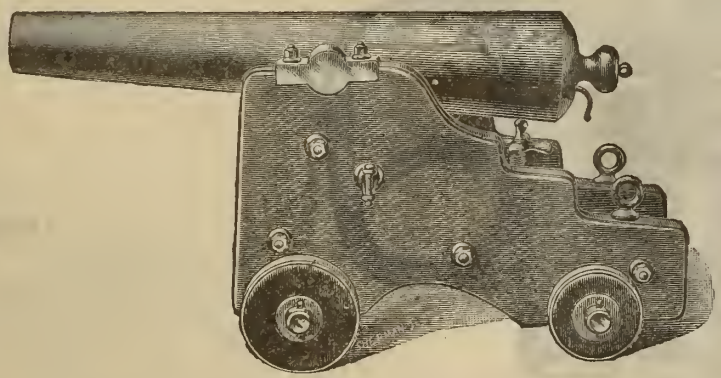
No. **418**—Pearl..... **8 00**

(Postage, 33 cents.)



New Improved Breech-Loading Yacht Cannon.

In presenting this improved Breech-Loading Cannon to the attention of yachtsmen, we do so with the confidence that experience and experimenting have produced a yacht cannon that is perfect in action and model, and without a rival of any merit whatever.

The principal new features are the rolling breech-block, elevating screw and extractor.

The substitution of the rolling breech-block action for the butt-block is an improvement of so great advantage as to require no explanation further than mentioning the fact that with the new action the gun can be loaded readily at any angle of elevation or depression without interfering with the elevating screw, which could not be done with the old model.

The elevating screw is a very necessary addition, and is ornamental as well as very useful.

The extractor is made of steel, and is nickel-plated to prevent rust. It is the only exposed part of the gun but what is made of the best of gun metal.

The carriage is made of solid mahogany, and with the gun, is finished in the highest manner. The trimmings of the carriage are of gun metal to correspond with the gun.

This is unquestionably the finest yacht gun in the world, and wherever it has been introduced has given complete satisfaction. It can be loaded and fired without soiling the person in the slightest degree. The annoyance caused by the delay in loading and firing the old-fashioned muzzle-loader when it is desirable to give a prompt salute or several salutes in succession, has been experienced too often to need comment. Absolutely safe; cannot be overloaded, as the capacity of the shell is the limit of the charge. This gun can be discharged **twenty times a minute.**

To discharge the gun see that the lanyard stem is pushed forward, and then simply pull the lanyard.

No. **1**—Length, 17 in., No. 8 shell, price complete..... **$ 75 00**
No. **2**— " 24 " " 4 " " **120 00**
No. **3**— " 28 " " 3 " " **165 00**

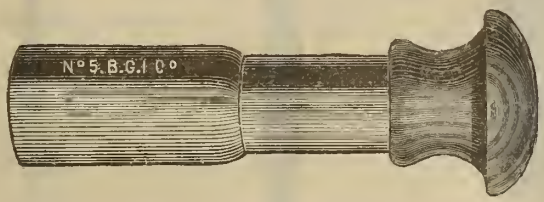
No. **1**—12 gauge, " " " " ..... " **1 50**
No. **2**—With 4 implements, viz., loader, recapper, shell extractor, and measure. ..... " **0 40**

Shell Crimpers.



No. **107**—Cocobolo handle and base, nickel-plated tube, shells, 10 and 12 gauge..... **$1 00**

Belcher Loader.

ONE HUNDRED SHELLS CAN BE LOADED IN TEN MINUTES.

For Ease, Rapidity, Security and Exactness, no Loader has ever been made that will equal the Belcher.

Hoppers are glass jars, open at top; if broken they can be replaced with Mason's fruit jars, obtainable in any town or village in the country; powder and shot work alternately. By a series of bushings any gauge from 10 to 20 is obtained. Wads are pressed home by a lever, and set perfectly level.

Price for one gauge..... **$12 00**
Each additional gauge, extra.. ..... **1 00**

Always write your name and address on packages returned to us, if you wish them to have attention; also, send letter of instructions by mail.

RELOADING TOOLS
For Metallic Rifle and Pistol Cartridges.

Winchester Reloading Tools.

REGULAR MODEL.

In offering these articles to the public, the manufacturers believe that they present the most complete and compact article that can be produced. The aim has been to give in one instrument all the functions possible, without complication.

Prices.

For the following sizes:—22 W. C. F., 32 W. C. F., 32 S. & W., 32 Colt's pistol, 32 short, 32 long, 32 extra long, 38 S. & W., 38 short, 38 long, 38 W. C. F., 41 long, 44 W. C. F., 44 Webley, 44 S. & W. Rus., 44 S. & W. Amc., 44 long.

Price, per set.....$3 00

For sizes as follows:—38 Win. express, 40-50 bottle neck patched, 40-50 straight shell patched, 40-70 B. N. patched, 40-70 S. S patched, 40-70 S. S. grooved, 40-70 Ballard, 40-60 Marlin, 40-60 W. C. F., 40-90 B. N. patched, 40-90 S. S. patched, 40-90 Ballard, 40-110 express, 44-77 patched, 45-125 express, 45-75 W. C. F., 45-60 W. C. F., 45 Sharp's patched, 45-70 Marlin, 50-70 Government, 50-95 express.

Price, per set.....$3 50

Winchester Reloading Tools.

NEW MODEL.

This tool is especially intended for use with the larger sizes of shells, where the powder is compressed, and where it is desired to resize the shell throughout the greater portion of its length. To this end it is found necessary to make it heavy. All the pieces are forged, no cast or malleable iron being used.

Made for the following sizes:—32-40, 38-55, 38-56 W. C. F., 40-65 W. C. F., 40-82 W. C. F., 45-90 W. C. F., 45-70 Government, 405 grs., 45-70 Government, 500 grs., 50-110 express.

Price, per set.....$3 50

Bullet moulds only for all above sizes	$1 10
Bullet moulds only for express cartridges	1 70
Extra cap extractor plugs for reloaders (any size)	0 25
Swages, .38 to .44 calibre, for smooth bullets	3 00
Swages, .45 to .58 calibre, for smooth bullets	4 00
Shell-reducing dies	2 00
Extra die, for New Model Reloader	1 00

In ordering, state what particular cartridge is to be reloaded, as only one size can be reloaded with a single set.

The majority of cartridges require no wads in reloading. For such cartridges as require wads, a wad-cutter will be added to the set at an addition of 50 cents to above prices.

Full directions for reloading accompany each set.

Marlin Combined Reloader.

For 45-75 Winchester cartridges only, model 1876. Complete tool, embracing bullet mould and recapper, bullet seater and wad cutter.

Price each.....$2 50

Remington Reloader.

For all sizes Remington cartridges, complete set.

Price each.....$3 50

Smith & Wesson's New Model Reloading Tool.

For fine target work this is the only reliable tool.

Calibre .32 S. & W.	$3 75
" .32 S. & W. revolver rifle	4 00
" .32-44 target	4 00
" .38 S. &. W.	4 00
" .38-44 S. & W. target	4 25
" .44 S & W. army size	4 25

Bullard Reloading Tools.

For all sizes Bullard cartridges.

Complete set.....$5 00

Ideal Reloading Implements.

No. 1.

Is a light, compact and complete little tool, especially adapted to the smaller cartridges as follows:—

.32 and .38 calibre Marlin double action revolver; .32 calibre short, long, extra long, and Smith & Wesson; .32 calibre Winchester; .38 calibre short, long, extra long, 38 S. & W., and Merwin & Hulbert; 32 Harrington & Richardson; 22 extra long centre fire, and 22 Winchester centre fire; 32 long, and Merwin & Hulbert.

Price, full nickel plated.....$2 25

No. 4.

Is a very popular tool. It is complete in itself; no extra pieces. It also has the bullet sizer, which makes the bullet perfectly round and diameter correct. Sizes:—

.32, .38 and .44 calibre Marlin, model 1888; .38 and .44 calibre Winchester, Whitney-Kennedy, and Colt's Lightning Magazine Rifles; also Colt's .41, .44 and .45 calibre pistols, .44 calibre S. & W. Russian and American, 32 Colt's Magazine Rifle, and 32 W. C. F.

Price, full nickel plated.....$2 50

Nos. 4 and 6 tools with express mould, 50c. extra.

No. 3.

The operations performed by this tool include re-sizing of the expanded shell and the sizing of the bullet, which are very essential. A separate mould with wood handles completes the set.

This tool is adapted to the .32, .38 and .44 calibre Marlin, model 1888, .32, .38 and .44 calibre W. C. F., and .32, .38 and .44 Colt's rifle cartridges.

Price, complete with mould, full nickel plated...$3 00

No. 6.

Like No. 4, is complete, performing all the operations required. It also has the bullet sizer, and is adapted to the larger cartridges enumerated below.

32-40 Marlin and W. C. F., 32-40 Remington, 32-40 Bullard, 32-35 Stevens and Maynard, 38-45 Stevens, 38-55 Marlin and W. C. F., 38-56 W. C. F., 38-90 Ex. Winch. ‡Adj., 40-50 *B. N. grooved, 40-50 Sharp's grooved, 40-60 Marlin and Colt, 40-70 B. N. grooved Adj., 40-70 S. S. grooved Adj., 40-70 Ballard grooved Adj., 40-60 W. C. F., 40-65 W. C. F., 40-82 W. C. F., 40-85 Ballard grooved Adj., 40-90 B. N. grooved Adj., 40-90 S. S. grooved Adj., 44-77 grooved Adj., 45-60 W. C. F., 45-70 U. S. Gov't., 45-70 Marlin, 45-75 W. C. F., 45-90 W. C. F., .50 calibre carbine, 50-70 Government.

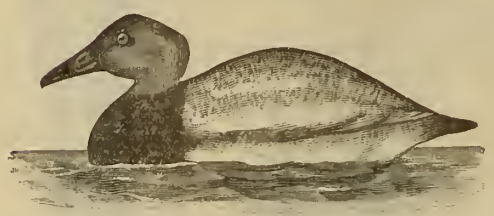
Price, full nickel plated.....$3 00

Price, over 2¾ inch shell..... 3 50

* B. N.—Bottle neck. ‡ Cartridges over 2¾ in. long have adjustable chamber.

Decoys, Steel Traps, Filters, Oilers, Etc.

Duck Decoys.



Decoy Duck.

Mallard, Black Duck, Red Heads, Canvas Backs, Widgeons, Blue Bills, Broad Bills, Blue and Green Wing Teal, Etc., Etc.

	Doz.
A Quality—Solid white cedar, well and naturally painted. (See cut.)	$15 00
B Quality—Naturally painted, but not so smoothly finished	9 00

Goose Decoys, $18 00.

Snipe Decoys.

	Doz.
1—Full shape, yellow legs	$6 00
2—Shadows	4 00

Customers desiring decoys of any special style can have them in about ten days, by giving a little time for painting correctly.

Filters.

	Each.
No. **1**—Stone filters with rubber tubes	50c.
No. **2**—Stone filters with rubber tubes	75c.

These filters are one of the most necessary articles comprising an outfit, as they perfectly filter the impurest water, also acting as a syphon. They are made of a porous stone, attached to which is a flexible rubber tube and wooden mouth-piece.

Oilers.

	Each.
"Goodenough," tinned	15c.
Disc Oiler, flat shape, fancy surface, screw top, nickel	20c.
Same, gilt	25c.
Britannia, bottle with screw top; size, 2 x 2 in.	50c.

Recoil Pads.

	Each
Rubber Recoil Pads, to slip over stock, black	$0 75
Rubber Recoil Pads, to slip over stock, best quality, red	1 50

Steel Traps.

Double Spring.		
2—For otter, etc	7 50	9 00

Bullet Moulds.

	Each.
Common round, all sizes	$0 20
Conical grooved moulds, all calibres	1 10
Express bullet moulds	1 75

Wad Punches.

	Each.
Steel Wad Punches, sizes 8 to 32 gauge	20c.
Calibres .38 to .45 for rifle cartridges	50c.

(Postage on wad punch or mould, registered, 8c.)

In sending us a "trial order," we would advise parties not to send exclusively for staple goods, such as prints, cottons, etc., as this class of goods is sold by nearly all merchants at a very small profit, and a bill of such goods is no test of the great advantages to be derived from sending your orders to us. We claim that our main advantage to the public is to sell goods on which other merchants make large profits at lowest wholesale prices.

FLYING TARGETS AND TRAPS.

The Matchless Blackbird.

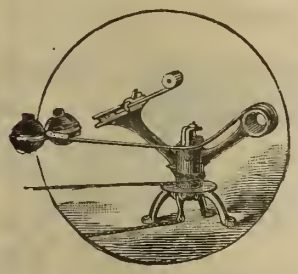
Manufactured only by The Charles Stark Co. (Lt'd), having the longest flight and least number of breakages of any bird or pigeon manufactured. These birds are the outcome of long and careful study and experiment, thus possessing qualities unexcelled by any other manufacturer. They are so formed as to be thrown from the Peoria and other traps, and are composed of such material as to render them quite sensitive when hit with shot, and yet will not fly to pieces by the simple action of the trap's discharge. These artificial birds are highly recommended by trap-shooters as being just the thing for such purposes. They are carefully packed in boxes of 250 so as to prevent breakage.

Price per thousand **$10 00**

Matchless Blackbird Trap.

Manufactured by us, and is without doubt the best blackbird trap made.
Price **$5 00**

OUR STANDARD BALL TRAP.



Standard Target Balls.

Since the introduction of this ball we have sold few glass balls, the sale for them now being dead. Some of the advantages of this ball over the glass are as follows :

They do not become soft when exposed to the summer sun. A shooting match can be carried on more successfully in all kinds of weather with this ball than with any other flying target ever made, as they are not in the least affected by heat or cold, rain or sun.

They will always break when hit, even with a single pellet of shot.

They are always uniform in weight and thickness ; the peculiar process of manufacture insures that. They are carefully packed and always full count.

Shot will never pass through them without causing a perceptible break.

Shot will never glance, as the surface is somewhat rough.

No broken glass on the field. Packed carefully in barrels of 250.

Price per thousand ..... **$ 7 50**
Trap and 1,000 balls **10 00**

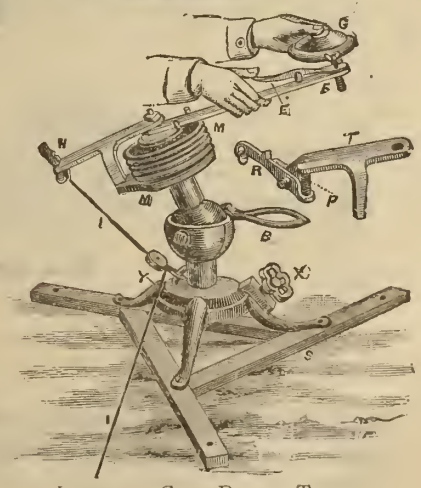
Improved Rotary Ball Trap.

Price, with double cup spring, as shown in cut **$5 50**
Price, with single cup spring for throwing one ball **5 00**

Ligowsky Clay Pigeons.

Price per thousand, with or without tongues **$20 00**
Price per thousand, with patent inturned edge, as in cut **20 00**

These latter produce a sure break when hit, and a non-break when not hit, thus so many more targets are preserved.



Ligowsky Clay Pigeon Trap.

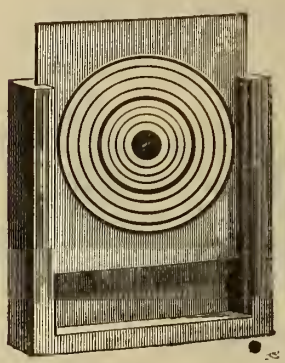
Ligowsky Clay Pigeon Trap.

We can furnish this trap with two arms for throwing pigeons, with or without tongues.

Price, with one arm **$7 00**
Price, with two arms **8 00**

In ordering goods from our Catalogue be sure always to give the name of the article wanted and price. Catalogue number is not always sufficient.

TARGETS.



No. 28

No. 7

No. **28**—25 yard standard wood box target, for air guns, with three extra targets for front and back..... **$00 75**

No. **1**—Paper target, Creedmore, 200 yards, reduced by scale for 25 yards, size 6 x 9 inch, per 100. ..... **25**

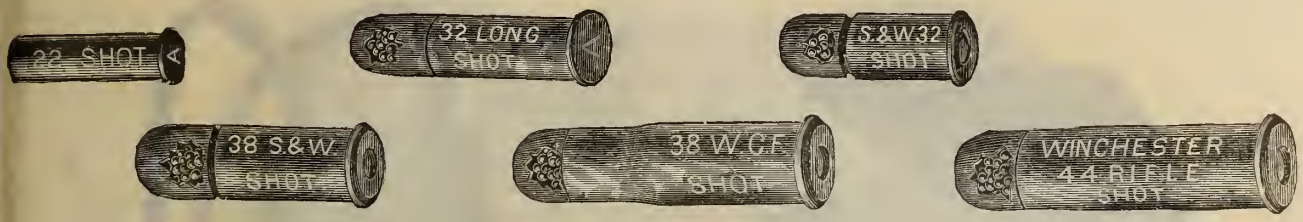
Patent Shot Cartridges.



These cartridges are made in the ordinary sizes of rim and central fire for both pistols and rifles. The shot is enclosed in a thick paper case packed closely, and when set in the shell has the appearance of being a bullet. This case is lubricated on the outside. When shot, the paper case is forced through the rifling of the weapon, and thoroughly cleans and oils the barrel, and at the same time acting as a shot concentrator. Upon reaching the muzzle, of the rifle or pistol, the case bursts and the shot scatters.

The .22, .32 and .38 calibre rim fire are adapted to revolvers and smaller target rifles, while the .32 and .38 S. & W. are used in revolvers and pistols. The .32, .38 and .44 sporting sizes are used in the Winchester, Colt's and Marlin Rifles and Frontier Pistols of same calibre. The sizes of shot in these cartidges range from number 12 in the .22 calibre to number 6 and 8 in the .44 Winchester and Spencer .56-.52. For small game such as sparrows, quail, partridges and squirrels, these are highly recommended. They are particularly effectual in disposing of cats and rats, and any of these animals that ever receive a dose, seldom, if ever return.

15 1-2—With tool pocket		**5 50**
49—Same style as No. 15; made of selected leather, extra heavy, lined throughout with chamois leather; the finest Victoria case made		**8 50**

Two First, and One Second Prize.—Mrs. Robert Gibb, Jr., Sarnia, writes: "I took West Lambton Agricultural Society's First Prize, also Moore Township Fair First Prize at Courtright, on bread made with the Breadmakers' Yeast. I also took Second Prize at Petrolia Fall Show with bread made with your Yeast. Dec. 1st, 1888."

Another Happy Young Woman Writes: "666 Maria Street, Ottawa, Dec. 1st. I was visiting a sister lately in Western Ontario, and was delighted with her beautiful bread. As she said she used Breadmakers' Yeast, I determined to try it. On my return I did so, and my bread is declared by all to be delicious.—Miss S. Townsend."

TRUNK GUN CASES.

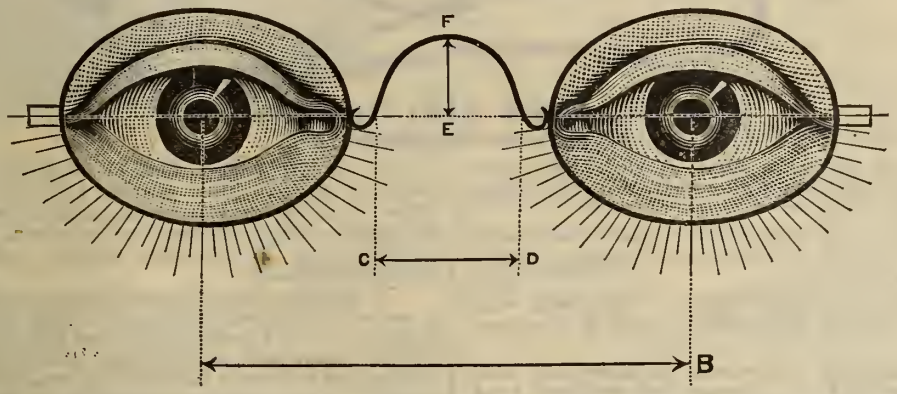
All other parts of .22 calibre repeater same prices as calibres .32, .38 and .44.

In ordering parts, give the number and calibre of the Rifle.

In sending us a "trial order," we would advise parties not to send exclusively for staple goods, such as prints, cottons, etc., as this class of goods is sold by nearly all merchants at a very small profit, and a bill of such goods is no test of the great advantages to be derived from sending your orders to us. We claim that our main advantage to the public is to sell goods on which other merchants make large profits at lowest wholesale prices.

Optical Goods Department.

In this department we include Optical Goods of all kinds, Surveyors', Mathematical, Meteorological and Scientific Instruments, Drawing Instruments and Material. This is one of our leading departments, and we are in a position to furnish nearly everything made in goods of the classes mentioned, whether listed or not. Send us your orders and we will make the prices right.



Telescopes, Reading Glasses, Magic Lanterns, Opera Glasses, Field Glasses, Pocket Compases, Glass Eyes, Addington Lenses, Angles, Electric Bells, Telegraph Instruments, Learners' Sets, Thermometers, Protractors, Medical Batteries, Cupid Microscopes, Linen Testers, Gold Eye-Glasses, Gold Spectacles.

Spirit, $1 00	Syrup, $1 00	Salt, $1 00	Sugar, $1 00

German Silver Drawing Instruments.

In leather cases.

No. 1, $3 50 No. 2, $5 00 No. 3, $8 00

Brass Instruments.

No. 4, 60c. No. 5, 75c.

T Squares, 50c. to $1 00; Angles, wood, from 28c. to 50c.; Angles, hard rubber, 50c. to $2 00.

Gold Spectacles.

From $5 00 up.

System for Fitting Glasses.

Parties ordering Spectacles or Eye Glasses will please observe the following directions, which are required to insure proper glasses:

1st—State if glasses have been used, and for what purpose, reading, or for more distant objects.

2nd—If glasses have *not* previously been used, state whether vision is defective for near objects, for distant objects, or for both near and distant objects; and if glasses wanted are for reading or walking glasses.

3rd—State what the distance is (inches) from the centre of one pupil to the centre of the other. Measure with a rule or tape across the nose. Is the bridge of the nose prominent or flat?

4th—GIVE AGE.

5th—State if glasses are wanted for reading or for distant objects.

For Old Sight.

Let the customer while holding this page in a good light, at 12 to 14 inches distance from the eye, state the finest print that can possibly be read at that distance. The number over the paragraph will be about the number of convex glasses required for reading and sewing.

No. 48.

The smallest sized letter on this card should be read easily at fifteen inches from the eye. If you cannot do so you should wear spectacles. It does not pay to buy cheap spectacles.

No. 36.

They distort the rays of light, disturb the angles of vision, cause pain and discomfort, and injure the

No. 30.

eyesight. When it is necessary to hold work or reading matter farther than fifteen

No. 26.

inches from the eyes in order to see distinctly, it is a sure sign of failing vision,

No. 24.

and much annoyance, discomfort and pain will be prevented by

No. 18.

having a pair of glasses fitted.

With chain, 50c.

Police Cap.
Prices furnished on application.

Police Helmet.
Prices furnished on application.

Police Belts.

Double, Folded and Lined. Extra Quality. Every Belt Guaranteed.

These belts are made under careful supervision expressly for police service, of the best well-seasoned material, and have always proved satisfactory, wearing longer and holding their shape and finish far beyond those of common quality. They have been worn constantly by the police of New York and Toronto, and most of the large cities of the country, and have maintained their high reputation for more than 15 years.

When ordering in sufficient quantity, the clasps can be made with a special design, Coat of Arms or Monogram.

	Price per doz.
Belts for patrolmen, with white clasp	$27 00
" " gilt clasp	30 00

Uniform and reliable quality and colors.

Cords and tassels, worsted, red or blue, very neat and durable.... 4 50

Silk cords and tassels can be made at almost any price according to weight and quality of silk covering. The best are none too good. Our worsted cords and tassels are firm color and very durable.

Tower's Fluted Police Clubs and Billets.

This important improvement consists in grooves or flutings cut longitudinally in the club just where the hand of the officer closes on it, giving a firm grip which cannot be had without it. The officer finds that a ruffian, getting hold of the other end, cannot, even with double strength, twist his club out of his hand.

The fluting is equivalent to doubling the strength of the officer's hold on his club. A single trial will prove its advantage.

	Price per doz.
Rosewood fluted clubs, 16 or 18 in	$10 20
" " " 20 or 22 in	12 00
Locust " " same style as the rosewood, 22 in	9 00

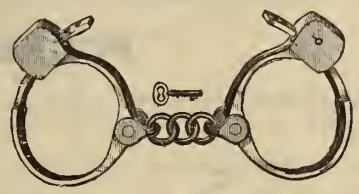
Ironwood billets, plain, 10, 12 and 14 in. " " "	6 00



Tower's Detective Handcuffs.

Extra light weight, adjustable, self-locking. Weight 12 oz. per pair.

These handcuffs are designed to meet the demand for a very light weight shackle for those officers, detectives, and others, who require to have their implements always with them, and find a few ounces saved in the weight, a matter of convenience and comfort.

They are made with forged steel bows, a strong self-acting bolt which cannot be forced, and a lock so guarded as to give ample security.

	Price per pair.
Handcuffs, bright polished	$4 00
" nickel-plated	4 75
Leg-irons, bright polished	6 00
" nickel-plated	7 00

Phillip's Pat. Police Nippers.
Price, nickel-plated, each $1.

Tower's Perfect Twisters.
The handles interlock alike from either side. Price, nickel-plated, each $1.

Bean's Patent Flexible Police Club.

This club is made of sole leather, cut to required forms and brought together under a heavy pressure over elastic steel spring wires, cemented and riveted and covered with the same material, securing a perfect surface without break or seam, and very slightly elastic; over this, to form the handle, a cover is neatly braided. A swivel is secured in the end, through which the strap is passed. It is neat and ornamental, and an easy feeling in the hand, and a firmer grip can be got upon it than on any wooden club. It cannot be broken and will last a lifetime. It has been thoroughly tested, and is endorsed as at once the most effective and most humane club in use. Adopted by many prominent police departments. Every club fully warranted. Diameter of clubs about 1½ inches; weight the same as wood.

Prices, 8 in., $2 25; 10 in., $2 25; 12 in., $2 75; 14 in., $2 75.

Bean's Patent Police Calls.—Nickel-plated, weight, 2 oz. Sold only for police use. Price, $1 00.

"Rudge" Light Roadster.

The Popular Wheel, the "Rudge."

Needs but little recommendation from us, as the standing of the manufacturers, who are the largest and most successful in the world, alone guarantees all intending purchasers that they will obtain the best machines in the market.

The large number of these wheels ridden by the most experienced riders on the path and on the road, convinces us that we have, beyond doubt, secured the best agency to represent.

The following champions have all won their races and made their best records on the "Rudge":

HOWELL, THE WORLD'S CHAMPION—Professional.
JULES DUBOIS, CHAMPION OF EUROPE—Professional.
WILLIAMSON, McPHERSON, McCORMACK, } CHAMPIONS OF IRELAND—Amateur.

Price **$85**

(Spade handles, $5 extra.) All sizes.

Specification—Ball bearings to both wheels, one-piece cow-horn handle-bar, pear-shaped handles, plain pedals, "Rudge" spring and saddle, direct spokes, U rim, and fixed step. All parts interchangeable.

"Rudge" No. 3.

Price **$65**

Specification—Unequalled ball bearings to front and back wheels, bow spring, hollow steel backbone, hollow steel front forks, plain pedals.

In order to meet a long-felt want, we have decided to give special attention to all kinds of repairing, at the lowest prices compatible with good work. We will guarantee all repairs done by our practical repairers. We also intend making a specialty of nickel plating by the latest improved process, viz., by first plating with copper, and then with nickel, which prevents rust.

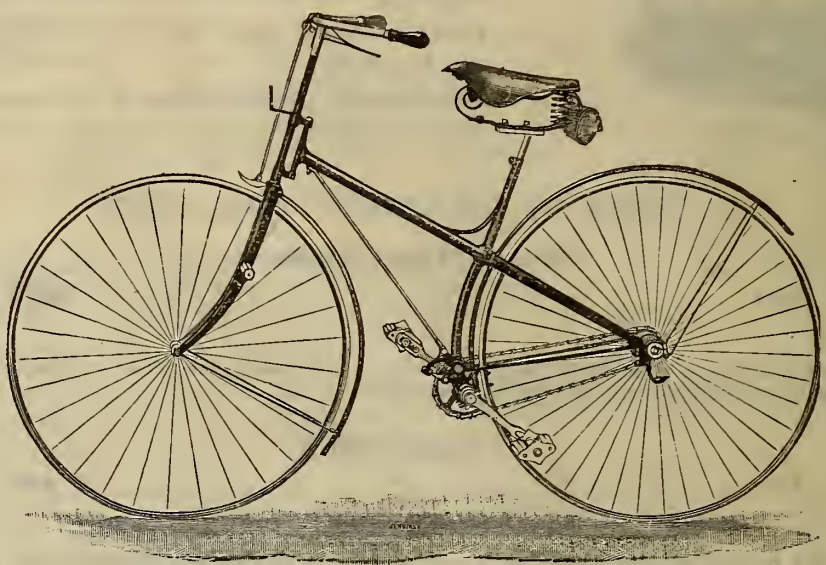
BICYCLES. *(Continued).*

"RUDGE" BICYCLETTE, No. 1.

Price..... **$125**

Specification—Ball bearings throughout, 30-inch wheels, ⅞ inch tires, tangent spokes to front and back wheels, plated 3 inches from hub, 6½ inch patent detachable cranks, hollow rims, detachable gear-wheels, and detachable bearings. All parts interchangeable. This machine holds the world's record for from 1 to 30 miles.

NOTE—We can supply non-vibrating patent spring fork and spade handles for $5 each extra. (See cut).



"RUDGE" BICYCLETTE, No. 2.

Price..... **$95**

Specification—Ball bearings throughout (except pedals), 30-inch wheels, ⅞ inch tires, direct spokes, U rims, 6½ inch cranks, step, lamp-bracket, adjustable handle and seat pillar.

"RUDGE" BICYCLETTE, No. 3.

Price..... **$70**

Specification—28-inch wheel, ⅝ and ¾ inch tires, Ball bearings throughout (except pedals) plunger brake.

Finish—Enameled. Plated parts.

The demand for a cheaper grade of safety has induced the Rudge Company to bring out this wheel for the first time, and we can safely assure likely purchasers that it cannot be surpassed by the wheels of other makers at much higher prices.

BICYCLES, ETC. *(Continued.)*

The "Gananoque" as Velocipede.

"The Gananoque.

All these machines have steel backbones, steel shafts, steel cranks, and spokes of best bright tinned steel wire, and the 24 and 30 inch are instantly interchangeable from velocipede to bicycle when required, and are warranted strong and durable.

These machines we recommend as the strongest boy's machines manufactured.

The Mantel Folding Bed.

This bed can be set up in parlor, dining room, office or library, without appearing out of place. Holds all the bed clothes when the bed is dressed, and is ready for use when let down. It is thoroughly portable.

This bed can be supplied, without drapery, for from $15 upwards. Send for price list and descriptive catalogue.

FISHING TACKLE.

We are prepared to furnish outfits for fishing in any waters. Those living at a distance and wishing outfits, can send us a Post Office Order for any amount from $5 upwards, stating the kind of fishing for which the tackle is wanted, and we will send them at once the most complete outfit that the money will buy. We most respectfully assure all who favor us with such orders that they will receive the same attention as if selected in person by the party ordering, and at the same time receive the benefit of our knowledge as to the best tackle adapted to different waters in every section of Canada.

No. E—Cheap open back glove	0 50
No. F—Cheap open back glove for boys	0 25

Spalding's Trade-Marked Baseball Bats.

The timber used in these bats is allowed to season from one to two years before being made up, and the result is, they are enabled to make much lighter and stronger bats than where the timber is hastily "kiln-dried," as done by nearly all manufacturers of cheap goods. Each bat is turned by hand, after the most approved and varied models, and if found to answer the requirements as to weight, size, length, etc., the Trade Mark is stamped on each bat to insure its genuineness.

PRICES.

	Each.	To Clubs Per Doz.
No. 000—Spalding's Special League Player's Black End Bat, made of wagon tongue ash of the finest selected second growth, and turned after the most approved model, by hand. Each bat encased in a strong paper bag	$1 00	$10 00

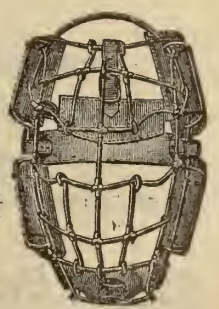
No. 53—Boys' Bat, red band, polished maple	15	1 50
No. 54—Boys' Common Unpolished Red Band Bat	5	50

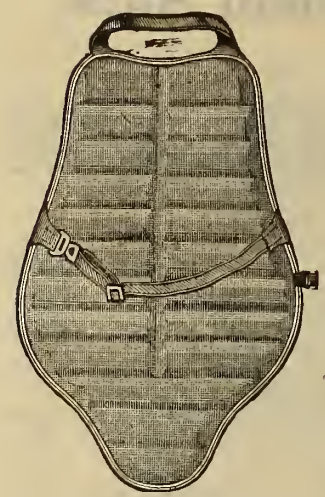
SPALDING'S
Trade-Marked Catcher's Mask.



At present it would be considered unsafe and even dangerous for a catcher to face the swift underhand throwing of the present day unless protected by a reliable mask. Spalding's trade-marked masks are made of the very best hard wire, plated to prevent rusting, and well trimmed, and every one is a thorough face protector.

	Each.
No. 000—Spalding's New Patent Neck Protecting Mask, used by all leading professional catchers, extra heavy wire, well padded with goat hair, and the padding faced with the best imported dogskin	$4 50
No. 00—Spalding's Special League Mask, made in the same way as No. 000, but without neck protector	4 00
No. 0—Spalding's Regulation League Mask, made of heavy wire, well padded and faced with horsehide, warranted first-class	$3 50
No. A—Amateur Mask, made the same size and general style as the League Mask, but with lighter wire and faced with leather (We guarantee this mask to be superior to so-called league or professional marks sold by other manufture)	2 25
No. B—Boys' Mask, similar to the Amateur Mask, only made smaller to fit a boy's face	1 50

Baseball Sundries, Etc.



Gray's Patent Body Protector.

The most useful device ever invented for the protection of catchers or umpires, and renders it impossible for the catcher to be injured while playing close to the batter.

Price ..... each $10 00

Price, **6c.** per pound.

INDIAN CLUBS.

Our first quality Indian Clubs are made of clear, hard maple, after the Kehoe and other improved models, lathe polished, and first-class in every respect. Our second quality are made the same as the first quality, but of timber which is not suitable for the first quality clubs, and has some checks and knots; they have a varnish finish, and compare favorably with what other dealers sell as a first quality.

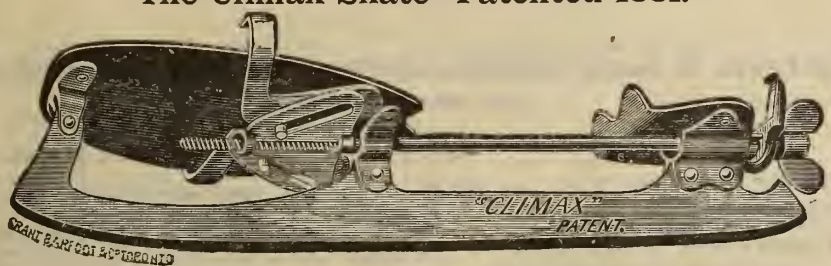
Extra fine calf skin, maroon, yellow and black	$6 00
Fine canvas shoes	$1 50, 3 00, 4 00, 5 00

The Climax Skate—Patented 1881.



The following are the reasons why the Climax Skates are preferred to those of all other makers:

1st—Being self-adjusting they require no key.

2nd—A lady can put them on without removing her gloves, as she has only to give the wings of the fastening screws a couple of turns to fasten them.

3rd—When these skates are on it is impossible to remove them from the boot without the will of the wearer.

4th—The Climax is more reliable than any other skate, as the Company uses nothing but the best steel, the blades being hardened and put together with the best Swedish iron rivets.

	Per pair.
No. 1—Polished all over and nickel plated	$3 50
No. 2—Polished blades, heel pieces and claws and nickeled	2 75
No. 3—Hardened steel skates, like the others, but not plated	2 50

The Acme Spring Skate.

This well known and popular skate is the best cheap skate on the market, can be put on or taken off in five seconds. When properly adjusted to the boot, it is an impossibility for them to fall off.

No. 0—Polished steel blades, with wrench	$0 75
No. 5—Polished steel blades and clamps, better quality	1 25
No. 7—Polished steel blades, best hardened steel	2 25
No. 7—Polished steel blades, nickel plated	3 25

HARDWARE DEPARTMENT.

We request special attention to each page of this department; the goods described are all of the first quality of each particular grade, and in no case is quality sacrificed to meet price. All orders will be executed and forwarded with promptness. We are first hands, and those who buy of us pay but one profit. Correspondence invited. We will take pleasure in furnishing any information desired.

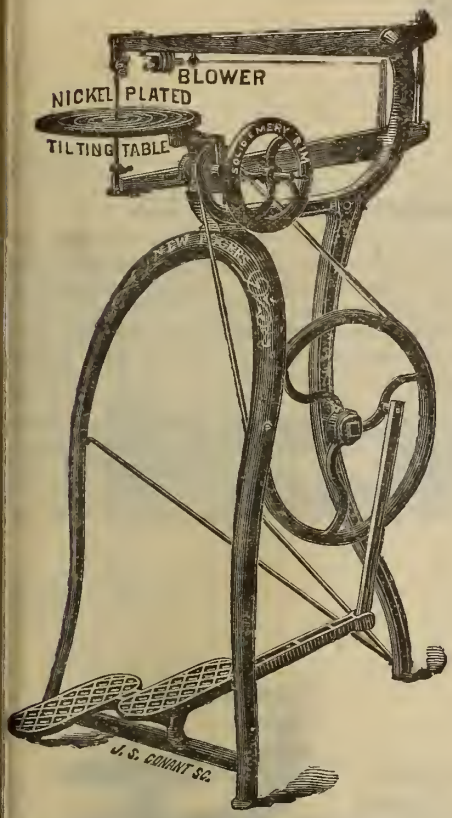
Joseph Rodgers & Sons' make.

HARDWARE.

Scroll Saws and Lathes.



New Rogers Saw No. 2.

Consists of scroll saw, with nickel-plated tilting table, emery wheel, power drill, Pratt's rubber positive blower, 6 saw blades, wrench, sheet of designs, and 3 drill points. Weight of saw, 25 lbs. Each machine is set up and run and carefully inspected before leaving the works. It is then taken down and shipped in close boxes. Price each, **$5 25**

New Rogers Saw No. 1.

With balance of iron instead of emery, and with tilting table japanned instead of nickel-plated. Price each, **$4 75**

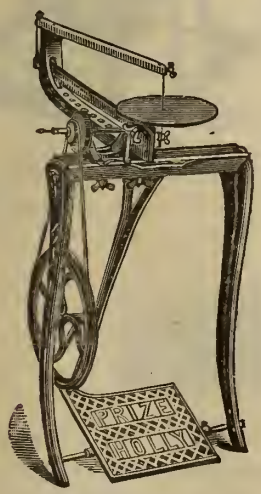
Hand Bracket Sets.

No. **1**—Polished frame, ebony handle, 1 design, 6 saw blades, 1 awl, 2 files, 1 clamp. Price each, **$1 00**

No. **2**—Nickel-plated frame, rosewood handle, with 50 designs, 6 saw blades, 1 awl, 1 sheet of impression paper. Price each, **$1 25**

Prize Demas Saw and Lathe No. 10.

Consists of scroll saw, with polished tilting table, emery wheel, power drill, 12 saw blades, 3 drill points, and 30 patterns; with lathe and 5 turning tools. Price each, **$9 50**



Prize Holly Saw No. 1.

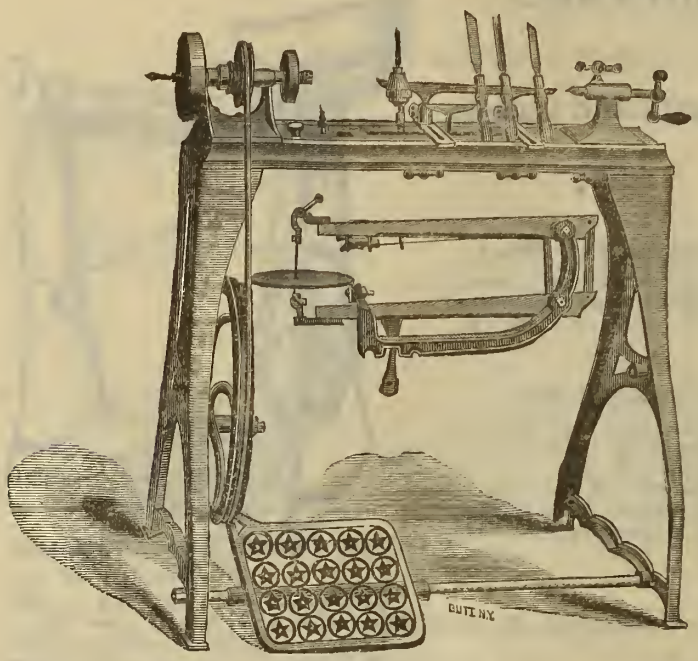
Consists of scroll saw, with polished tilting table, emery wheel, power drill, 12 saw blades, 1 drill point, and 12 designs.

Price each **$3 25**

Companion Lathe and Saw.

Length of lathe bed, 24 inches; distance between centres, 15 inches; swing of lathe, 5 inches; with three turning tools and wrench; scroll saw with tilting table, dust blower, 6 saw blades, sheet of designs and 3 drill points. Price each, complete, **$11 25**

HARDWARE. *(Continued).*



Goodell Lathe, No 20.

This lathe is patterned almost exactly after the latest improved lathes now used in the best machine shops. The large driving wheel has two grooves to give a change of speed. The higher speed is 11 to 1, the lower 7 to 1. The lathe head is provided with a 2 in. face plate, a spur centre, a screw centre for turning caps, a drill chuck to hold straight shank drills 1-32 to ¼ in., also a 4½ x ⅞ inch solid emery wheel, and drill spindle for small drills. The tail stock has a screw feed centre. Swing of lathe 5 in., length of bed 24 in., distance between centres 15½ in. Complete with long and short tool rests, 5 turning tools, wrench and drill points. Price, each $13 25
Lathe and saw, complete 16 00

Demas Lathe, No. 4.

Length of bed 42 inches, with planed ways; height from floor 34 inches, swing of lathe 5 inches, distance between centres 30 inches. Adjustable lathe, rest and tail block, with hand wheels. Diameter of heavy balance wheel 21 inches, ¾ inch steel shaft, weight of lathe 130 lbs. Price, each $18 50

Improved Demas Saw, No. 5.

Height of saw table from floor, 43 inches, height to top of bed, 36 inches; diameter of drive wheel, 21 inches; weight of drive wheel, 46 lbs.; weight of machine, 110 lbs. A plank 2½ inches thick and 24 inches long or wide can pass under arm and back of saw blade. Price, each, with one blade $15 50

Patent Adjustable Beading, Rabbet and Slitting Plane.

This plane embraces in a compact and practical form (1) beading and centre beading plane; (2) rabbet and filletster; (3) dado; (4) plow; (5) matching plane; and (6) a superior slitting plane.

Each plane is accompanied by seven beading tools (1-8, 3-16, 1-4, 5-16, 3-8, 7-16 and 1-2 inch), nine plow and dado bits, (1-8, 3-16, 1-4, 5-16, 3-8, 7-16, 1-2, 5-8 and 7-8 inch), a slitting blade and a tonguing tool.

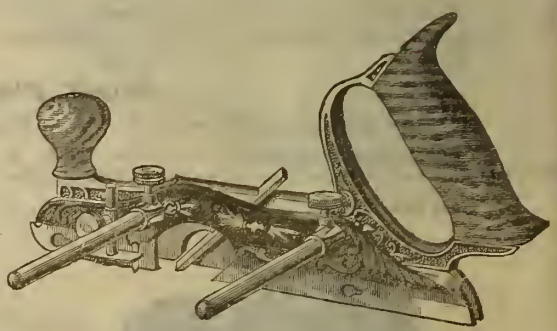
No. 45—Iron stock and fence, with eighteen tools, bits, etc $8 00

Traut's Patent Adjustable Dado, Filletster, Plow, etc.

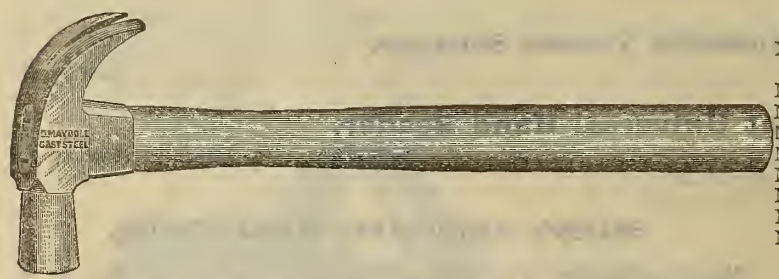
This tool is accompanied by eight plow and dado bits (3-16, 1-4, 5-16, 3-8, 1-2, 5-8, 7-8 and 1 1-4 inch), a filletster cutter, a slitting blade, and a tonguing tool. All, except the slitting blade, are secured in the main stock on a skew.

Adjustable Dado, Filletster, Plow, etc.

No. 46—Iron stock and fence $7 00



Cast Steel Nail Hammers.



No. 50—Adze eye, solid cast steel improved nail holding, 1 lb., 4 oz.	$1 00

HARDWARE. *(Continued.)*

Green River Tire Measuring Wheel.

We aim to supply wheelwrights with a perfect running wheel, turned carefully in a lathe, and made to revolve on the points of screws, so as to wear true, at a price cheaper than they can afford to make it. The index hand saves trouble of marking with chalk, and the whole, made of metal, is light, accurately fitted, handy and strong.

Price graduated $1 85
Price not graduated 1 60

Blacksmiths' Anvils.
